ARTS AND CRAFTS CLUB

Join us for painting, crafting and fun!

The **Arts and Crafts Club for K–2 students** is a fun, creative space where students can explore art through hands-on activities. The club encourages self-expression, imagination, and fine motor skill development using age-appropriate materials and techniques.

Students participate in projects such as drawing, painting, and seasonal or themed crafts. Activities are guided but flexible, allowing children to make choices and take pride in their individual creations. The club also promotes social skills like sharing materials, following directions, and collaborating with peers.

Overall, the Arts and Crafts Club helps K–2 students build confidence and creativity in a supportive and fun environment.

***Maximum number of students 10.*
