

AIM Pathways to Proficient Reading: Mississippi Licensure Course Syllabus

AIM PATHWAYS

AIM Pathways is an interactive, digital, professional development platform designed to strengthen educators' knowledge and skills in the science of literacy instruction. Course content is aligned to the International Dyslexia Association's *Knowledge and Practice Standards for Teachers of Reading*. Online coursework is accessible at your convenience—24 hours a day, 7 days a week, anywhere there is an internet connection. In order to translate theoretical models into classroom practice, AIM Pathways courses are designed to follow a Learn, Practice, and Apply cycle:

- **Learn** – Participants acquire knowledge by interacting with video lectures, articles, animated videos, and more.
- **Practice** – Participants practice newly acquired knowledge through card-sorting exercises, quizzes, and surveys.
- **Apply** – Participants apply their understanding of the content to real-life simulations and case studies. These in-depth, multi-step scenarios give educational leaders a chance to hone their diagnostic and prescriptive decision-making skills for instructional programming.

The AIM Pathways course platform also includes a variety of downloadable and printable resources for educators to use in classroom planning and instruction, including student checklists and rubrics, systematic scope-and-sequences, instructional scripts, student manipulatives, sample lesson plans, differentiation and intervention tools, and more. These valuable resources are readily accessible to participants and easily searchable on all digital devices.

PATHWAYS TO PROFICIENT READING COURSE

Pathways to Proficient Reading is designed for educators who are committed to learning about the connection between reading research, theoretical models such as the Simple View of Reading and Scarborough's Reading Rope, and best practices for language and literacy instruction in the classroom. Participants will learn effective instructional practices that will benefit all students, including linguistically diverse populations and those with or at risk for language-based learning disabilities. At the end of this professional development opportunity, participants will be able to draw from their specialized knowledge in the science of reading to increase their students' literacy outcomes through evidence-based diagnostic, prescriptive literacy instruction and intervention. The course will also prepare participants for the Center for Effective Reading Instruction's Knowledge and Practice Examination for Effective Reading Instruction (KPEERI) exam and certification.

By enrolling in the *Pathways to Proficient Reading Licensure* course, you can obtain licensure

in the endorsement area of Elementary Education, approved by the Mississippi State Board of Education. To be eligible for this course, you must have attempted the Foundations of Reading assessment as one criterion for initial licensure in Elementary Education, currently employed as a teacher of record in a Mississippi State Board of Education-accredited local school district, and seeking to obtain a standard license in the area of Elementary Education.

COURSE INTRODUCTION & PRE-COURSE KNOWLEDGE INVENTORY

Participants will log in to the AIM Pathways platform at <https://www.aimpathwaysonline.org/#/public-dashboard>. (If this is your first AIM Pathways course, you will receive an email from pathwaysupport@aimpa.org with directions.) The introductory section of *Pathways to Proficient Reading* will 1) introduce participants to the digital platform 2) provide an orientation to course content and requirements and 3) require completion of a pre-course knowledge inventory to establish a baseline of current content knowledge. When participants take the knowledge inventory, they should refrain from consulting any resources.

COURSE GRADES

The *Pathways to Proficient Reading* course includes graded end-of-section assessments. Grades are displayed as percentages. Your end-of-section assessment is used to calculate the section grade, which is displayed for each section via the “Lesson Details” tab within the course. The final course grade is calculated based on two key components: 1) 80% from the average of your section scores, and 2) 20% from the post-knowledge inventory score. The weighted average from these two components must be **at least 80% to pass this course.**

Participants can improve their grade by retaking any graded quiz; each quiz may be taken a maximum of two times. Participants may wish to hold off on taking a quiz for a second time until after the community-of-practice meeting or request a brief appointment to speak with the facilitator so that they have an opportunity to clarify any misconceptions before their final attempt at a quiz.

COMMUNITY-OF-PRACTICE MEETINGS

The 15-section *Pathways to Proficient Reading* course is accompanied by two 6-hour synchronous meetings focused on implementation. An AIM Pathways Facilitator supports the community with translating the course content knowledge into evidence-based instructional practices. Participants will be provided a customized pacing guide for completing the course sections and attending these mandatory meetings.

COURSE CONCLUSION & POST-COURSE KNOWLEDGE INVENTORY

Upon completion of *Pathways to Proficient Reading*, participants will take a post-course knowledge inventory in order to assess their mastery of the content and their knowledge gains from the pre-course baseline assessment. This inventory is completed independently within the concluding section of the course. Participants are encouraged to use their note-taking guides during the post-course knowledge inventory, which is designed to take approximately 60

minutes. Participants are allowed to use as much time as they need, although it must be taken in one single sitting by the date indicated on the pacing guide. Please note that participants are allowed **one attempt only** on the post-course knowledge inventory.

CERTIFICATE OF COMPLETION

The overall course grade is calculated based on two key components: 1) 80% from the average of your section scores, and 2) 20% from the post-knowledge inventory score. A certificate of completion is available under “Transcripts” upon completion. If, after completing the course, you retake any graded quizzes and score higher on your second attempt than your first, the system will immediately update your overall course grade. Remember, you must review recommended materials prior to taking your second and final attempt on a graded quiz, and you are encouraged to ask your facilitator any outstanding questions at community-of-practice meetings and weekly office hours. In addition, please be mindful that if you intend to continue your professional learning journey and take AIM Pathways to Structured Literacy, you will be required to have a minimum course average of **at least 80%**.

IDA KPS Statement: The International Dyslexia Association's (IDA) Knowledge and Practice Standards for Teachers of Reading Coursework is aligned with IDA's Knowledge and Practice Standards (KPS) for Teachers of Reading. The KPS outline the knowledge and skill that all teachers of reading should possess. Standard 1 addresses foundational concepts, derived from interdisciplinary research, about reading development and reading difficulties. Standard 2 covers knowledge of diverse reading profiles, including dyslexia. Standard 3 pertains to knowledge of assessment. Standard 4 addresses Structured Literacy™ teaching, offering detailed guidance with regard to the nature of effective instruction in each major domain (phonological sensitivity and phoneme awareness; phonics and word recognition; reading fluency; vocabulary; listening and reading comprehension; and written expression). Standard 4 also offers guidance regarding expectations for teachers engaged in field work or practicum (e.g., in interpretation of assessments, planning differentiated instruction, lesson design, corrective feedback, and so forth). Standard 5 delineates ethical standards for the profession. The content of the Pathways to Structured Literacy course is aligned to these Knowledge and Practice Standards for Teachers of Reading (KPS).
