

ABOUT CHANCELIGHT

Established in 1975, ChanceLight has educated more than 240,000 students across the nation. Since that time, approximately 89 percent of students have successfully met goals, graduated, or returned to district. ChanceLight provides high quality learning experiences so that students are equipped with the skills needed for success, today and in the future.

ChanceLight operates more than 30 therapeutic day schools and programs throughout the country to provide students with an Individual Education Program (IEP) intensive academic, behavioral, and therapeutic services.

BEHAVIORAL HEALTH,
THERAPY, & EDUCATION

WHAT TO EXPECT

The McFarland Learning Academy uses evidence-based practices to build a positive, respectful culture that promotes social and academic success.

Learning Environment

Learning at The McFarland Learning Academy is motivating and reinforcing. Students practice to mastery and progress is measured daily, weekly, and monthly.

Our learning model allows teachers to include technology into their work with individual students and small groups. As a result, students and teachers develop richer, deeper, positive interactions and students develop self-confidence.

Community Connection

We recognize the importance of the community in educating students. Collaborating closely with the community, students can extend skills learned and have access to additional social, emotional, and behavioral support.

PROGRAM DESCRIPTION

The McFarland Learning Academy is a Therapeutic Day School for students K-12th grade. The instructional program is specifically designed to help students succeed academically, behaviorally, and socially.

Curriculum and Instruction

Students in this program will participate in a comprehensive curriculum based on state standards combined with evidenced-based instruction, engaging technology, and academic accommodations.

Social Skills Instruction

Social skills instruction is integrated throughout the day and provided to teach appropriate interpersonal communication skills, self-discipline, and problem-solving skills.

Therapeutic Services

Our therapeutic program provides comprehensive mental health services to promote mental wellness for all students and identifies and addresses problems before they escalate or become chronic.

BENEFITS FOR FAMILIES

The McFarland Learning Academy offers several benefits for families, including:

- Expanding the scope of academic, behavioral, social, and emotional support services
- Improving students' ability to become more effective managers of their own behavior in school, at home and in the community
- Collaborating directly with the district to design and customize an educational program to meet their child's needs
- Support for families regarding behavior strategies, social skills, and connections to community resources
