

## District Identification Plan

### Rittman Ex Village Schools

*[Updated 2-11-2026]*

#### **Definition of Gifted**

“Gifted” means students who perform or show potential for performing at remarkably high levels of accomplishment when compared to others of their age, experience, or environment and who are identified under division (A), (B), (C), or (D) of section 3324.03 of the Revised Code.

#### **Identification Criteria**

After any initial gifted identification made in conformance with the Ohio Department of Education Gifted Operating Standards (3301-51-15), a student shall remain identified regardless of subsequent testing or classroom performance. The district shall identify students who are gifted and are enrolled in grades kindergarten through twelve as follows:

##### *Superior Cognitive Ability*

A student shall be identified as exhibiting “superior cognitive ability” if the student did either of the following within the preceding twenty-four months:

- 1) Scored two standard deviations above the mean, minus the standard error of measurement, on an approved individual standardized intelligence test administered by a licensed or certified school psychologist or licensed psychologist; or
- 2) Accomplished any one of the following
  - a. Scored at least two standard deviations above the mean, minus the standard error of measurement on an approved standardized group intelligence test;
  - b. Performed at or above the 95<sup>th</sup> percentile on an approved individual or group standardized basic or composite battery or a nationally normed achievement test; or
  - c. Attained an approved score on one or more above grade-level standardized, nationally normed approved tests

##### *Specific Academic Ability*

A student shall be identified as exhibiting “specific academic ability” superior to that of students of similar age in a specific academic ability field, if, within the preceding twenty-four months the student performed at or above the 95<sup>th</sup> percentile at the national level on an approved individual or group standardized achievement test of specific academic ability in that field. A student may be identified as gifted in more than one specific academic ability field.

##### *Visual or Performing Arts Ability*

A student shall be identified as exhibiting “visual or performing arts ability” superior to that of students of similar age if the student has done both of the following:

- 1) Demonstrated to a trained individual through a display of work, an audition, or other performance or exhibition, superior ability in a visual or performing arts area; and
- 2) Exhibited to a trained individual sufficient performance, as established by the department of education,

on an approved checklist of behaviors related to a specific arts area.

**Description of Assessment Instruments:**

The district only uses assessment instrument(s) for screening and identification which have been approved by the Ohio Department of Education. The district has multiple assessments to identify for giftedness. Using these assessments allows for identification of students who are gifted, as well as selection of students for further assessment who perform or show potential for performing at remarkably high levels of accomplishment in each of the areas of gifted identification in this plan. Assessments that may be used by the district are listed beside their respective gifted identification area. Reassessment scores indicate identification for further assessment.

<b>Gifted identification Area</b>	<b>Assessment for Identification</b>	<b>Assessment for Identification</b>	<b>Checklist for Identification</b>
Superior Cognitive Ability	<b>InView</b> ID SCORE: 128 REASSESSMENT SCORE: 127	<b>Naglieri Nonverbal Ability Test-Individual</b> Administration ID SCORE: K-5 = 126, GR 6-7 = 125, GR 8-10 = 126, GR 11-12= 127 REASSESSMENT SCORE: 124	Not Required

---	--	--------------	--

According to Ohio Revised Code, Chapter 3324, The Department of Education shall ensure that the approved list of assessment instruments includes instruments that allow for appropriate screening and identification of gifted minority and disadvantaged students, children with disabilities, and students for whom English is a second language.

**Provision of Whole Grade Screening**

Whole grade screening for (1) superior cognitive ability, (2) specific academic ability in the areas of (a) mathematics and (b) reading, writing or a combination of these skills.

**Scheduling Procedures for Screening and Administering Assessment Instruments**

The screening and assessment procedures have been developed to ensure the inclusion of minority and disadvantaged students, students with disabilities, and English language learners.

Assessments will be provided and administered in the student’s native language or other mode of communication if English is a barrier to the student’s performance or if requested by the parent.

Assessments are provided and administered using the accommodations in a student’s Individualized Education Plan or 504 Plan. If these accommodations are not consistent with a test’s allowable accommodations, a comparable state approved assessment instrument shall be used.

