Rocket dance camp is a high-energy camp for students looking to build confidence in body awareness while having fun with different routines and activities. There is a specific class for k-2nd grade and 3-4th grade to make it age-appropriate for students. We will showcase what we have learned at the end of the session with a performance!

Garden Club

Instructor: Mary Poulter
Grades: 1st-6th
Time: 10:00 AM-12:00 PM
Contact: mpoulter@neenah.k12.wi.us
Location: Alliance Charter

This course is open to the 2025-26 members of the Alliance Gardening Club, where students can explore the wonders of gardening in a fun and educational setting. We will focus on gardening skills, such as planting seeds, nurturing young plants, and understanding the growth cycles of various herbs and flowers. Our club provides hands-on experience with soil preparation, watering techniques, pollinators, and sustainable gardening practices. This club offers a great opportunity to connect with nature, make new friends, and understand our connectedness to the outdoors. New and previous members may apply for membership in the fall of the 2026-27 school year.

S.T.E.A.M.

Instructor: Daisy Roth
Grades: 1st-6th
Time: 8:00-10:00 AM or 10:00 AM-12:00 PM
Contact: daisy.roth@neenah.k12.wi.us
Location: Alliance Charter

For Grades 1–3, STEAM learning begins close to home by exploring students' own communities. Learners investigate roads, streets, transportation systems, houses in their neighborhoods, and local habitats, and design shelters and infrastructure that support basic human needs. Through these activities, children develop an understanding of how communities are planned, how people move and live within them, and how environments can be designed to be safe, inclusive, and sustainable for all.

For Grades 4–6, students expand their perspective beyond their local community to engage in global exploration through STEAM building activities that blend hands-on engineering with geography and cultural learning. Students design and construct famous world structures—such as the Eiffel Tower, Great Wall, or the Pyramids—using accessible materials like LEGO bricks, cardboard, or building blocks. These projects deepen students' understanding of engineering concepts, including stability, balance, height, and structural strength.

Session II Courses

July 13 - July 30

Location: Neenah Middle School

Learn to draw monsters behind the paper, bottomless pits, hands coming out of the paper, impossible triangles, and other illusions. All 3D drawings are illusions because they look real even though the paper is flat. In this class, we will sharpen our 3D drawing skills and then use our skills to make cool illusions.

Various Summer Camps

A variety of weekly summer camps will be available throughout the summer and updated here, including art, music, and sports camps.

Boys & Girls Club Partnership

2065 Marathon Ave, Neenah

We are proud to partner with the Boys & Girls Club to offer additional summer enrichment opportunities at their beautiful location! These special classes are for Boys & Girls Club members and take place at four unique locations within the facility.
