Lakeview
SCHOOL DISTRICT

February 1, 2026

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2024-25 educational progress for Lakeview High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about accountability, student assessment, and teacher quality. If you have any questions about the AER, please contact the building principal for assistance.

The AER is available for you to review electronically by visiting the following website: https://bit.ly/4jG99v1, or you may review a copy in the main office at your child's school.

For the 2025-26 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student group in 2024-25. An Additional Targeted Support (ATS) school is one that had at least one student group performing at the same level as the lowest 5% of all schools in the state in 2021-22. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state, had a graduation rate at or below 67%, failed to exit CSI status in 2024-25, or failed to exit ATS status in 2021-22. Some schools are not identified with any of these labels. In these cases, no status label is given.

Our school has not been given any of these labels.

As shown below, Lakeview High School increased the number of students proficient in reading on the SAT, however we saw a dip in those proficient in math. In order to improve both of these numbers, we have focused on building strong relationships between teachers and students, learning more about specific skills assessed on the SAT, and making sure that students are academically successful in all of their classes. We have added additional support time within the school day to give all students the ability to have access to their teachers when they need additional help.

State law requires that we also report additional information

Students enrolled in kindergarten through 4th grade attend one of four district elementary schools. Elementary school assignment is based on a student's neighborhood of residence. Students enrolled in grades 5 through 8 attend Lakeview Middle School, and students enrolled in grades 9 through 12 attend Lakeview High School.

Lakeview High School staff use school achievement and individual student assessment data to develop three to five year improvement goals. These goals help inform further data analysis, staff professional development and changes to instructional delivery. Lakeview High School is looking to improve student college and career readiness by improving student organization and other academic behaviors. Lakeview High School will also use student performance data to identify high leverage tier one teaching strategies to improve classroom engagement.

The core curriculum represents learning objectives in place for all students. Lakeview School District continually assesses and reviews curriculum to ensure alignment with federal and state standards. Grade level and course content standards and benchmarks are available in the school office. The course description guide can be found at lakeviewspartans.org.

Aggregate student achievement data for assessments are included in the Annual Education Report. This data is used to monitor student growth and identify areas of improvement around instructional delivery. For the year 2023-2024, 24% of students met both benchmarks on the SAT. For the year 2024-2025, 19% of students met both benchmarks on the SAT.

Parent/teacher conferences are an important means of communicating between schools and home regarding a student's academic progress. Conference attendance during the 2023-2024 school year was 8.9% in the fall, 4.14% in the winter, and 2.23% in the spring. During the 2024-2025 school year, it was 13.1% in the fall, 7.7% in the winter, and 7.7% in the spring.

During the 2023-2024 school year, 75 students are enrolled in at least one dual enrollment experience, or 5.5% of students. For the 2024-2025 school year it was 95 or 7.9% of students.

Lakeview High School offered 21 Advanced Placement (AP) or college equivalent courses in 2023-2024 and 22 in 2024-2025.

During the 2023-2024 school year, 343 students are enrolled in Advanced Placement courses, or 25.5%. In 2024-2025, 353 students were enrolled in Advanced Placement courses or 29.4%.

In 2023-2024, LHS students earned 83 test scores of 3 or higher on an Advanced Placement test, which would put them in a position to receive college credit. That is 6% of our student population. In 2024-2025, LHS students earned 159 test scores of 3 or higher. That is 8.2% of our student population.

As always, we will work towards the continuous improvement of our school. Our staff is committed to partnering with families to ensure that students have the best possible support towards their academic achievement and success. We celebrate the work towards student achievement, and we are committed to learning and growing alongside our students.

Please reach out if you have any questions.

Sincerely,

Cody Japinga
Lakeview High School Principal
