***Report on the Audit of the Financial Statements***

**Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Godley Independent School District ("the District"), as of and for the ten months ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Godley Independent School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Godley Independent School District as of June 30, 2025, and the respective changes in financial position, for the ten months then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Godley Independent School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Emphasis of Matter***

As described in Note A to the financial statements, in Fiscal Year 2025, Godley Independent School District adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Additionally, the District changed its fiscal year end from August 31 to June 30 during the current year. As a result, the accompanying financial statements for the year ended June 30, 2025 cover a ten-month period from September 1, 2024 through June 30, 2025. Our opinion is not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Godley Independent School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, schedule of the District's pension contributions, schedule of the District's proportionate share of the net OPEB liability, and schedule of the District's OPEB contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Godley Independent School District's basic financial statements. The accompanying financial information listed as other supplementary information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2026 on our consideration of Godley Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Godley Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Godley Independent School District's internal control over financial reporting and compliance.

## Management's Discussion and Analysis (Unaudited)

As management of the District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the ten months ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

### Financial Highlights

- In 2025, the District implemented a fiscal year end change from August 31 to June 30. As such the District reflects ten months of operations for September 1, 2024 through June 30, 2025.
- The liabilities and deferred inflows of the District exceeded its assets and deferred outflows at the close of the most recent period by \$2,155,269 (*net position*). Of this amount, a negative \$16,604,669 is *unrestricted net position*.
- As of June 30, 2025, the District's governmental funds reported combined ending fund balances of \$24,950,666. Approximately 14% of this total amount, \$3,506,879, is *available for spending* at the government's discretion (*unassigned fund balance*).
- At the end of the current period, unassigned fund balance for the general fund was \$3,506,879, or 10% of the total general fund expenditures.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (*governmental activities*) as opposed to *business-type activities* that are intended to recover all or a significant portion of their costs through user fees and charges. The District has no component units for which it is financially accountable. The government-wide financial statements can be found on pages 15-16 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds-not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The District adopts an annual appropriated budget for its general fund, debt service fund and food service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 17-22 of this report.
- **Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and statement of changes in fiduciary net position that can be found on pages 23-24.
- **Notes to the financial statements.** The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-48 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 50-56 of this report.

## Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, governmental-type assets and deferred outflows exceeded liabilities and deferred inflows by \$2,155,269 as of June 30, 2025.

Total net position	<u>\$ 2,155,269</u>	<u>\$ (43,627)</u>

## Net Position as of 6/30/25

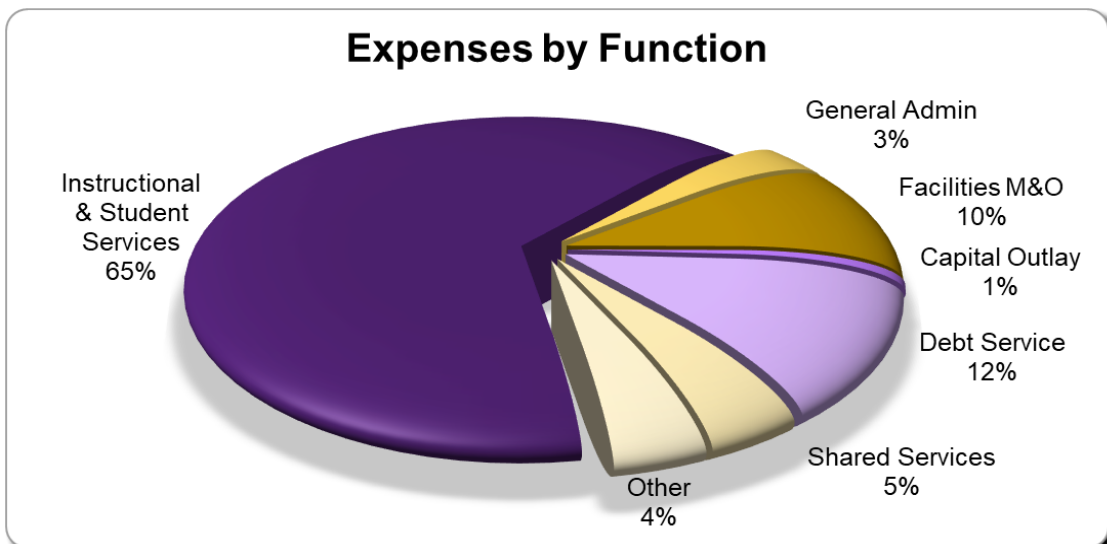

Net investment in capital assets (e.g., land, construction in progress, buildings, furniture and equipment, and right to use assets) is \$8,524,761. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District’s net position (\$10,235,177) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* is negative \$16,604,669. This deficit is not an indication that the District has insignificant resources available to meet financial obligations next year, but rather the result of having long-term commitments that are in excess of currently available resources.

