Grenville Baker Boys & Girls Club Presents
Community Cares Conversation Series

Cardiac Risk for Student Athletes

Sponsored by Glen Cove Hospital
Featuring Dr. Carl Schreiber, MD

Topics will include:

Who is at risk?

Understanding cardiac conditions that may affect student athletes.

What can be done to prevent cardiac events?

Safety measures, education, and proactive care.

Warning signs to watch for.

Symptoms parents and coaches should never ignore.

The role of cardiac screenings.

Should baseline cardiac screening be mandatory for all student athletes?

Join us for an important discussion focused on the health of young athletes.

This community conversation is designed for parents, coaches, educators, and caregivers who want to better understand cardiac risks in student athletes.

Why Attend?

Early awareness and education can save lives. Learn how to recognize risks, ask the right questions, and advocate for the health and safety of young athletes in our community.

All are welcome.
