

Work with us in 3 steps.

1

While you are in high school...your IEP team will work with you to determine your education/training, employment, and independent living goals.

2

When you leave us...we will ask you to provide contact information such as a personal email, personal cell #, social media accounts, parent email, and/or parent cell #.

3

One year after you leave us...you will receive an automated notification with a survey link. The survey will ask you information about what you are doing related to those post-secondary goals. *Please respond to that survey!* If you do not respond to the survey, we will try to contact you 3 different ways.

*We care
about
you!*