**Governmental activities.** The District’s total governmental activities net position increased \$2,198,896 during the current year. The total cost of all *governmental activities* this year was \$51,021,180. The amount that our taxpayers paid for these activities through property taxes was \$23,593,767 or 46%. The District elected to change its fiscal year end from an August 31 year-end to a June 30 year-end, which means the District had two months less expenses than the prior year presented and an overall decrease in expenses.

## Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

**Governmental Funds.** The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of the end of the current ten month period, the District's governmental funds reported combined ending fund balances of \$24,950,666 an increase of \$11,069. Approximately 14% of this total amount (\$3,506,879) constitutes *unassigned fund balance*. The remainder of the fund balance is *restricted, committed, or assigned* to indicate that it is not available for new spending and has already been *restricted* to pay (1) for federal/state funds grant restrictions (\$573,697), (2) capital acquisitions and contractual obligations (\$11,376,012), (3) for retirement of long-term debt (\$9,167,275), and (4) other restrictions of fund balance – shared service arrangement (\$225,872), *committed* for (1) for other (\$63,466). Additionally, \$30,341 of total fund balance is for nonspendable prepaid items and \$7,124 is for nonspendable inventories.

The general fund is the primary operating fund of the District. At the end of the current ten month period, unassigned fund balance of the general fund was \$3,506,879, out of a total fund balance of \$3,543,345. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 10% of the total general fund expenditures. Total general fund balance represents 10% of the total general fund expenditures. The fund balance of the District's general fund increased \$699,245 during the current period. This increase is due to an overall decrease in expenditures as a result of the fiscal year change.

The debt service fund has a total fund balance of \$9,167,275, all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$4,618,799 primarily due to a debt refunding and lower debt service payments.

The capital projects fund has a total fund balance of \$11,376,012, a decrease of \$5,323,655 from the prior year. This decrease is due to spending previously issued debt proceeds. The entire fund balance is restricted for capital acquisitions and contractual obligations.

## General Fund Budgetary Highlights

Over the course of the fiscal year, the District recommended and the Board approved several revisions to budgeted revenue and appropriations. These amendments fall into the following categories:

- Campus requests to move funds from campus administration to instructional for support needs
- Address the change from a 12 month budget to a 10 month budget
- Recognize increases in revenue from the State, interest received, and athletic events
- Recognize changes in expenditures through account reclassification and FASRG requirements

The following are significant variations between the final budget and actual amounts for the general fund:

- Actual revenues were higher than budgeted by \$1,345,160, primarily related to an increase in state program revenues; and
- Actual expenditures were higher than budgeted by \$2,582,325, primarily due to increases within instruction and data processing services.

## Capital Asset and Debt Administration

**Capital Assets.** The District's investment in capital assets for its governmental activities as of June 30, 2025, amounts to \$236,882,386 (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings and improvements, furniture and equipment, right of use assets, and construction in progress.

Major capital asset events during the ten-month period included the continued construction of the high school, furniture for the new high school, and two passenger vans.

### District's Capital Assets (Net of Depreciation/Amortization)

	June 30, 2025	August 31, 2024

Total	<u>\$ 236,882,386</u>	<u>\$ 234,012,917</u>

Additional information on the District's capital assets can be found in Note D on page 33 of this report.

**Long-term Debt.** As of June 30, 2025, the District had total long-term debt outstanding of \$258.7 million. The District's long-term liabilities decreased by \$3.1 million (10.4%) from the prior year, primarily due to scheduled principal payment and issuance of refunding bonds.

<u>Governmental Activities:</u>	June 30 2025	August 31 2024	Change

Additional information on the District's long-term debt can be found in Note F on pages 34 - 35 of this report.

