

ACCEPTABLE GEN AI ROLES FOR STUDENT USE AT CHOATE ROSEMARY HALL

	<p>AI NOT INVITED: NO USE</p>	<p>This assignment must be completed without use of Generative AI in any capacity.</p> <p>No disclosure or citation necessary since use is not permitted. No disclosure or citation necessary since use is not permitted. This assignment is working towards specific skills, goals, or learning outcomes that are important for a student to be able to do and demonstrate without the assistance or enhancement of Generative AI.</p>	<p>No disclosure or citation necessary since use is not permitted.</p>
	<p>THINKING WITH AI: AI-ASSISTED IDEA GENERATION AND STRUCTURING</p>	<p>This assignment allows for students to engage Generative AI as they brainstorm a topic, conduct preliminary research, or seek feedback about the structure of their self-generated content.</p> <p>No AI-generated content is allowed in the assignment itself.</p>	<p>Student must acknowledge use of Generative AI on assignment and include link to chat.</p> <p>Since no AI-generated content may be in the assignment, citation is not necessary.</p>
	<p>TUTORED BY AI: AI-ASSISTED FEEDBACK AND REVISION</p>	<p>This assignment allows students to share their self-generated work with Generative AI to seek feedback and suggestions, ask questions, and gain general guidance to improve upon the work.</p> <p>AI should not be used to generate any new work in the assignment but can offer suggestions about steps to take for the student's improvement. Students may accept suggestions to rewrite or reword existing sentences from Generative AI to enhance clarity, intention, accuracy, tone, etc.</p>	<p>Student must acknowledge use of Generative AI on assignment and include link to chat.</p> <p>Since no AI-generated content may be in the assignment, citation is not necessary.</p>
	<p>COLLABORATION WITH AI: AI FOR SPECIFIC TASK COMPLETION</p>	<p>This assignment allows for Generative AI to provide feedback as well as new ideas regarding a particular assignment to enhance student output.</p> <p>Students would work closely with Generative AI in creating the assignment and carefully oversee and consider any Generative AI output. Work co-created by the student and Generative AI would likely be included in this work.</p>	<p>Student must acknowledge use of Generative AI on assignment and include link to chat.</p> <p>All AI generated content must be cited according to the citation practice of the discipline (e.g. APA, Chicago, MLA).</p>
	<p>OUTSOURCED TO AI: FULL AI USE WITH CAREFUL HUMAN OVERSIGHT</p>	<p>This kind of assignment permits students to use generative AI to assist them with the assignment as they see fit.</p> <p>Generative AI may function as a "co-pilot" in the creation of student work. Students are still responsible for providing close oversight and evaluation of any AI-generated content.</p>	<p>Student must acknowledge use of Generative AI on assignment and include link to chat.</p> <p>All AI-generated content must be cited according to the citation practice of the discipline (e.g. APA, Chicago, MLA).</p>
