Standard Operating Procedure:
Updated: 8/9/22

PROCEDURE

1. Pick up the blue bags(s) from the Multi-purpose room or designated location.
2. Take the blue bag(s) to the classroom.
3. Open the blue bag(s) so that students have access to all the breakfast items.
4. If the student would like breakfast, they must take the main entree (typically a grain item) and must take a piece of fruit. The milk is optional.
5. After completing these steps, students who have taken a breakfast may choose to put unwanted & uneaten food items into a separate container (“share basket”). These items can be consumed by other students. These shared items become the responsibility of the teacher/classroom regarding food safety and disposal.
6. Return paperwork and blue bag(s) with any untaken food items to the cafeteria associate before or at lunch.