### **Economic Factors and Next Year's Budgets and Rates**

- Appraised taxable value used for the 2025-2026 budget preparation was \$1,973,662,788, an increase of \$53,782,787 or 2.80%, over last year's appraised taxable values of \$1,919,880,001.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

### A. Summary of Significant Accounting Policies

The basic financial statements of Godley Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

#### 1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

#### 2. Basis of Presentation, Basis of Accounting

##### a. Basis of Presentation

**Government-wide Financial Statements:** The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements:** The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

**General Fund:** This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

**Debt Service Fund:** This fund is used to account for and report financial resources restricted, committed, or assigned to expenditure for principal and interest.

**Capital Projects Fund:** This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets.

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

In addition, the District reports the following fund types:

**Custodial Funds:** These funds are used to report student activity funds and other resources held in a purely custodial capacity. Custodial funds typically involve only the receipt, temporary investment, and remittance of the fiduciary resources to individuals, private organizations, or other governments.

Custodial funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or custodial capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. **Measurement Focus, Basis of Accounting**

**Government-wide and Fiduciary Fund Financial Statements:** These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**Governmental Fund Financial Statements:** Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under lease contracts and subscription-based information technology arrangements are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. **Financial Statement Amounts**

a. **Property Taxes**

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

**GODLEY INDEPENDENT SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE TEN MONTHS ENDED JUNE 30, 2025**

b. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets, donated works of art and similar items are recorded at their acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Significant accounting policies for right-to-use assets are located at Note G for Leases and Note H for Subscription-Based Information Technology Arrangements (SBITAs).

Capital assets are being depreciated/amortized using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings & Improvements	25-50 years
Furniture & Equipment	5-15 years
Right-to-Use Assets Leases	2-5 years
Right-to-Use Assets SBITA	5 years

d. Deferred Outflows and Inflows of Resources

In addition to assets, the statements of financial position (the government-wide Statement of Net Position and governmental funds balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expense / expenditure) until then.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

e. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

f. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

g. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

h. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

i. Fund Balances – Governmental Funds

Fund balances of the governmental funds are classified as follows:

**Nonspendable Fund Balance** - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

**Restricted Fund Balance** - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

**Committed Fund Balance** - represents amounts that can only be used for a specific purpose because of a formal action, which is a resolution by the District's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation. At June 30, 2025, the District had other committed fund balance of \$63,466 in a special revenue fund for campus activity.

**Assigned Fund Balance** - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself. The Board shall maintain the authority to assign fund balance.

**Unassigned Fund Balance** - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

### j. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

### k. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

## 4. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to / deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## 5. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to / deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

## 6. Implementation of New Standards

In the current fiscal year, the district implemented the following new standard. The applicable provisions of the new standard is summarized below.

### GASB Statement No. 101, *Compensated Absences*

This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means.

The District reviewed its compensated absence policies, historical leave usage, and accrual practices to determine whether a liability should be recognized under the new standard. Based on this review the District determined that there was no liability that met the recognition criteria under GASB 101. Accordingly, there was no effect on the District's financial statements as a result of implementing GASB Statement No. 101.

**GODLEY INDEPENDENT SCHOOL DISTRICT**

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE TEN MONTHS ENDED JUNE 30, 2025

**B. Compliance and Accountability**

1. Finance-Related Legal and Contractual Provisions:

In accordance with GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
General Fund total actual expenditures exceeded final budgeted amounts.	The district will closely review the approved budgeted amounts adopted by the School Board and propose amendments needed during the year to prevent future overspending.

**C. Deposits and Investments**

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At June 30, 2025, the carrying amount of the District's deposits (cash and interest-bearing savings accounts included in temporary investments) was \$3,797,908 and the bank balance was \$3,807,127. The District's cash deposits at June 30, 2025 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, (1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending program, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

The District's investments at June 30, 2025 are shown below.

<u>Investment or Investment Type</u>	<u>Maturity</u>	<u>Value</u>
TexasTERM - LGIP	Wtd Avg Maturity 39 days	\$ 1,113,365
TexPool - LGIP	Wtd Avg Maturity 42 days	<u>23,818,349</u>

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at June 30, 2025, and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At June 30, 2025, the District was not significantly exposed to credit risk.

At June 30, 2025, the District's investments, other than those which are obligations of or guaranteed by the U.S. Government, were rated as to credit quality as follows:

TexasTERM	AAAmmf
TexPool	AAAm

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At June 30, 2025, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At June 30, 2025, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At June 30, 2025, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At June 30, 2025, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at the time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District reports its local government investment pools at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. In addition, the pools do not have any limitations or restrictions on withdrawals such as notice periods or maximum transaction amounts. The pools do not impose any liquidity fees or redemption gates.

