2026-27 Course Request Process
Middle School to High School

February 10th-11th:

IHS welcomes current 8th graders and one supporting adult or parent to **attend an evening event at the high school**. More information will come to families directly from IHS and from Middle School principals. Be on the lookout for details.

February 24th:

Course Guide and supporting material available at the Issaquah High School counseling website under the "Course Request Process" option. Introduction video to be played by middle schools during SOAR/HR/LYNX time this week. Grade level specific information is available sorted by graduation year at the bottom of the course request page.

February 25th:

Skyward Student Access opens at 8am for students to start submitting requests.

February 27th:

IHS Counselors will be at lunch at all 3 middle schools to answer questions you have. We will have staff at all three middle schools that week during lunches for 8th graders. It is advised that students and families use the online materials in advance of this date so students can bring specific questions to the IHS counselors.

March 6th @ 8am:

ALL **course requests DUE**. Course requests AND alternates need to be entered into Student Access. Students must enter 7 credits and 3-4 alternates. This must be done via *Student Access*, not with parents/guardian logins.

Late August 2026:

Students can log in to Skyward and view their schedules. If the student needs to request a change to the courses they are enrolled in (for limited reasons), there will be specific instructions for schedule change requests/timelines provided at this time.
