

What are the **4 E's**?

In support of our Portrait of a Graduate, Fayette County Public Schools strives to ensure that every student has a plan to succeed in life after high school through **at least one of these four potential pathways:**

Enrollment

in a two-year, four-year, or other accredited school to complete a postsecondary degree

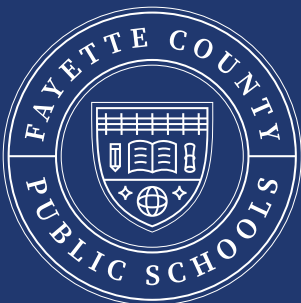

Enlistment

into a branch of the U.S. military (Army, Navy, Air Force, Marine Corps, Coast Guard, or Space Force)

Employment

that applies skills and industry-recognized certifications obtained through hands-on instruction

Entrepreneurship

by starting their own business or leveraging skills through freelancing
