What Does the School Screening Program Do?

- Provides schools with assistance in completing mandatory annual oral health screenings.
- Screenings are done by local dentists and dental hygienists during the school day.
- All screeners are trained and calibrated.
- Screening takes only 1-2 minutes per child and parents receive a summary of the screening's findings.
- Screening data is collected and aggregated. All school data is posted on the KDHE Bureau of Oral Health's website: http://www.kdheks.gov/ohi/screening_program.htm.

Did You Know?

- Kansas has a State Law requiring schools to provide an annual dental inspection (K.S.A.72-5201). For more information, visit www.kdheks.gov/ohi/download/screening_initiative/State_Statute.pdf.
- The Bureau of Oral Health has a program to assist schools in compliance with this law.
- Oral health screening data for more than 150,000 children is available at http://www.kdheks.gov/ohi/screening_program.htm.