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

### Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

### TexasTERM

The Texas Term Local Government Investment Pool (TexasTERM) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. TexasTERM is administered by PFM Asset Management LLC, which also serves as the investment advisor. The reported value of the pool is the same as the fair value of the pool shares. Investment options include TexasDAILY, a money market portfolio rated AAmmf by Fitch Ratings, TexasTERM, a short-term governmental securities and money market portfolio, and TexasTERM CD Purchase Program, a fixed rate, fixed-term investment option enabling investors to invest in FDIC insured CD's from banks throughout the United States. TexasTERM is operated in accordance with GASB 79 and uses amortized cost in the calculation of the net asset value at the conclusion of each business day.

### TexPool

The District invests in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool that was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts oversees TexPool. Federated Investors, Inc. is the administrator and investment manager of TexPool under a contract with the State Comptroller. In accordance with the Public Funds Investment Act, the State Comptroller has appointed the TexPool Investment Advisory Board to advise with respect to TexPool. The board is composed equally of participants in TexPool Portfolios and other persons who do not have a business relationship with TexPool Portfolios and are qualified to advise in respect to TexPool Portfolios. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAAM by Standard & Poor's. TexPool uses amortized cost to value portfolio assets and follows the criteria established by GASB 79. The stated objective of TexPool is to maintain a stable average \$1.00 per unit net asset value; however, the \$1.00 net asset value is not guaranteed or insured. The financial statements can be obtained from the Texas Trust Safekeeping Trust Company website at [www.ttstc.org](http://www.ttstc.org).

FOR THE TEN MONTHS ENDED JUNE 30, 2025

E. Interfund Balances and Activities

1. Due To and From Other Funds

Balances due to and due from other funds at June 30, 2025, consisted of the following:

<u>Due To Fund</u>	<u>Due From Fund</u>	<u>Amount</u>
General Fund	Nonmajor Governmental Funds	\$ 181,941
General Fund	Capital Projects Fund	1,436,394
Capital Projects Fund	General Fund	2,464,779
Debt Service Fund	General Fund	1,393,923
Custodial Fund	General Fund	11,423
General Fund	Custodial Fund	9,660
	Total	<u>\$ 5,498,120</u>

The outstanding balances between funds resulted mainly from the time lag between the dates that reimbursable expenditures occurred or deposits of revenue were received, the dates the transactions were recorded in the accounting system, and the date the interfund payments were actually settled. All interfund receivables will be liquidated within the next fiscal year.

2. Transfers To and From Other Funds

<u>Transfers To</u>	<u>Transfers From</u>	<u>Amount</u>	<u>Reason</u>
Nonmajor Governmental Funds	General Fund	\$ 11,090	To supplement food service fund

F. Long-Term Obligations

The District entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the ten months ended June 30, 2025, are as follows:

The District did not have any unused lines of credit, assets pledged as collateral for debt, or terms specified in debt agreements related to significant events of default with finance-related consequences, termination events with finance-related consequences, or subjective acceleration clauses as of June 30, 2025.

3. Refunding of Long-Term Debt

Current Refunding of Debt

In December 2024, the District issued \$16,385,000 of Unlimited Tax Refunding Bonds, Series 2024, to refund \$17,330,000 of outstanding Unlimited Tax School Building Bonds, Series 2015 and a portion of the 2022. The refunding resulted in an economic gain (NPV debt service savings) of \$1,320,305 and reduced total debt service payments by \$1,474,660. The transaction is considered a current refunding since the refunded bonds were redeemed within 90 days of issuance of the refunding bonds.

G. Leases

The District is a lessee for noncancelable leases of equipment. The District recognizes a lease liability, reported with long-term debt, and a right-to-use lease asset, reported with other capital assets, in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments. The lease asset is initially measured at the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease.
- Lease payments included in the measurement of the liability are composed of fixed payments and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

There were no variable payments or residual value guarantees or penalties not included in the measurement of the leases. The District did not have any commitments under leases not yet commenced at June 30, 2025, components of losses associated with asset impairments, or sublease transactions for the ten months ended June 30, 2025.

The lease with Wells Fargo Financial Leasing matures on July 31, 2025 and is for copier equipment with an initial value of \$159,404 payable in monthly installments of \$2,917 at an interest rate of 3.74%.

