

Instructional Resource Guidance Document

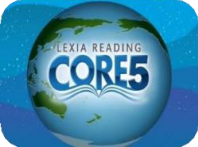

The Office of Learning Environments and Instructional Resources (LEIR) is responsible for vetting, evaluating, and monitoring all instructional resources that support teaching and learning. Below is a comprehensive list of district instructional resources available for online access. Each resource is accompanied by a detailed description, usage expectations, and identification of approved users.

Individuals designated as approved users should have access to these resources via the R1 Portal (ClassLink). Should access not be available, a [One to One Plus](#) plus ticket may be submitted to request authorization. For further inquiries concerning digital instructional resources, please consult Classroom Resource Teachers (CRTs) or Reading Coaches at the school level, or Curriculum Consultants and LEIR Consultants at the district level.

Resource	Users	Description	Expectations
ALEKS  ALEKS®	6-10 Math	ALEKS is an adaptive platform that personalizes math and science instruction based on each student's knowledge and skill level. It uses artificial intelligence to assess understanding and guide learners through individualized learning paths.	Students will engage for approximately two hours per week until they have completed at least 85% of the course with mastery. All must complete the initial diagnostic to receive a personalized learning path. Tiered support should be assigned based on math inventory results after each testing window.
Beanstack 	PK-12	Beanstack is a reading engagement platform that supports the development of reading habits through motivational reading challenges that include goal setting, badges, and personalized book recommendations. The Classroom Library Tool component of Beanstack provides a platform from which a detailed list of books available within classroom libraries can be shared.	This resource is provided as an optional tool and may be utilized at the professional discretion of the educator.

<p>BrainPop Science</p> <p>BrainPOP</p>	<p>6-8 Science</p>	<p>BrainPOP Science engages middle school students with animated videos, quizzes, and hands-on investigations to explore key science concepts. It supports inquiry-based learning and aligns with educational standards.</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator; its recommended and standards-aligned usage is detailed in district-provided curriculum documents.</p>
<p>CommonLit</p> <p> CommonLit</p>	<p>6-12 ELA & Math</p>	<p>CommonLit offers a free, research-based digital library of high-quality, leveled texts in English (and formerly Spanish), complete with standards-aligned lessons, assessments, and teacher dashboards to support literacy instruction.</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator; its recommended and standards-aligned usage is detailed in district-provided curriculum documents.</p>
<p>DeltaMath</p> <p></p>	<p>9-12 Math</p>	<p>DeltaMath is designed for middle-to-high-school math practice. Teachers can assign customized or ready-made problem sets in topics from algebra through calculus, and students receive instant feedback and detailed progress tracking.</p>	<p>Tiered support shall be determined based on the teacher-created assessment administered at the beginning of each quarter. The teacher will assign supplemental work for students to complete weekly.</p>
<p>Destiny</p> <p></p>	<p>PK-12</p>	<p>Destiny is an online public access catalog used by staff, students, and families to search for and access library materials, including physical books, eBooks, and a variety of digital resources.</p>	<p>This resource will be used on a daily basis by administrators, librarians, and designated staff to manage district materials, including books and other instructional resources. Students, staff, and families will access the catalog as needed to support curricular goals and interests.</p>
<p>Discovery Education</p> <p></p>	<p>K-12</p>	<p>Discovery Education provides standards-aligned multimedia content, ready-to-use lessons, quizzes, virtual field trips, and immersive tools like augmented reality. It supports instruction across subjects while</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator; its recommended and standards-aligned</p>

		engaging students and saving teachers time with built-in planning and differentiation features.	usage is detailed in district-provided curriculum documents.
Flocabulary 	K-5	Flocabulary uses hip-hop–style music videos to teach academic content across subjects. It pairs engaging songs with standards-aligned activities and creative tools to build vocabulary, literacy, and student engagement.	This resource is provided as an optional tool and may be utilized at the professional discretion of the educator.
Gizmos 	3-12 Science	Gizmos offers over 550 virtual simulations for math and science education, designed to help students visualize concepts and conduct experiments in real time. It includes teacher resources like lesson plans and assessments, supporting inquiry-based learning aligned with national standards.	This resource is provided as an optional tool and may be utilized at the professional discretion of the educator; its recommended and standards-aligned usage is detailed in district-provided curriculum documents.
Imagine Edgenuity 	6-12 Virtual & Credit Recovery	Imagine Edgenuity is an online learning platform that offers interactive courses and curriculum for students, designed to support personalized education and credit recovery. It provides engaging lessons, assessments, and teacher support to help students succeed academically.	Students are expected to actively engage in their coursework, maintain steady progress, and demonstrate mastery of content. They must complete all assigned assessments and follow their learning paths.
IXL ELA 	6-8 Reading Intervention	IXL ELA is a comprehensive platform used to enhance literacy skills. The platform features personalized learning paths, real-time diagnostics, and actionable analytics to support both students and educators.	Students are expected to achieve proficiency in a minimum of two skills each week, demonstrating consistent progress and mastery of targeted learning objectives.
Learning A-Z	PK-5 ELA; 4 Science	Learning A-Z is a K–6 literacy platform offering a variety of research-based tools to support personalized instruction in reading, writing, science, and vocabulary. It provides	This resource is provided as an optional tool and may be utilized at the professional discretion of the educator.

 <p>Learning A-Z</p>		<p>educators with customizable lesson plans, assessments, and interactive activities to enhance student learning.</p>	
<p>Lexia Core 5</p> 	<p>PK-2 ELA; 3-5 ELA Priority</p>	<p>Lexia Core5 is an adaptive literacy program for Pre-K to 5th grade that provides personalized instruction in key reading skills like phonics, fluency, and comprehension. It uses real-time data to tailor learning and support targeted interventions to accelerate reading growth.</p>	<p>Students are expected to meet their individualized target minutes in at least 75% of assigned periods to ensure consistent engagement and progress.</p>
<p>MagicSchool</p> 	<p>6-12</p>	<p>MagicSchool is an AI-powered platform that supports both teachers and students in the classroom. For teachers, it streamlines tasks like lesson planning, grading, and communication, freeing up time for more meaningful instruction. For students, it offers personalized learning tools that enhance understanding, boost engagement, and support academic growth.</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator. Teachers must complete the self-paced training to ensure safe, appropriate use: MagicSchool Certification Courses</p>
<p>Newsela</p> 	<p>6-12</p>	<p>Newsela offers standards-aligned, real-world content across subjects like ELA, science, social studies, and social-emotional learning. It provides articles from trusted sources, adapted to five reading levels, along with quizzes, writing prompts, and integration with learning management systems.</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator; its recommended and standards-aligned usage is detailed in district-provided curriculum documents.</p>
<p>Schoology</p>	<p>K-12</p>	<p>Schoology is a learning management system that enables educators to create, manage, and share academic content, assignments, and assessments online. It facilitates</p>	<p>This resource is provided as an optional tool and may be utilized at the professional discretion of the educator.</p>

communication and collaboration between teachers, students, and parents.
