1 September 2010 - 31 August 2011	G10
1 September 2009 - 31 August 2010	G11
1 September 2008 - 31 August 2009	G12

AST Policy:

The American School of Tangier admits students only within the specified age ranges. Exceptions are rare and will only be considered upon a direct verbal request from the student's current or former Head of School, accompanied by official transcripts. This policy aligns with the American educational philosophy, which prioritizes the development of the whole child.

Entrance Age:

Children must be at least 3 years old by August 31, 2026, to be eligible for PK3. Additionally, all children must be toilet trained to enroll at AST. The entrance age requirement is strictly enforced, with no exceptions.

Application:

To increase your child's chances of acceptance and seat availability, please begin the application process in February if you plan for them to attend AST.

Special Learning:

AST is unable to admit students who require an alternate curriculum or additional classroom support, such as a dedicated aide, due to special learning needs or behavioral challenges.
