Who We Are

Detroit Public Schools Community District is Michigan's largest public education system. It is governed by a locally-elected, seven-member board with Dr. Nikolai Vitti serving as superintendent. We champion a whole child approach that combines superior academics with socio-emotional, extracurricular, and health services tailored to each student's needs.

Our Mission

We educate and empower every student, in every community, every day, to build a stronger Detroit.

Our Vision

All students will have the knowledge, skills, and confidence necessary to thrive in our city, our nation, our world.

The Board has established a bullying policy to provide a safe and nurturing educational environment for all of its students and an equally safe and mission-driven environment for its employees. The policy is intended to protect individuals from bullying and aggressive behavior regardless of the matter or motivation for the impermissible behavior. Book: Policy Manual.

MENTAL HEALTH GUIDE

TIPS AND TOOLS FOR SELF-CARE

There is not a one-size fits all answer to self-care. When choosing strategies make sure you utilize practices that are personally relevant and helpful to you and your family. Here are some strategies to consider:

- Recognize and validate emotions
- Stay in the present
- Separate out what you can and cannot control
- Notice and manage your worried thoughts
- Pay attention to joy
- Balance structure and exibility
- Get active
- Stay connected

TIPS AND TOOLS FOR TALKING TO YOUR CHILD

Talking about mental health – Open ended questions:

- How are you feeling? Can you tell me more about what's on your mind?
- How can I help you feel better? Ya know, sometimes you need to talk to an adult about your feelings - I'm here to listen.
- Have you had feelings like this in the past?
- Do you feel like you want to talk to someone else about your problem?
- I'm worried about your safety. Can you tell me if you have thoughts about harming yourself or others?

TIPS FOR APPROACHING THE CONVERSATION

- **Communicate in a straightforward manner**
- **Speak at a level that is appropriate for your child's age level**
- **Discuss the topic when you are in a calm environment and your child feels comfortable and safe**
- **Watch for reactions during the discussion and slow down or back up if your child becomes confused or looks upset**
- **Listen openly and let your child tell you about their feelings and worries**

Guidance with Elections | 25-26 School Year

To ensure a transparent and fair election process:

- Detroit Council Presidents will **not** vote in PTA/PTSA elections.
- All PTA/PTSA elections will be conducted **by ballot unless** PTA/PTSA unit bylaws state otherwise.
- Members must be present to vote (no proxy voting).

Schools With a PTA/PTSA

If your school already has a PTA/PTSA, elections will follow the unit's bylaws:

- **January (or month set by bylaws):**
  - The school's PTA/PTSA nominating committee will collect nominations as outlined in the unit's bylaws.
  - Detroit Council President or School PTA/PTSA President will provide the unit's bylaws to the members.
- **March/April (or election month in bylaws):**
  - PTA/PTSA holds its election meeting (annually, biennially, or triennially).
  - School community and members will be notified of the upcoming election at least 30 days prior to the election meeting.
  - Nominees and voters must be paid PTA/PTSA members by the deadline outlined in the unit's bylaws.

Special note:
If unforeseen issues arise (such as power outages, building problems, weather, quorum not met, or other extenuating circumstances), elections may take place **after April.**

Schools Without a PTA/PTSA

If your school does not yet have a PTA/PTSA, here's how elections will work:

- **A Parent Engagement meeting will be set up** with the principal or his/her designee and Detroit Council Presidents to hold the election.
- Two weeks prior to the meeting the Detroit Council Presidents will share information about PTA/PTSA membership and roles with the school community.
  - Nominations for PTA/PTSA officers will be collected.
  - Elections will be held by ballot during the meeting.

Formalizing your PTA/PTSA:
If your school already has a parent group with officers who have not been confirmed with Detroit PTA/PTSA Council, contact the Detroit Council Presidents to begin the process.

To keep communication strong and make sure parents, students, and schools feel supported, the Assistant Superintendent of Family and Community Engagement (F.A.C.E.), the Detroit PTA/PTSA Council Presidents, and State PTA leaders will meet every month to talk about how PTAs are doing, celebrate successes, and address any challenges.

If you have questions or need help with your school's PTA/PTSA, please reach out to:

Gabriela Sullen, Program Supervisor, at **gabriela.sullen@detroitk12.org** or 313-651-3789 or
Charldine Bowens, Program Associate **charldine.bowens@detroitk12.org** or 313-288-9872.

Did You Know?

Being prepared for school starts with a dental screening. Kindergarteners are now required to have one.

A healthy mouth is important. **Dental problems can prevent children from doing well in school. Kindergarteners are required to have a dental screening** so that any problems can be fixed and they attend school ready to learn.

Cavities are common. Tooth decay (cavities) is the most common chronic disease in children.

Cavities can cause pain. Pain can make it hard for children to pay attention in school, prevent them from eating well and keep them awake at night. All of this can affect their ability to learn.

Dental problems affect attendance and grades. Children with dental problems miss more school than children with good dental health.

Facts About Kindergarten Dental Screenings

1. **It's easy to get your child screened.** Local health departments provide the screenings (oral health assessments) before the start of kindergarten at places like preschools, school registration events, community events and in schools during the kindergarten school year. Check with your school or the local health department for a schedule.

2. **The screening is free.** There is no cost to you if the local health department does the screening. Check with the school to find out when the health department will be at the school, or call the health department to check when and where they will be screening.

3. **A dental screening is simple and fast.** A dental professional will look into your child's mouth and note what they see on the screening form. No treatment is done. It's simply a quick look in the mouth. They will let you know if your child needs to see a dentist.

4. **Help is available.** The local health department can help you find a dentist if you don't have one. Your child may be able to enroll in the Michigan Healthy Kids Dental Program if they don't have insurance. For information about Healthy Kids Dental, visit www.michigan.gov/mdhhs/assistance-programs/healthcare/childrenteens/hkdental.

Know the Facts

Protect Your Child from Lead Exposure

Accessible Version: http://www.cdc.gov/nceh/lead/docs/know-the-facts.html

Exposure to even small amounts of lead can harm your child. Children younger than 6 years of age are most vulnerable to lead poisoning. If you are pregnant or breastfeeding, lead can harm your baby. This fact sheet provides information that can help you protect your child from lead exposure.

FACT: Lead exposure can cause lifelong health problems.

Lead exposure harms several body systems including the brain, nervous, and reproductive systems and results in

- Developmental and growth delays
- Hearing and speech problems
- Difficulty learning and paying attention
- Serious illness and death

More information is available on the Health Effects of Lead Exposure web page.

FACT: A blood lead test is the best way to know if your child has been exposed to lead.

Most children exposed to lead do not appear to be sick. Talk to your child's healthcare provider about getting a blood lead test. For children ages 1–5 years, consider getting them tested for lead if they

- Live in a home built before 1978
- Receive Medicaid services
- Are an immigrant, refugee, or adopted from another country (Please note that CDC recommends all refugee children be tested upon arrival and several months after resettling into their new home. For more information on lead exposure regarding refugees and newcomer persons, visit the Refugees and Other Newcomer Persons web page.)
- Live near a known source of lead, such as a lead smelter or mine.

Based on your child's blood lead level, your healthcare provider can recommend what to do next. Visit CDC's Recommended Actions Based on Blood Lead Level web page for more information.
