SCHOOL PLASTIC BAG RECYCLING CHALLENGE

H-E-B cares about protecting the environment and reducing plastic waste, so we are excited to invite you to join our recycling challenge! H-E-B collects and recycles plastic bags at store entrances throughout the year, but YOU can help us collect as many bags as possible from your local community to win prizes for your school!

Join Us in Collecting Plastic Bags

How It Works

Collect plastic bags at your school. The more bags you collect, the bigger the impact.

Prizes & Recognition

Schools earn store gift cards. The more bags collected, the higher the gift card value.

Join Us in Making a Difference

Help little Texans create a cleaner, greener future! **Together, we can protect our land, water, and air.** Please remember to use your reusable bag when you shop and if you forget recycle your plastic bags at our store entrances.

Learn more at ourtexasourfuture.com/schoolrecycling

How does H-E-B Recycle Plastic Bags & Film?

Step 1: H-E-B collects plastic

Step 2: Plastic transported to H-E-B Return Goods Center

All collected bags and clear plastic film is sorted and baled by HEB partners

Step 3: Bales are shipped to a Recycler

Bales are shipped to a recycler, where they are washed, shredded, and made into pellets to be used to make new products

Made into PCR pellets for use in products like composite decking /plastic lumber

Made into pellets for use in products like Field & Future by H-E-B™ trash bags

FIELD PLAY 2026

Parent/Guest RSVP

Visitors are required to wear a Raptor sticker when they visit Warner Elementary. Raptor nametags can be printed from a valid drivers' license from any state, a military ID, or state ID.

If you plan to attend Warner Field Play and **have had your license scanned this year at Warner**, you may fill out the form below and return it to school by **February 12th**. We will be able to print your Raptor sticker before you arrive.

If you have NOT visited Warner and had your license scanned, you will need to come in to the office **PRIOR** to **February 12, 2026** to have your license scanned. Otherwise, you will be required to check in at the front office (which can be time consuming if the line is long) if you plan to attend the event. **There will be No Lunch Visitors for all grade levels on Tuesday 03/03, Wednesday 03/04 and Friday 03/06.**

Please complete and return this form to your child's homeroom teacher by:
Thursday, February 12, 2026

Students may wear any Warner shirt or navy/blue works too!

CFISD Chromebook Week and Device Check

What is it?

Chromebook Week and Device Check are designed to effectively track Chromebooks and ensure that the device receives all the required updates. In addition, students can submit support tickets for any issues they encounter with their devices.

When is it?

Chromebook Week and Device Check will be the last full week in September, November, January, and March each school year. Tuesday, Wednesday, and Thursday will be the log-in days. Campuses choose the period or time of day.

What do we need students to do?

- Power off their devices and then turn them back on.
- Sign into their Google account and the student portal.
- Use the device for at least 15 minutes. Submit a support ticket if there are
- problems with the device.

What kind of issues require a support ticket?

- Cracked screen
- Touch screen not working correctly
- Device won't connect to the internet
- Headphones won't work when connected
- Cracks on lid or keyboard
- Missing keys
- Won't charge
- Lost charger/case/device

How can you help?

- Make sure that students bring their devices each day during Chromebook week.
- Help students follow the process of shutting the device down and then logging back into the device.
- Ask students if they have put a support ticket for device issues.

PBIS Rewards

FAMILY APP INFORMATION

WHAT IS IT?

As part of the PBIS Rewards suite of apps, the free PBIS Rewards Family App allows parents and guardians to view student point totals, items purchased with points, and upcoming events for which points can be used.

HOW DO I GET CONNECTED?

Once you download the app onto a smartphone, you can scan a QR code to activate a student in the app. This QR code is unique to each student and is provided to the parent via a letter from the school. The app confirms the QR code, allowing the parent to access to their student's point totals and progress as the school year goes along.

STEPS TO GET CONNECTED

1

Download the PBIS Rewards Family app on your device.

2

Wait for a text or email from your child's teacher which will include a link and QR code to help you get connected to your child.

3

- Communication**
 - Two-way messaging
- Points**
 - view teacher comments for points awarded
- Purchases made by student**
- Contact information for all teachers so parents/guardians can contact staff directly from the app.**

WHY SHOULD I USE IT?

The PBIS Rewards Family App allows parents and guardians to track the progress and point totals of students. The parent/guardian can view the information for each child. The school can generate paper letters, emails, and/or text messages to connect parents and guardians with their students within the app.

REMEMBER...

Remember that...

- This is an easy way to communicate with your child's teacher.
- Reinforce good behavior at home.
- Have conversations with your child about the behaviors and decisions that they make at school.

WHAT BUS DO I RIDE?

MY RIDE K-12

Download the My Ride K-12 app to receive the most accurate transportation information for your student.

Scan the QR Code below for more information.

