

2025 - 2026 SNOW ROUTES

SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected. Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

Route #	Bus #	Schools	Stop #	M/T/TH/F	WEDNESDAY	Stop Name

2025 - 2026 SNOW ROUTES

SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected. Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

2025 - 2026 SNOW ROUTES

SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected. Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

2025 - 2026 SNOW ROUTES

SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected. Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

2025 - 2026 SNOW ROUTES

SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected. Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. SNOW ROUTES & THINGS TO KEEP IN MIND...

Not all bus stops change when buses run on snow routes. Some students will have the same bus stop that they normally do. The bus stop times may change though. The bus stop times shown below are estimates. Buses can and often do run late when on snow routes. Students should be at their stops 5 minutes before the bus is expected.

Please dress for the weather as buses often run late due to conditions. If students are waiting in a car to stay warm, please watch for the bus and flash headlights as it approaches so the driver knows to stop. Students may be missed if it appears that no one is at the stop. Drivers are used to looking for students, not vehicles.

The best way to know when the bus will be arriving on snow days is with the new **EZ A2B app**. This is the new parent portal for Transportation and bus information. It allows parents and caregivers to monitor the buses progress and when it is approaching. Alerts and notifications regarding buses can also be received with the app. There is a process to activate the app. For that reason, it is highly encouraged that the app is set up before it is needed.

2 Hour Late Start - Add 2 hours to the estimated AM bus stop times shown below if school is starting 2 hours late.

The Transportation office will also do it's best to keep up with informing families of buses that are running late via text and email. Please be patient as these alerts may lag behind if most of the staff is driving or the weather conditions are such that the volume of messages is difficult to keep up with.

Route #	Bus #	Schools	Stop #	M/T/TH/F	WEDNESDAY	Stop Name
107	G35	PRESCHOOL	1	11:25 AM	N/A	GRANITE FALLS BUS DEPOT
			2	11:40 AM	N/A	GF PRESCHOOL - Small buses in the back
