Mr. Justin Halpin, Technology Director, presented information regarding the Children's Internet Protection Act (CIPA). He explained what CIPA is, how it impacts Kerrville ISD, and the protections currently in place to ensure student safety online.

Kerrville ISD utilizes a three-stage approach to internet safety: Firewall content filtering, Client-based web content filtering, and Safe search protocols.

Mrs. Amy Waiser, Safe & Supportive Schools Coordinator, followed with a presentation on how campuses educate students to be digitally responsible and safe. She highlighted various resources available to both parents and students and distributed informational flyers to committee members regarding cyberbullying and sextortion awareness.

Agenda Item 2: School PULSE Update

Mrs. Waiser provided an update on the School PULSE initiative. The information has been distributed to parents at Hal Peterson Middle School and Tivy High School as part of a soft launch. The initial response has been positive.

Additional information will be disseminated through multiple communication channels, including:

- District and campus websites
- Social media platforms
- Campus newsletters

Agenda Item 3: Campus Climate Survey Results presented by Mrs. Waiser

- **Kindergarten through 3rd Grade:** Each category showed an increase of at least 1%, with several categories reflecting increases of up to 4%. These gains are encouraging and also provide insight into areas where continued improvement is needed.
- **4th through 12th Grade:** Results reflected a mix of increases and decreases across categories. The data provides valuable direction for identifying areas of focus and will assist the District in developing and refining strategic plans moving forward.