Register for an account with
My Ride K-12

For questions call 713-MYCFBUS (713-692-3287).

Health Guidance for Going to School

Showing up to school every day is critical for children’s well-being, engagement and learning.

Make sure to send children to school if they are:

- Generally healthy and well.
- Participating in usual day-to-day activities.
- Children can even go to school if they:
 - Have a mild cold, which may include a runny nose and/or cough.
 - Have eye drainage without fever, eye pain or eyelid redness.
 - Have a mild stomachache.
 - Have a mild rash with no other symptoms.
 - Have been fever free for 24 hours without the use of fever-reducing medication.

Avoid keeping children at home unless they are too sick to participate. Please see the back of this handout for details. Note that in most situations, a health-care provider’s note is not needed to return, you can send a parent note.

Children may also avoid school due to anxiety (symptoms may include decreased appetite, feeling tired, stomachache, headache, etc). If you are worried that your child may be suffering from anxiety, talk with your child’s teacher, the school nurse, counselor or other school staff to discuss the challenge and identify what can help your child stay in school.

Please note: This document is not meant to take the place of local health department guidance about contagious illnesses such as Covid-19 and the flu.

Reasons to keep me home from school and what needs to happen before I can return

What is my symptom?	When should I stay home and when to seek medical care?	When can I return to school?
Fever	I have a fever of 100.0°F or higher. Seek medical care if I have fever and any of the following: ear pain, sore throat, rash, stomachache or tooth pain.	If I have been fever free for 24 hours without the use of fever-reducing medication and I am feeling better.
Vomiting and/or diarrhea	If I have vomited 2 or more times in the last 24 hours. If my stool is watery and I may not make it to the toilet in time. Seek medical care if I have stomach cramping and fever, I have bloody or black stool, or I am showing signs of dehydration (tired and sleepy, dry mouth and not urinating at least once in the last 8 hours).	If I have not had vomiting and/or diarrhea in the past 24 hours and I am feeling better.
Persistent cough or trouble breathing	Seek medical care if I have a persistent cough, difficulty breathing or trouble catching my breath or if I develop a fever with the cough. These symptoms may be signs of a serious or contagious illness that should be evaluated by a health-care provider.	Once I am feeling better and I have been cleared for return by my health-care provider. If my symptoms were due to asthma, please make sure that I have my breathing medication available to use at school.
Rash	Seek medical care if the rash has blisters, is draining, is painful, looks like bruises and/or if I develop a fever	Once my rash has healed or I have been cleared for return by my health-care provider.
Eye irritation	Seek medical care if I have eye swelling, eye pain, trouble seeing or an eye injury.	Once I am feeling better.
Sore throat	Seek medical care if I have drooling, trouble swallowing or a fever and/or rash.	Once I am feeling better if I have been fever free for 24 hours without fever reducing medication. If I was prescribed an antibiotic by my health-care provider, then I may return 24 hours after the first dose.

If you don't know whether to send your child to school or have specific concerns regarding your child's health, contact your child's health-care provider, a local urgent care or the school nurse.

Science Resource Center (SRC Demos)

Each grade level at Warner gets to enjoy two awesome, animal-related demonstrations, and we would love for you to help out!

How to volunteer...

- 1. Sign up for a demo and to pick up/drop off the animals and activity supplies at the SRC using the SignUp Genius QR Code above.*
- 2. You MUST attend one training session for that demo at the Science Resource Center. Please see the SRC Demo Training Calendar for more info!*
- 3. Be ready to have some fun on demonstration day as we bring the animals to the school and teach students about them!*

Questions?

Email Kristin Jordan at src@warnerpto.org

2025-2026 SRC VIPS DEMOS Training Calendar .xlsx

A DEMO is a presentation centered on particular animals or scientific concepts. A volunteer is trained in the content and any specific animal handling skills needed for each demo. Demos are grade-level specific. Each demo is presented during a class period (30-50 minutes) to no more than 2 classes of students at a time. Multiple presentations of a demo may be needed in order to accommodate all students in a grade level at a campus.

Demo trainings listed below are at the Science Resource Center. Adults only, please.

Address: SRC building at 11206 Telge Road, Cypress, TX 77429 Phone: 281-897-4004.

No RSVP needed. Arrive at least 10 minutes early to sign in please.

	Tuesday, February 24, 2026	Pre-K - Opossum	9:30-11:30

Science Demonstration Program, AKA Demos

Animal Friends: Pre-K/ECSE (30 minutes). An assortment of live animals (such as a rabbit, bird, turtle, frog, snake or lizard) is used to introduce students to basic animal traits.

Bunny Tales: Pre-K/ECSE (30-45 minutes). This Demo is designed to combine a read aloud, discussions about the science connections within the text, and observations of a live rabbit. For the best experience for students, this Demo should be presented to one class (no more than two) at a time. Presentation limited to cooler weather months between October and April.