The lease with Wells Fargo Financial Leasing matures on July 31, 2027 and is for copier equipment with an initial value of \$60,057 payable in monthly installments of \$1,099 at an interest rate of 3.74%.

The lease with Wells Fargo Financial Leasing matures on October 10, 2027 for copier equipment with an initial value of \$40,988 payable in monthly installments of \$724 at an interest rate of 2.31%.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

### H. Subscription-Based IT Arrangements

The District is a contractee for noncancelable Subscription-Based IT Arrangements (SBITAs). The District recognizes a SBITA liability, reported with long-term debt, and a right-to-use lease asset, reported with other capital assets, in the government-wide financial statements. The District recognizes SBITA liabilities with an initial, individual value of \$15,000 or more.

At the commencement of a SBITA, the District measures the SBITA liability at the present value of payments expected to be made during the SBITA term. Subsequently, the SBITA liability is reduced by the principal portion of SBITA payments. The SBITA asset is initially measured at the initial amount of the SBITA liability, adjusted for SBITA payments made at or before the commencement of the SBITA term, plus capitalizable initial implementation costs as described in GASB 96 paragraph 29(b). Subsequently, the SBITA asset is amortized on a straight-line basis over the shorter of the SBITA term or its useful life.

Key estimates and judgments related to SBITAs include how the District determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) SBITA term, and (3) SBITA payments.

- The District uses its estimated incremental borrowing rate as the discount rate for SBITA.
- The SBITA term includes the noncancelable period of the SBITA.
- SBITA payments included in the measurement of the liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, payments for penalties of terminating the SBITA, SBITA incentives receivable from the vendor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the SBITA asset and liability if certain changes occur that are expected to significantly affect the amount of the SBITA liability.

There were no variable payments or residual value guarantees or penalties not included in the measurement of the SBITAs. The District did not have any commitments under SBITAs not yet commenced at June 30, 2025, or components of losses associated with asset impairments for the ten months ended June 30, 2025.

The SBITA with Finalsite, matures on July 1, 2028, for a web community management system with an initial value of \$39,143 payable in annual installments of \$8,360 at an interest rate of 2.23%.

The District entered into a new SBITA with Docunav, that matures on February 27, 2029, with an initial value of \$55,500 payable in annual installments of \$19,361 at an interest rate of 2.31%.

Future SBITA payment maturity schedule is as follows:

Year Ending			
June 30	Principal	Interest	Total
2026	\$ 26,496	\$ 1,225	\$ 27,721
2027	27,102	619	27,721

### I. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the ten months ended June 30, 2025, Godley Independent School District carried insurance through various plans described below. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

**GODLEY INDEPENDENT SCHOOL DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE TEN MONTHS ENDED JUNE 30, 2025**

Property and Liability

During the ten months ended June 30, 2025, Godley ISD met its statutory property casualty obligations through participation in the Property Casualty Alliance of Texas (the Fund). The Fund was created pursuant to the provisions of the Interlocal Cooperation Act, Chapter 791, Title 7 of the Texas Government Code. All Districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides property and casualty coverage and service to its members. The Fund and its members are protected against higher than expected claims costs through reinsurance contracts for claims in excess of the Fund's self-insured retentions. The Fund uses the services of an independent actuary to help determine the reserve adequacy. As of August 31, 2024, the Fund carried a total of \$15,042,461 in current loss reserves, including \$4,673,631 for claims incurred but not yet reported. Losses and reserves are based on estimates and could be more or less than originally estimated.

Workers' Compensation

The District participates in the Public Workers' Compensation Program (PWCP), a fully guaranteed costs workers' compensation program servicing school districts and counties throughout Texas. The plan for workers' compensation benefit is authorized by Section 504.011 of the Labor Code. Claims are paid by a third-party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provision of that agreement.

J. Pension Plan

1. Plan Description

The District participates in a multiple-employer, cost sharing, defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempt from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

2. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov>; by writing to TRS at attention Finance Division, PO BOX 149676, Austin, TX, 78714-0185, or by calling 1-800-223-8778.

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than age 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (1) above. Accordingly, the 2023 Texas Legislature passed Senate Bill (SB) 10 and House Joint Resolution (HJR) 2 to provide eligible retirees with a one-time stipend and an ad hoc cost-of-living-adjustment (COLA).