Assessments are selected and administered to ensure that when a test is administered to a student with a disability or impaired sensory, manual or speaking skills, the test results accurately reflect the student’s aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting on the student’s disability or impaired sensory, manual or speaking skills.

**Referral of Students for Gifted Screening**

Additionally, any student transferring into the district will be assessed within ninety days of the transfer, at the request of the parent.

A student can request gifted screening or be referred for gifted screening by teachers, parents, or other students at any time. Two opportunities for assessment, regardless of grade levels where gifted services are offered, will be provided each school year. A students’ initial assessment shall be completed within 90 days of referral.

A referral request must be completed using the Referral Form, located online and at the district office. A completed Referral Form must be submitted to the district office. Once submitted, the district will attempt to gain parent permission to assess the student. Parent permission is required to assess students for giftedness. Parents can grant permission to test by completing and submitting the Parent Permission Form, located online and at the district office. Once parent permission has been granted, the student can be scheduled for assessment. Parents will be notified by the

district in advance of the assessment date. After the student has been assessed and the district receives the assessment results, the parents will be notified, in writing, of the results within 30 days.

Students referred with permission by September 30<sup>th</sup> will be assessed by December 1<sup>st</sup>. Students referred between October 1<sup>st</sup> and February 15<sup>th</sup> will be assessed by March 31<sup>st</sup>. Students referred after February 15<sup>th</sup> will be assessed within 90 days.

### **Reassessment of Students**

When students meet the reassessment score on any identification assessment that student will need to be reassessed. In order to complete student reassessment, parent permission must be given. Parents will be notified, in writing, of the need for reassessment within 30 days of the district's receipt of assessment scores. Parent permission can be given by completing the parent permission form, located online and at the district office. The permission form should be submitted to the district office. Once parent permission is received, the student will be scheduled for reassessment using a state approved assessment tool, and parents will be notified of the reassessment date in advance. Within 30 days of the district receiving the reassessment score, parents will be notified of student results.

### **Parent Communication and Notification Procedures**

Dates of gifted identification testing, including whole-grade screening, will be clearly communicated to parents. Parents will be notified of the scheduling of assessments and opportunities for testing based on referrals.

Parent Permission to test is required for referral-based testing as well as when a student qualifies for automatic reassessment.

Parents will be notified, in writing, within 30 days of the district's receipt of a student's results on any screening procedure or assessment instrument.

### **Acceptance of Outside Assessment Results**

The district shall accept assessment results from other districts or from a trained individual outside the district, as equivalent to district testing as set forth in paragraph (C) of the Gifted Operating Standards (3301-51-15), and may not exclude a student from service options due to reassessment, test scores from other districts or test scores from trained personnel outside of the district if the student meets the criteria specified in paragraph (C) of the Gifted Operating Standards (3301-51-15). The district shall not alter eligibility through any consideration of computation other than as set forth in paragraph (C) of the Gifted Operating Standards (3301-51-15).

### **Disagreements and Appeal Procedures**

Any disagreement regarding gifted services, identification, and placement of students in gifted services should be referred to the building principal. If a resolution, through discussion and conference, cannot be reached, the issue should be referred to the assistant superintendent, gifted coordinator, and superintendent. The superintendent's office or designee will schedule a meeting with the parents to resolve the issue. At this meeting, personnel providing gifted services may be present, as well as the assistant superintendent and gifted coordinator.

Parents may appeal any decision about the results of any screening procedure or assessment, the scheduling of students for assessment, or the placement of a student in any program or for receipt of services. In order to submit an appeal,

parents must complete the Appeal Form and submit it to the district office. The Appeal Form is located online and at the district office. Once an official appeal has been submitted to the district office, the district will contact the parent to schedule a meeting between the parent and district. The director of curriculum, gifted coordinator, and educators providing gifted services to the referenced student may also be present. Within 30 days after the meeting, the superintendent will issue a written decision with rationale to the parent.

### **Service Providers**

The district may contract with any qualified public or private service provider to provide screening or assessment services.

### **Department of Education Approval**

The district shall work with the Department of Education to amend the plan and ensure the plan meets approval, and if the district changes the plan, such changes shall be submitted to the department of education immediately following district board of education approval.
