EXPENDITURE BUDGET CODE STRUCTURE

Budget codes follow the structured hierarchy below:

Fund Overview

The total ACPS budget consists of the **School Fund** and **Special Revenue Funds**.

School Fund

Expenditures in the **School Fund** are funded by revenues as detailed in Section B. School Fund expenditures are broken out between school-based and department-based expenditures. School-based expenditures are tied directly to individual schools, while department-based expenditures benefit schools across the Division and serve the school system as a whole.

Full-Time Equivalent (FTE) positions assigned to specific schools are reported in the Schools section. FTE positions not assigned to a specific school are reported separately in the Departments section. These are staff who serve multiple schools (e.g., bus drivers and maintenance workers).

Special Revenue Funds

Additionally, **Special Revenue Funds** are reported separately. They fund programs whereby the revenue budgeted will be sufficient to cover all expenditures associated with the program. Examples of revenue types include transfers from the School Fund, fees, and grants.

Management of Expenditures

Schools, departments and budgets are overseen by the Superintendent's Cabinet and organized by the following areas:

Division Services

Division Support and the Office of the School Board provide leadership and support to schools to ensure that all students have an equal opportunity to succeed. Division activities are directed such that all programs and activities support both quality and equity within the school system.

Instruction

Instruction supports the Division's staff and schools in curriculum, instruction, and assessment. Its goal is to prepare all students to succeed as members of a global community and provide each student with a challenging and rigorous course of study. This area also includes Special Education, Student Services, English Learners (EL), and Professional Development.

Human Resources

The Department of Human Resources supports all personnel needs throughout the School Division and helps employees with all phases of their Albemarle County careers. This includes, but is not limited to, recruitment, hiring, compensation, benefits, development, and retention of our employees.

Community Engagement

The Office of Community Engagement has the mission to inform, inspire, and involve our broad spectrum of stakeholders in collaborative partnerships that empower students and encourage lifelong learning. This area includes Community Education, Extended Day Enrichment Programs (EDEP), and the Albemarle Foundation for Education.

Communications

The Office of Communications, in alignment with the Division's Strategic Plan, aims to improve organizational effectiveness by cultivating a valuable, relevant, engaging, and easily accessible communication model.

Strategic Planning

The Office of Strategic Planning, Accountability & Research, and Program Evaluation supports the School Division in short- and long-range strategic planning, School Board policy development, review, and revision, evaluation of Division programs, research, and all aspects of local, state, and national testing and accountability.

Operations

The Operations Department encompasses the support services of the School Division including Fiscal Services, Building Services, Safety and Security, and Transportation. This area provides for the planning and management to efficiently provide financial resources, safe transportation, and a high-quality learning environment for all students within a culture of continuous improvement.

Technology

The Department of Technology supports all areas of the School Division by providing technical and instructional technology expertise to promote student achievement and efficient operations in a secure networked environment.

Department and Location Overview

School-Based Budgets

School-based budgets comprise **School Operating** budgets and **FTE** budgets. They are distinguished by their **school location codes**. The following table provides a list of school-based budgets. Detailed FTE counts according to this organization can be found in Section G: Supplemental Materials.

- School Operating Budgets are assigned by both location code and corresponding department code.
- School-managed personnel are generally assigned to a school location and department **62100**
- Department-managed personnel who are school-based are generally assigned to the specific school location and the managing department/department code

Function Overview (State Categories)

State reporting requires each division to maintain a financial structure in compliance with state coding structures. These coding structures define the primary functions and services that school divisions provide.

Instruction

Instruction includes activities that provide interaction between principals, teachers, teaching assistants, and classroom assistants; and students/families. Instruction may be provided for students in a school classroom, in another location such as a home or hospital, or in other learning situations such as those involving co-curricular activities. Instruction may also be provided through other approved digital media. This functional category includes teaching, school counseling, library/media, assessment, staff development, and school-level administration (principal and school office staff).

Administration, Attendance & Health

This area includes activities related to establishing and implementing policies for administration, attendance, and health. It also includes services typically delivered at schools to students, such as school nursing, psychology, speech services, hearing services, and other mental health/medical services. It also includes typical administrative services such as School Board, fiscal, human resources, planning, and community contact services.

Technology

This function captures all technology-related expenditures. Any services involving the use of technology for instructional, public information, administration, or any other use are part of this function.

Building Services

This includes activities concerned with keeping the physical plant open, comfortable, and safe for use and keeping the grounds, buildings, and equipment in effective working condition. It also includes custodial, maintenance, and management services to support our division's grounds and physical plant. The Facilities function (e.g., capital costs and furniture replacement) is included in Building Services.

Transportation

This includes activities related to transporting students to and from school, as required by state and federal law. It includes trips between home and school and trips to and from school activities. It also includes bus operations, maintenance, and management services in support of transporting students.

Transfers

Several outlays of governmental funds are not properly classified as expenditures but still require budgetary or accounting control. These include transfers from one fund to another or another related entity.

Object Overview

In addition to state categories, expenditures are reported by object category or type of expense. Major object categories include:

Salaries

Cost of salaries for regular employees.

Benefits

Cost of the School Board contributions for FICA, health care (medical and dental premiums, HSAs), Virginia Retirement System (defined benefit, hybrid defined contribution and disability) or Part-Time Pension, Group Life insurance premiums.

Other Wages

Cost of non-salary compensation, such as overtime wages, part-time and substitute wages, and stipends.

Operations

Includes a wide range of operating costs that are not compensation-related costs in support of School Division programs and services. Major expenditures in this category include educational supplies, fuel, utilities, contracted services, short-term leases, and staff development funds.

Transfers

Includes transfers from the School Fund to Special Revenue Funds and Local Government.

BUDGETED COMPENSATION ASSUMPTIONS

Adopted Market

Compensation targets are guided by the data gathered from the school divisions in the School Board's Adopted Market and projections from other sources.

The adopted strategic target compensation level for teachers and classified employees is 10% above the market average (60th percentile).

Health Care

Healthcare plan years are based on calendar years. The historical employer contribution rates for full-time employees listed below are fiscal year budgeted rates, which were a blend of plan year rates within those fiscal years. Beginning in FY 26, the blend proportion varies by employee work calendars, so the basis plan year rates are presented.
