Thien Vu-Nguyen

6-12 STEM COORDINATOR

Thien Vu-Nguyen is a dedicated STEM educator and program leader committed to expanding equitable, high-quality learning opportunities for all students. As the STEM Accelerated Learning Coordinator for Tracy Unified School District, he leads hands-on, districtwide initiatives that strengthen instruction and prepare students for future college and career pathways. With experience teaching Biology, Chemistry, and Engineering—as well as developing an industry-aligned Engineering program and coaching FIRST Robotics—Thien blends technical rigor with creativity and real-world application. His work with Apple engineers and research labs like LLNL and Sandia further informs his approach. He is driven by a belief that STEM education opens doors and is passionate about empowering the next generation of innovators.
