- Cafeteria Update
  - Mrs. Fink Shared her plans to purchase menu boards for each school cafeteria as a way to display and advertise the daily menus for our breakfast and lunch programs. So far we have one company called Green Edge Systems with a quote for the following:
  - 7 units- 32" x 24" LED backlit menu boards, and 14 units- 6800mA rechargeable batteries for a total of $4,521.30.
  - Food Services is in the process of reaching out to other companies that have a comparable product to compare pricing. Mrs. Fink is waiting on a return call from a local company called FastSigns out of Easton. She will continue to update the board and hopefully have 2 more quotes by the next committee meetings in March. Funding for these signs will come from the Food Services Account and specifically from the excess net cash resources from the end of last year 2024-2025 SY.

- ➢ Transfer to Capital Reserve
  - Board supports the transfer of funds

- ➢ Recalculated Cyber/Charter School Payments 2025-2026 SY
  - The recalculated rates for Cyber/Charter School Funding reform is an estimated savings of $300,000 for the 2025/2026 school year.
  - Administration is not recommending adjusting the expenses for Cyber/Charter School Funding during the 2026/2027 school year. We are never sure how many students will enroll in Cyber/Charter Schools and students who are classified as regular education students can be evaluated and determined to be placed as a special education student which would increase the cost for this students over $13,000 for a Cyber/Charter school student or $21,000 for a Brick and Mortar charter school student.
  - This money will be budgeted for charter school payments only.

- ➢ Audit Update
  - The Financial Statement from the local audit completed in November will be distributed during the February board meeting and will be on the board agenda for final approval in March.
