Course Placement Waiver 2026-2027

Students are placed in courses based on previous academic performance and teacher recommendations. Proper academic placement is essential to facilitate academic success; thus, students placed in courses for which they were not recommended have more of a likelihood that they will struggle to meet the expectations of the course. *Students may not waive into TAG or Reading. A student performing below grade level in reading should not take a World Language course.*

The purpose of this waiver is for the student and parent to request that a student be enrolled in a course for which the student has not been recommended by a teacher.

DELETE THIS COURSE.	**PLACE ME IN THIS COURSE.**	***For Office Use Only***	
Name of Unwanted Course	Name of New Course	Approved	Not Approved

I understand the following:

- This is a more challenging class and will require more work on my part.
- The teacher of the class is under no obligation to provide me with assistance or tutoring above or beyond what is available to other students.
- If I perform poorly in the requested course, it may affect my scheduling options for next year.
- My GPA may also be affected if this course is a high school level course.
- This waiver is contingent upon space availability.
