

Rhea Stewart

Rhea's career in educational content development includes building K-12 digital mathematics and science experiences for students and teachers, along with collaborating with instructors to design online professional development courses with UC San Diego Extension. A favorite experience was filming live mealworms for a middle school life science interactive laboratory.

Rhea's three children are proud graduates of Cardiff Elementary, Ada Harris, Oak Crest, San Dieguito High School Academy, and California's outstanding public universities.

A long-time Cardiff resident, Rhea and her husband Scott and their two dogs enjoy walking at San Elijo Lagoon.

Cardiff's Lifelong Learner Profile includes statements that describe Rhea's commitment to Cardiff students: being an active listener who speaks up on behalf of others to foster a sense of community, along with an emphasis on a love of learning.