Opossums: Pre-K/ECSE (30 minutes). A stuffed opossum is used to demonstrate the special adaptations and characteristics of this Native American marsupial. Please limit these presentations to fall semester only.

Guinea Pigs: Kindergarten (30 minutes). A story, *Guinea Pigs Don't Read Books*, is read and discussed. A live guinea pig is shown. (Pig can be handled.) Please limit these presentations to fall semester only.

Hedgehog Demo: Kindergarten (30 minutes). *The Hat* by Jan Brett is read and discussed and a live hedgehog is shown. (Hedgy can be handled.)

Eggs and Nests Demo: 1st grade (45 minutes). Students observe a variety of eggs as they compare and contrast their physical properties. Children explore a bag of objects to discover if and how the items roll to discover why egg shape is important. A variety of bird nests are displayed for observation. Please limit these presentations to fall semester only.

Small Mammals: 1st grade (45 minutes). A live chinchilla is used to demonstrate its characteristics, behaviors and adaptations to the environment. Then students compare this mammal's adaptations to those of the hamster. (Animals are not handled.)

Body Coverings Demo: 2nd grade (45 minutes). A combination of live animals and teaching aids are used to describe the body coverings of fish, amphibians, reptiles, birds and mammals. Featured animals include a lizard, tree frog, dove and hamster. (Animals are handled.) This was designed to go with the Undercover Lab for which materials are available from SRC.

Insects: 2nd grade (45 minutes). The insect's place in our ecosystem will be discussed. A sample insect collection will be shown along with live African hissing cockroaches. (Animals may be handled.)

Snakes: 2nd grade (45 minutes). Students review characteristics of reptiles and learn the unique adaptations of snakes. They will observe several live, non-venomous specimens and various teaching aids. Featured animals include the Trans Pecos rat snake, gray banded king snake and a coral mimic. (Animals are handled.)

Science Demonstration Program, AKA Demos

Amphibians: 3rd grade (45 minutes). A selection of live amphibians is available for close examination by the students. Various characteristics and interesting behaviors of amphibians are discussed. Featured animals may include the salamander, fire belly newt, gulf coast toad, clawed frog, siren and rococo toad. (Animals are handled.)

Arthropods: 3rd grade (50 minutes). Live and preserved specimens are used to compare and contrast characteristics of different classes of arthropods. Featured animals may include the millipede, tarantula, hissing cockroach, land hermits, a scorpion and pill bugs. (The millipede and hissing cockroach are handled.)

Bird Structures: 4th grade (50 minutes). Study skins will be used to illustrate the many unique characteristics and adaptations of this class of animals. Students need paper and pen or pencil.

Reptiles: 4th grade (45 minutes). A selection of live reptiles will be available for close examination by the students with a discussion of their various characteristics and interesting behaviors. Featured animals include the box turtle, soft shell turtle, red-eared slider, lizard, and corn snake. (Animals are handled.)

CSI Cy-Fair: 5th grade (50 minutes) Students solve a “who done it” mystery as they rotate through three station lab investigations analyzing fingerprints, fiber samples and chromatography samples.

Mammal Skulls: 5th grade (50 minutes). The volunteer discusses traits such as eye placement and tooth arrangement to provide clues for the students to guess the identity of common skulls. They will then be given the correct answer with a discussion of similarities and differences and identifying characteristics. Students need paper and pen or pencil.

Ecosystems: 6th grade (50 minutes). The volunteer brings a variety of live animals to link as a food chain, ultimately creating a food web. A power point presentation accompanies the lesson. Featured animals may include a rat or mouse family, snake and a toad. (Animals are handled.)

Biomes: 7th grade (50 minutes). The volunteer brings a variety of plants and animals indigenous to several of the biomes studied: tundra, desert, grassland/savannah, deciduous forest, rainforest. Featured animals may include the Uromastyx, snake, hamsters, a millipede and night crawlers. (Animals are shown in their cages.)

Endangered Elephants: 8th grade (50 minutes). The volunteer brings a variety of confiscated elephant items and discusses how changes in ecosystems caused by living organisms, including humans, such as the poaching of elephants for ivory has led to an increase in tusklessness in elephant populations. A power point presentation accompanies the lesson.

WARNER FAMILY HOLIDAY PLANNER

It's never too late to start planning for child care or holiday fun! In an effort to maximize our time with your kiddos, we've put all the student holidays in one place!

THANKSGIVING BREAK

November 22-30

WINTER BREAK

December 19-
January 5

SPRING BREAK

March 7-15

LONG WEEKENDS

Aug 30- Sept 1
Oct 10-14
Nov 1-4
Jan 17-19
Feb 13-16
April 3-6
May 23-25

LAST DAY OF SCHOOL:

May 28
