

# Attendance Goal

Greenbrier Elementary School builds a safe, student-centered learning environment, to ensure academic excellence and life-long learning.

By February 25, 2026, 100% of Greenbrier classes will have a 95% attendance rate or higher!

## How Will We Accomplish This Goal?

### Wonderful Wednesday

We will come together as one Greenbrier family to kick off the day by sharing announcements and connecting as a school community. This quick gathering helps us build school spirit and start the day feeling connected and informed!

### Daily Attendance Drawing

Throughout February, we'll hold daily attendance drawings! Five students who are on time and present all day will win a prize.

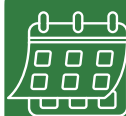

### Every Day Counts Lessons

All teachers taught attendance lessons and shared ways students can stay healthy so they can come to school each day.

### Good Attendance Helps Everyone LEARN

When students are in class on time every day, the whole class learns together, with no slowing down through the school year! A rising tide lifts all boats, and a classroom full of students every day allows teachers to keep everyone excelling and succeeding every day.

### Ideas for Improving Attendance

Download and/or print out the district calendar for the school year. This helps to plan for appointments and travel on days school is not in session.

Start a routine at home on school nights: pack your child's backpack and/or lunch for the next day. Have your child select his/her clothes before bedtime. Have a consistent bed time that allows your child to get 8-10 hours of sleep.
