Addendum #2

We are issuing this addendum to address the following:

1. First, under Professional Services, you list Design/Build as a service option. Are you planning to pursue the PAC as a Design/Build project, or are you open to any delivery method, including CSP and CMAR? **District is open to any delivery method but the main decision will come from our Board of Directors they select the delivery method after working with an architect firm.**
2. Second, Section 6 requires "detailed renderings." A few things give us pause on that: How detailed are you expecting the renderings to be? Do you have a site identified for the PAC? Designing without knowing the context makes it difficult to produce anything meaningful. It is also not our practice to develop design concepts without district input. Any graphics we submit at this stage would be created in a vacuum without your program, your priorities, or your community's needs — and would not reflect what your finished project could or should look like.

We do have site, but it's not showing on the maps. To clarify, we are simply requesting a visual concept at this stage. We do not have any specific design direction or requirements in mind. We're interested in seeing your vision for the PAC and how you would approach the design creatively.

Please, sign, date, and submit this addendum with your proposal response. Also, email a copy of page 2 of this addendum to reynaldo.cantu@stisd.net to confirm your acknowledgment. We look forward to hearing from you.

Thank you.