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

### One-Time Stipends

Stipends, regardless of annuity amount, were paid in September 2023 to annuitants who met the qualifying age requirement on or before August 31, 2023:

- A one-time \$7,500 stipend to eligible annuitants who are 75 years of age and older.
- A one-time \$2,400 stipend to eligible annuitants age 70 to 74.

### Cost-of-Living Adjustment

A cost-of-living adjustment (COLA) was dependent on Texas voters approving a constitutional amendment (Proposition 9) to authorize the COLA. Voters approved the amendment in the November 2023 election and the following COLA was applied to eligible annuitants' payments beginning with their January 2024 payment:

- 2% COLA for eligible retirees who retired between September 1, 2013 through August 31, 2020.
- 4% COLA for eligible retirees who retired between September 1, 2001 through August 31, 2013.
- 6% COLA for eligible retirees who retired on or before August 31, 2001.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

#### 4. Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the System during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 through 2025.

	<u>Contribution Rates</u>	
	<u>2024</u>	<u>2025</u>
Member	8.25%	8.25%
Non-Employer Contributing Entity (State)	8.25%	8.25%
Employers	8.25%	8.25%
District's 2025 Employer Contributions	\$	1,056,205
District's 2025 Member Contributions	\$	2,425,070
2024 NECE On-Behalf Contributions (State)	\$	1,787,293

Contributors to the plan include active members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges and universities, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior colleges, universities and medical schools) are required to pay the employer contribution rate in the following instances:

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.9% of the member's salary beginning in fiscal year 2024, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

### 5. Actuarial Assumptions

The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term expected Investment Rate of Return	7.00%
Municipal Bond Rate as of August 2024	3.87% *
Last year ending August 31 in Projection Period (100 years)	2123
Inflation	2.30%
Salary Increases including inflation	2.95% to 8.95%
Ad hoc post-employment benefit changes	None

\* The source for the rate is the Bond Buyers 20 Index which represents the estimated yield of a portfolio of 20 general obligation bonds maturing in 20 years based on a survey of municipal bond traders.

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2023. For a full description of these assumptions, please see the actuarial valuation report dated November 21, 2023.

### 6. Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.54% of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

The long-term expected rate of return on pension plan investments is 7.00%. The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2024 are summarized below:

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE TEN MONTHS ENDED JUNE 30, 2025

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net pension liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (7.00%) in measuring the net pension liability.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
District's proportionate share of the net pension liability:	\$ 17,583,522	\$ 11,008,599	\$ 5,560,808

8. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability of \$11,008,599 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 11,008,599
State's proportionate share that is associated with District	<u>19,373,288</u>
Total	<u>\$ 30,381,887</u>

The net pension liability was measured as of August 31, 2023, and rolled forward to August 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 through August 31, 2024.

At August 31, 2024 the employer's proportion of the collective net pension liability was 0.018022%, which was a decrease of 0.000060% from its proportion measured as of August 31, 2023.

9. Changes in Assumption and Benefits Since the Prior Actuarial Valuation

The assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Texas Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House Joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$1.645 billion for one-time stipends and \$3.355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

For the ten months ended June 30, 2025, the District recognized pension expense of \$4,254,089 and revenue of \$2,315,432 for support provided by the State.

### K. Defined Other Post-Employment Benefit Plans

#### 1. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

#### 2. OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov>; by writing to TRS at P.O. Box 149676, Austin, TX, 78714-0185; or by calling (800) 223-8778.

### 3. Benefits Provided

TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs).

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates		
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

### 4. Contributions

Contribution rates for the TRS-Care plan are established in State Statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers are based on active employee compensation. The TRS board does not have the authority to set or amend contribution rates.

Section 1575.202 of the Texas Insurance Code establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of Salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75% of each active employee's pay for fiscal year 2024. The following table shows contributions to the TRS-Care plan by type of contributor.

