5th Grade Update

This week at school was filled with positive energy and great effort from our students. The warmer temperatures gave everything a little extra boost, and it showed in the classroom as kids worked hard across all subjects, staying focused, participating in discussions, and pushing themselves to do their best. It was inspiring to see their commitment and perseverance throughout the week, and that hard work set the stage for a fun and memorable Friday.

Friday was Jersey Day, and it was so much fun to see students representing their favorite teams! This school-wide celebration brought extra excitement and gave everyone a great boost of energy to finish the week strong. We hope you enjoy the weekend with your students and have some well-deserved time to relax!

Just a reminder that toys and fidgets are not allowed at school. Thank you for partnering with us by checking with your student before school.

CMAS on Computers

The state of Colorado has taken away the paper-pencil testing option for CMAS. This means that our 3rd – 6th grade students will be taking the CMAS test in April on computers. If you would like to preview some sample questions, for your own information, or practice for your student at home, you can access the practice questions at this link: [Practice Tests | Colorado](#)
