South Korea & Japan 2027

Dear D'Evelyn family,

We're excited to offer your student the chance to explore the vibrant culture, rich history, incredible food, and stunning landscapes of both South Korea and Japan on an immersive 11-day educational adventure in 2027.

From Tokyo's neon districts and Kyoto's bamboo forests to Seoul's palaces and Busan's colorful seaside villages, this hands-on experience brings the region's traditions, modern energy, and unforgettable beauty to life in a way that simply can't be replicated in a classroom.

We have witnessed first-hand the transformative impact these travel experiences have on students, and we deeply believe in these opportunities for our students to grow in independence and confidence, develop teamwork and collaboration skills, a better understanding of the world and their place in it, and to set themselves apart in their futures. We are excited to see this growth in your student.

We are hosting an informational meeting for interested families to learn more. **Please use the QR code or link to register for the meeting** (it's the only way to attend and receive follow up info), and please don't hesitate to reach out with questions.

We look forward to seeing your family there and sharing more about this incredible experience!

Kari Newell & the South Korea & Japan '27 team

"My son and I really enjoyed our Japan and South Korea trip. So much he wants to do an exchange program in Tokyo during high school. We loved the guides, every stop was fun and unique in its own way. Loved the cultural experiences such as making our own chopsticks, a traditional tea ceremony and a Korean cooking class. There was so much to do and see! We loved it! Because of it we plan on going back to Japan and South Korea to explore some more!"

-Parent/Traveler

"Our EF Tour to Japan and South Korea was absolutely amazing. Every detail was carefully planned — from the itinerary to the hotels, transportation, and tour guides. We had a perfect balance of cultural experiences and fun activities. The trip exceeded our expectations, and we couldn't be happier. Highly recommended!"

-Group Leader

"The combination of South Korea and Japan is an exceptional choice for anyone who would like to compare these two Asian, very technologically advanced countries. We are often fascinated by their culture of anime, K-pop, K-beauty, food and history and this just rich of experiences trip allows one to dip their feet in all of it. The staff working on the trip (from the 2 countries) was top notch, always trying to show us more and give us their best picture of the countries they are proud of. The food, the accommodations, the activities were truly carefully prepared to give students the sense of what it is to be part of these cultures and to let them know that their desires are heard, too. I have been working with EF for the past 15 years and travelled to 4 continents with EF and this trip lands among my top 3 choices to experience travelling."