Contribution Rates		
	2024	2025
Member	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding remitted by Employers	1.25%	1.25%
District's 2025 Employer Contributions		\$ 244,772
District's 2025 Member Contributions		\$ 195,960
2024 NECE On-Behalf Contributions (State)		\$ 308,599

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether they participate in the TRS-Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

### 5. Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2023 and was used to roll forward the total OPEB liability to August 31, 2024.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2023 TRS pension actuarial valuation that was rolled forward to August 31, 2024:

Rates of Mortality	Rates of Disability
Rates of Retirement	General Inflation
Rates of Termination	Wage Inflation

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

#### Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry-Age Normal
Inflation	2.30%
Single Discount Rate	3.87% as of August 31, 2024
Aging Factors	Based on the Society of Actuaries' 2013 Study "Health Care Costs - From Birth to Death"
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	2.95% to 8.95%, including inflation
Ad hoc post-employment benefit changes	None

### 6. Discount Rate

A single discount rate of 3.87% was used to measure the Total OPEB Liability. This was a decrease of .26% in the discount rate since the previous year.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is e Bond Buyer's "20-Bond GO Index" as of August 31, 2024, using the Fixed Income Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

### 7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% lower than and 1% higher than the discount rate that was used (3.87%) in measuring the net OPEB liability.

	1% Decrease in Discount Rate <u>(2.87%)</u>	Discount Rate <u>(3.87%)</u>	1% Increase in Discount Rate <u>(4.87%)</u>
District's proportionate share of the net OPEB liability:	\$ <u>9,777,111</u>	\$ <u>8,229,568</u>	\$ <u>6,979,130</u>

### 8. Healthcare Trend Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease in the Healthcare Trend Rate	Current Single Healthcare Trend Rate	1% Increase in the Healthcare Trend Rate
District's proportionate share of the net OPEB liability:	\$ <u>6,701,761</u>	\$ <u>8,229,568</u>	\$ <u>10,220,452</u>

### 9. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2025, the District reported a liability of \$8,229,568 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 8,229,568
State's proportionate share that is associated with District	<u>10,311,537</u>
Total	<u>\$ 18,541,105</u>

The Net OPEB liability was measured as of August 31, 2023 and rolled forward to August 31, 2024; and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the District's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2023 through August 31, 2024.

At August 31, 2024 the District's proportion of the collective net OPEB liability was 0.027114%, which was an increase of 0.000883% from its proportion measured as of August 31, 2023.

### 10. Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability (TOL) since the prior measurement period:

- The single discount rate changed from 4.13% as of August 31, 2023 to 3.87% as of August 31, 2024, accompanied by revised demographic and economic assumptions based on the TRS experience study.
- The tables used to model the impact of aging on the underlying claims were revised.

Changes of Benefit Terms Since the Prior Measurement Date - There were no changes in benefit terms since the prior measurement date.

**GODLEY INDEPENDENT SCHOOL DISTRICT**

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE TEN MONTHS ENDED JUNE 30, 2025

The amount of OPEB expense recognized by the District in the reporting period was (\$1,758,860) and revenue of (\$1,340,310) for support provided by the State.

At June 30, 2025, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Expected and Actual Actuarial Experience	\$ 1,577,332	\$ 4,107,001
Changes in Actuarial Assumptions	1,053,287	2,685,213
Difference Between Projected and Actual Investment Earnings	-	23,046
Changes in Proportion and Difference between District's Contributions and the Proportionate Share of Contributions	3,002,123	268,666
Contributions paid to TRS subsequent to the measurement date of the Net OPEB Liability	207,410	-
<b>Total</b>	<u><u>\$ 5,840,152</u></u>	<u><u>\$ 7,083,926</u></u>

The District recognized \$207,410 as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date, which will be recognized as a reduction of the net OPEB liability in the fiscal year ending June 30, 2026. The other amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>OPEB Expense Amount</u>
2026	\$ (631,151)
2027	(258,423)
2028	(441,833)

Thereafter	514,060

11. Medicare Part D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the ten months ended June 30, 2025, the subsidy payment received by TRS-Care on behalf of the District was \$214,727.

L. Employee Health Care Coverage

During the ten months ended June 30, 2025, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$325 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third-party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

# GODLEY INDEPENDENT SCHOOL DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS FOR THE TEN MONTHS ENDED JUNE 30, 2025

The contract between the District and the third-party administrator is renewable annually, and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for the Plan are available and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

### M. Commitments and Contingencies

#### 1. Commitments

The District has multiple commitments for construction projects. Several contracts were in progress but not completed as of the ten months ended June 30, 2025. The total contractual commitments outstanding as of June 30, 2025 total approximately \$4,317,220.

#### 2. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

#### 3. Litigation

No reportable litigation was pending against the District at June 30, 2025.

