## **MILK BID GENERAL CONDITIONS (ADDITIONAL)**

**ESCALATION/DE-ESCALATION CLAUSE:** The blend bid price for milk will be firm through the month of August. In each succeeding month, the price will be tied to the class price of milk based on the announced USDA marketing service, dairy division, southeast marketing area. The price of milk in this bid will vary according to the milk market.

**DELIVERIES:** Deliveries must ensure an adequate supply of milk is supplied for each meal service. A list of delivery employees with contact information, including cell phone numbers, will be provided to each district before the bid term and updated as necessary. All milk deliveries will be made in accordance with regulations from the health department and the USDA. Milk temperature will be maintained at 40 degrees or lower on all milk delivery trucks. Milk products above 40 degrees will be rejected, and replacement will be made immediately at no additional cost to the district.

**FRESH SUPPLY OF MILK REQUIRED:** This successful bidder, prior to school holidays, will pick up milk and credit milk that would become out of date before school resumes. This successful bidder will replace, without cost, milk that is off-flavored, packed in soiled milk cartons, out of date, or otherwise contaminated.

**SEAL ADJUSTMENTS:** This successful bidder will adjust the milk carton seal as needed to ensure it is tight enough to prevent leaks and loose enough to open without great difficulty by the children.

**OTHER PRODUCTS:** Prices are requested for other dairy products, fruit juices, and different pack sizes of milk. Such prices will be considered independently of the half pint milk bid. The other product's prices will remain firm throughout the entire bid timeframe.

**TERMINATION OF BID:** When the supplier fails or refuses to maintain the milk supply at any school, in compliance with USDA regulations or the specifications of this bid, and such failure or refusal results in loss of federal reimbursement, reduced student participation, or any other expense to any district, the successful bidder will be notified to the possible termination of the bid. This successful bidder will be allowed to make restitution within 5 business days before efforts to terminate the bid are made. Termination of the bid is fifteen days after the posting of a certified letter to the awarded bidder.
