

Dear Parents/Guardians of 8th Grade Students,

We are excited to be working with you on registering your student for the 2026-2027 school year. Our goal is to help support our families as they register and transition into high school. In an effort to do this, here are some important dates and information about class registration.

February 23rd - The 26-27 school year's Course Catalog will be live. Take some time before registering to go through the Course Catalog and explore the videos, schedule change policy, college credit and future ready details, course homework hours, and FAQs, so you and your student can be ready to register. Use the link or QR code to quickly access our registration website.
