

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹

IPM statement

It is the goal of the Santa Maria Joint Union High School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

1. Provide a safe learning environment.
2. Minimize chemical pest control.
3. Prevent pests from entering District facilities.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
District Lead Maintenance	Coordinate pest control and document applications.
Plant Manager II, SMHS	Coordinate pest control and document applications.
Plant Manager II, ERHS / DHS	Coordinate pest control and document applications.
Plant Manager II, PVHS / CTE	Coordinate pest control and document applications.
Director, Food Services	Coordinate pest control and document applications.

Pest management contracting

- ☒ Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Izzy Pest Control, Quality Pest Control, Labans Pest Control
- ☒ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Santa Barbara County Agriculture Commissioner's Office

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by

District Maintenance Staff

and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

1. Sticky monitoring boards are placed semi-annually in kitchens & checked by Custodial Supervisor.
2. During daily cleaning, custodians check for evidence of pests; chewed droppings, chewed paper products, droppings, and carcasses.
3. Possible pest activity is reported to the Plant Manager II's for correction.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ant/Spiders	☒	☒	☒	☐	☐	☒	☒	
Cockroaches	☒	☒	☒	☐	☐	☒	☐	
Mice	☒	☒	☒	☒	☐	☒	☐	
Gophers	☐	☐	☐	☐	☐	☒	☒	Maintain turn pH, CO a pplication, casteroil
	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

See the attached list.

Healthy Schools Act

- ☐ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- ☒ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- ☒ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- ☒ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- ☒ This IPM plan can be found online at the following web address: www.smjuhsd.k12.ca.us
- ☐ This IPM plan is sent out to all parents, guardians and staff annually.

Review

- ☒ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: December 2026

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Santa Maria Joint Union High School District

Products Expected to be Applied

Name of Pesticide	Active Ingredient(s)
Allstar Blitz Room Fogger	Petroleum Distillate, Pyrethrin, Piperonyl Butoxide, Isobutane/Propane
Bayer Advanced Lawn Complete Insect Killer	Imidacloprid, Beta-cyfluthrin
BoraCare	Sodium Borate Formula NA2-B8-o13-4H2-O
Combat Quick Kill Roach Gel, Combat Platinum Roach Gel, Comabt Source Kill Max, Combat Defense System Brand Source Kill Max	Fipronil
Cykick	Cyfluthrin
Cynoff	Cypermethrin
Deadline MP	Metaldehyde
Demand CS	Synthetic Pyrethiod, Lambda-cyhalothrin
Hot Shot	Pyrethrins, Piperonyl Butoxide
Jecta Diffusible Boracide	Ethylene glycol Borate Solution
Maxforce FC Professional Insect Control Ant Bait Stations	Fipronil
Maxforce FC Professional Insect Control Roach Killer Bait Gel	Fipronil
Maxforce Professional Insect Control Granular Insect Bait	Hydramethylnon
Merit 75 WSP Insecticide	Imidacloprid
OptiGard Flex	Thiamethoxam
Ortho Home Defense MAX	Bifenthrin
Ortho Hornet & Wasp Killer	Tetramethrin
Power Plant	D-Limonene
PRECOR 2000 Plus	(S) Methoprene, permethin, phenothrin, N-oxtyl bicycloheptene dicarboximide, piperonylbutoxide
Premise 75	Imidacloprid
PT565 Plus	Pyrethrin
Shockwave Fogging Concentrate	Pyrethrins; Piperonyl Butoxide, (N-Octyl Bicycloheptene Dicarboximide) Nylar (Pyriproxyfen) Esfenvalerate
Suspend SC Insecticide	Deltamethrin; 1,2-Propanediol
Talstar Termiticide, insecticide granular	Bifenthrin 2-methyl, 1, 1-biphenyl, 3-y-, dimethylyvlopropane carboxylate
Tempo 20 WP	Cyfluthrin, cyano (fluoro-3-phenoxyphenyl) methyl-3
Termidor	Fripronil
Termin-8 Wood Preservative	Copper Naphthenate 25%
The Giant Destroyer	N/A
Wasp Freeze	Phenothrin, D-Trans Allethrin
Wilco Gopher Getter Type 2	Chlolophacinone
