

IHP/EAP for Student Requiring Oxygen

Name _____ Date of Birth: _____

Parent/Guardian _____

Phone (w) _____ (h) _____ (cell) _____

Physician _____ Phone _____

Oxygen Vendor _____ Phone _____

Contact Person _____

Medical History/Diagnosis:

Activity Limitations or Restrictions:

Medications:

Portable Oxygen:

Oxygen delivery system: (Concentrator/Cylinder/etc) _____

Liters per minute: _____

Delivered via:

- ☐ Nasal cannula
- ☐ Mask
- ☐ Tracheostomy collar
- ☐ Other: _____

Times of use:

- ☐ Continuous
- ☐ While sleeping/napping
- ☐ During activity
(specify) _____
- ☐ PRN- please provide SPECIFIC guidelines
for PRN use: _____

Respiratory:

Student's Normal Baseline oxygen saturation is _____%

Oxygen saturation should be checked: Check all that apply.

- ☐ Before breathing treatment

IHP/EAP for Student Requiring Oxygen

- ☐ After breathing treatment
- ☐ Before activity
- ☐ After activity
- ☐ Before riding the bus
- ☐ Upon arrival/return to school
- ☐ When signs of respiratory distress--specific individual symptoms: _____
- ☐ PRN- please provide SPECIFIC guidelines: _____

Recommended Interventions to improve O2 saturations. Check all that apply.

- ☐ Encourage student to assume position of comfort.
- ☐ Encourage slow, deep, even breaths.
- ☐ Administer Inhaler: _____
- ☐ Administer Nebulizer: _____
- ☐ Increase oxygen to _____ liters/minute.

Emergency Plan:

If oxygen saturations remain between _____ % and _____ % after interventions listed, call parent/guardian.

If oxygen saturations remain below _____ % after interventions listed, CALL 911

EMERGENCY PLAN OF ACTION

- Call 911 if the student's color becomes pale, cyanotic (bluish), or ashen OR student has other signs of respiratory distress such as difficulty breathing, gasping, etc.
- School personnel trained in CPR will respond and initiate CPR if needed prior to EMS arrival.
- Contact parent/guardian immediately.
- If 911 is called the student must be transported via ambulance to the emergency facility, OR parent/guardian must sign release with EMS and then assume responsibility for the student. The student may not return to school that day.
- When a student is transported via EMS a GIPS staff member must ride with the student unless a parent accompanies them.
- If a student requires medical treatment while on the bus, the driver will proceed to the nearest school where 911 will be called if indicated.

Additional Provider or Parents Comments:

IHP/EAP for Student Requiring Oxygen

Physician Consent for Oxygen IHP

I have reviewed and approved this management plan and included any recommended modifications. This consent is for a maximum of one year. If changes in procedure are indicated, I will provide written orders accordingly.

Physician Signature

Date

Parent Consent for Oxygen IHP

I, as parent/guardian, concur with the above management plan, will provide the necessary supplies and equipment, and authorize the school nurse to contact the physician when necessary.
