Fontainebleau High School
AP, DE, CLEP and CTE Enrollment Program

Advanced Placement AP	Dual Enrollment DE
What? AP courses are college level courses developed with specific curriculum to implement in a high school setting by College Board.	**What?** DE courses are college courses taught on a high school campus who follow a mandatory curriculum designed by the partner university or technical college.
Why? AP Courses are considered more academically rigorous than DE by some college admission committees. In May, students will take the AP exam. The score and university a student selects will determine credit earned.	**Why?** Complete credit hours on transcript to bypass introductory level courses taught on a college campus.
Who? Students with above average standardized test scores and high academic performance. This may be a better choice for students planning to attend out of state or ivy league colleges.	**Who?** Students enrolling in 10th - 12th grade who meet the minimum requirements set forth by the Board of Regents and partner university and/or college. This may be a better choice for students who plan to attend college in state. Minimum GPA of a 2.5 required.

AP Courses	DE Courses Offered
AP English III (AP Language and Composition) AP English IV (AP Literature and Composition) AP Pre-Calculus AP Calculus AB AP Calculus BC AP Biology II AP Physics AP European History AP Government and Politics AP Human Geography AP U.S. History AP Psychology AP Participation Criteria: • Must take AP exam for course • Summer/holiday reading is required for some courses. CLEP

The College Board's College Level Examination Program (CLEP) is a nationally recognized credit-by-examination program that provides high school students an opportunity to demonstrate their mastery of college-level materials in introductory subjects and earn college credit. Developed by the College Board, CLEP has been the most widely trusted credit-by-examination program for over 40 years, accepted by 2,900 colleges and universities and administered in over 1,800 test centers. A passing score on tests allows students to earn between 3 and 12 credits of college-level coursework before leaving high school, depending on the guidelines of the specific postsecondary institutions. CLEP scores are available immediately upon completion of the exam. The amount of credit you can earn on an individual CLEP exam varies with each college. Refer to the college credit policy search (https://clep.collegeboard.org/clep-college-credit-policy-search) or contact the university you intend on attending to determine which course(s) you would receive credit for based on the selected CLEP test. Please see Ms. Jackson in the counseling office for more information.

Frequently Asked Questions

Is there a minimum GPA needed or ACT score required for DE courses?
SELU requires a minimum GPA of 2.5 or higher, ACT or Pre-ACT sub score of >18 English and >19 Math are required.

Is there a cost to take DE or AP courses at FHS?
Yes, our DE courses are offered at a reduced tuition cost of $275.00 per 3 credit hour courses with SELU, however, we offer a grant that covers up to 12 credit hours per student per academic year if funding is provided. Additional fees may be required (i.e.: technology fee for all MATH courses). Sociology and Theatre are NOT covered by this grant and must be paid in full to enroll. If a student withdraws from any SELU course the $275.00 grant assistance fee is to be repaid to the district fund, collected at the school site. AP examination fee $99.00 per exam. NTCC fees differ.

How do I apply for a DE Academic Course from SELU?
If you are a first time DE student, you are required to create an account on the SELU website. Ms. Wortmann, our School to Work Coordinator, will be able to provide additional information.

How do I apply for any DE CTE course offered by NTCC?
A two-sided paper application is given to you by your FHS teacher to be completed in ink, signed, and returned to be officially enrolled.

What happens if I decide to "Drop or Withdraw" and/or leave FHS while enrolled in any DE course?
Only your grade level counselor can honor this request. Parents or guardians will sign the drop request and payment of the entire tuition cost of $275.00 or more is collected. Your official college transcript will show the course as a "W" no grade or numerical value earned.

What should I expect from either taking an AP course or a DE course?
Faster paced expectations, time management skills, daily studying, independent work outside the school setting, and challenging assessments.

Will my DE course be accepted by another institution upon graduating from FHS?
Our contract with SELU guarantees that all academic credits earned as a DE high school student will transfer to all public universities in the state of Louisiana. Our courses contracted with NTCC are subject to review for transfer outside of each identified institution.

Dual Enrollment Courses Offered at Northshore Technical Community College

FHS Course	Pre-Qualifications or Requirements
Carpentry I	Closed toe shoes
Welding I	Leather pull-on boots Cotton Jeans boot cut (no stretchy jeans) Long sleeve fire resistant shirt with snaps and no open pockets NO POLYESTER
Welding II	Welding I and certification(s) 11th & 12th grade (Same clothing requirements for Welding I)
HVAC	12th grade only off campus, provide own transportation
CMAD drafting	Basic Technical Drafting
EMT	Application including vaccines and health screening required First Responder EMR and certification(s) 12th grade only Taken and passed Biology Scrubs, GPA 2.5, provide own transportation, Bureau of EMS requires a driver's license/ID and does not allow for academic or physical accommodations Weekend ride along required
PPN	First Responder EMR and certification(s) 3-year commitment Application, GPA, Scrubs, provide own transportation ** Must enroll in 11th grade
Medical Terminology	Recommended for students enrolled in DE Bio., Anatomy (H), or Bio II.
