

# Mineral County School District: Our Promise for 2025-26

## Helping Every Student Succeed

In 2025–26, we’re focused on stronger relationships, better outcomes, and consistent, high-quality teaching—so every student can thrive.

	What We’re Working On	How We’ll Know It’s Working
Building Relationships & Trust	Strengthening communication, school culture, and support systems for students, families, and staff	Students, staff, and families feel more connected. Schools have clearer routines and fewer behavior challenges.
Improving Student Outcomes	Helping more students attend regularly, meet key milestones, and succeed in reading and math	Attendance improves. More students meet growth and proficiency goals and complete milestones.
Supporting Great Teaching	Defining what strong instruction looks like across subjects and grade levels, and supporting teachers to use adopted materials the way they were designed	Lessons are aligned and consistent across classrooms. Teachers have a shared vision for strong instruction and receive useful feedback to grow their practice.

## Our Commitments to You

We know families, educators, and community members are essential partners in this work. Here’s what you can count on from us:

- We’ll focus on what matters most for student success
- We’ll support teachers and staff with the tools and time they need
- We’ll communicate clearly and consistently
- We’ll create school environments where everyone feels safe, respected, and connected
- We’ll stay grounded in data, feedback, and real learning—not just compliance

**EACH CHILD. EVERY DAY.**

We’re building the schools our students deserve.
