“What we really need in IT
is someone who has super powers.”

Digital Citizenship

Common Sense Education

(Digital Citizenship and Internet Etiquette)

*All students K-12 participate in classroom activities based around these skills

"Take responsibility — it's where your powers live." Will Craig

Taking Flight Technology Program

* 264 students (grades 6-12) participating in insurance program, which is about 60 more than last year

Professional Development

- Technology EdCamps
 - AI Tools in the Classroom
 - Google Training and Implementation
 - Instructional Tech Tools Q&A
 - Using Your Cleartouch Panel/Apple TV
- District Google Classroom
- New Teacher Training and Back to School

Leveraging AI in the Classroom: Tools for lesson development and planning
<https://tinyurl.com/tjolly1>

- Set up new computer lab for current and potential future courses in HS
- Provided 75" Interactive Flat Panels (IFP) for checkout in MS & HS Libraries. Working toward providing an IFP in every instructional classroom in district
- Collaborated with JAG program to get a student intern some hands-on experience. He has been able to reclaim several parts from non-functioning devices that can be used to repair current student devices
