		Western Kansas Community Foundation		Because of passionate donors, the Western Kansas Community Foundation holds many scholarships for students who desire to further their education beyond from High School. Many statistics link a college degree with higher-paying jobs and a better chance at financial success in life. Many scholarships are determined by the WKCF board, and must be applied for through the online application system. However, there are other scholarships that are administered by the Foundation but awarded by external scholarship committees. http://wkcf.org/grants-scholarships/scholarships	Varies
