

New Elementary School on Greendale Road

➤ **Completed Work:**

- The site was muddy from the previous weeks' weather conditions. Minor locations of snow were observed.
- Laying of interior CMU masonry continues inside the building and laying of CMU masonry has begun at the second floor.
- The second-floor planks all appear to be set.
- Grouting of CMU masonry cells was in progress during this site visit.
- The retention pond is frozen over but appears to be operating properly. Water was not observed in the lower pond.

➤ **Upcoming Work / Look Ahead:**

- Continue setting and filling the ICF forms.
- Continue placing concrete floor slabs.
- Continue laying of masonry in the kitchen area.
