

C.L.S.S. – Collier Land Surveying Scholarship

After reading last year's scholarship essays, we walked away inspired by the drive and potential in Dade County's graduating seniors. The time and care students put into their submissions made it clear that this scholarship should continue. We are proud to offer it again as a way to support Dade County seniors as they take the next step in their education and careers.

For the Class of 2026, the annual Collier Land Surveying Scholarship* will award one Dade County High School senior \$750.00.

This award is an opportunity for us to give back to the community and aims to educate and encourage students to learn about the interests of land surveying while aiding their academic goals.

*Dade County High School seniors must meet the following requirements to be eligible for the Collier Land Surveying Scholarship:

Each student must write a minimum of a 450-word essay, written in MLA format, about land surveying. Example topics could be the fundamentals of land surveying, principles and practices of land surveying, ethical considerations in land surveying, land surveying methods vs. traditional land surveying methods, types of surveys, or how land surveying has impacted Dade County.

Here is an introductory video to get started:

www.youtube.com/watch?v=VD1ltgO_iaw (Civil Mentors: What is Land Surveying?)

For students interested in a land surveying career path, see the "Path to obtaining a Georgia Professional Land Surveyor License" under www.samsog.org/page/education

All students must turn in their essay to the front desk at Dade County High School by Monday, April 27th.

All essays will be reviewed and judged by thematic development, strengths, and structure. The award will be available to the student upon Graduation.
