

Empower Your Future — Start Your Journey with UCVTS

Attention Rising Seniors

Fuel your passion for technology and gain real-world experience through our Student Technology Internship.

What You'll Do

- Receive hands-on training in IT fundamentals and technology work order management
- Help resolve real-world technical issues and support school-wide technology needs
- Assist with technology projects under the guidance of experienced professionals

Benefits

- Earn academic credit during the school year
- Earn while you learn with paid summer work and after-school hours
- Strengthen your resume and college applications
- Learn how the Technology Department keeps the district running smoothly
- Receive mentorship from technology professionals
- Build problem-solving and professional skills
- Help shape the future of technology at UCVTS

Requirements

- Must be a rising senior with an interest or passion for technology
- Strong academic performance, particularly in core classes
- Strong attendance record
- Participation in the interview process
- Commitment to a minimum of six (6) weeks of summer work
- Reliable transportation to and from school during the summer
- Positive disciplinary record, demonstrating responsible behavior and adherence to school policies

Don't miss this opportunity to build your skills and make a lasting impact.