### N. Shared Services Arrangements

#### Shared Services Arrangement – Fiscal Agent

The District is the fiscal agent for a Shared Services Arrangement ("SSA") which provides special education services to the member districts listed below. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in a special revenue fund (Fund 437). Expenditures of the SSA are summarized below:

<u>Member Districts</u>	<u>Expenditures</u>
Godley ISD	\$ 2,510,017
Grandview ISD	938,637
Keene ISD	741,691
Rio Vista ISD	699,788
Total	<u>\$ 4,890,133</u>

### O. Subsequent Events

The District evaluated subsequent events through February 18, 2026, the date the financial statements were available to be issued and no subsequent events were noted.

## Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE TEN MONTHS ENDED JUNE 30, 2025

Budget

The official budget was prepared for adoption for all Governmental Fund Types legally required (General Fund, Food Service Fund, and Debt Service Fund). The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data:

- a. Prior to June 19 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Any changes of benefit terms that affected the measurement of the net pension liability during the measurement period are described in the notes to the financial statements (Note J).

Any changes of benefit terms that affected the measurement of the net OPEB liability during the measurement period are described in the notes to the financial statements (Note K).

Changes of assumptions

Any changes of assumptions that affected the measurement of the net pension liability during the measurement period are described in the notes to the financial statements (Note J).

Any changes of assumptions that affected the measurement of the net OPEB liability during the measurement period are described in the notes to the financial statements (Note K).

Independent Auditor's Report on Internal Control over Financial Reporting and  
on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance With Government Auditing Standards

To the Board of Trustees  
Godley Independent School District  
313 N. Pearson  
Godley, Texas 76044

Members of the Board of Trustees:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Godley Independent School District, as of and for the ten months ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Godley Independent School District's basic financial statements, and have issued our report thereon dated February 18, 2026.

## Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Godley Independent School District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Godley Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Godley Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be a material weakness. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2025-001, that we consider to be significant deficiencies.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Godley Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Godley Independent School District in a separate letter dated February 18, 2026.

## Godley Independent School District's Response to Findings

*Government Auditing Standards* requires the auditor to perform limited procedures on Godley Independent School District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Godley Independent School District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and  
Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Trustees  
Godley Independent School District  
313 N. Pearson  
Godley, Texas 76044

Members of the Board of Trustees:

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Godley Independent School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on Godley Independent School District's major federal programs for the ten months ended June 30, 2025. Godley Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Godley Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the ten months ended June 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Godley Independent School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Godley Independent School District's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Godley Independent School District's federal programs.

### **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Godley Independent School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Godley Independent School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Godley Independent School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Godley Independent School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Godley Independent School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

B. Financial Statement Findings

Finding 2025-001 - Significant Deficiency - Internal Controls Over Financial Reporting

Criteria: Timely and accurate financial reports are essential to perform analysis of financial conditions, review data for accuracy and completeness, monitor compliance with budget appropriations, prepare long-range financial plans, and to safeguard assets.

Condition: Multiple audit adjustments were necessary to accurately reconcile state funding and grant activity. In addition, balance sheet account reconciliations were not consistently performed, particularly for cash and interfund due to/from accounts. A comparison of the final amended budget to actual results also revealed that expenditures in the General Fund exceeded the approved budgeted amounts.

Cause: It appears the condition was the result of a weakness in internal controls over the proper review and reconciliation of the account balances.

Effect: Due to the audit adjustments needed, financial reports prepared throughout the fiscal year could have been relied upon in error.

Auditor's Recommendation:

The District should improve internal control procedures in place related to financial reporting, monitoring, and recording financial transactions to produce more useful and accurate financial reports.

## Corrective Action Plan For Year End June 30, 2025

Finding 2025-001 - Significant Deficiency - Internal Controls Over Financial Reporting

Responsible Parties: Spencer Davis

Corrective Action Plan:

The District will implement a comprehensive corrective action plan to ensure timely and accurate financial reporting. All balance sheet accounts—including cash, interfund due to/from accounts, state aid receivables, and grant accounts—will be reconciled on a monthly basis with proper supporting documentation maintained for review.

The District will also strengthen internal oversight procedures to ensure alignment between payment summaries, reimbursement requests, and general ledger postings, thereby reducing the need for audit adjustments. Enhanced budgetary controls will be implemented to prevent expenditures from exceeding Board-approved appropriations within the General Fund.

With the recent financial software conversion now complete, the District anticipates improved efficiency in data posting, reconciliation processes, and supervisory review of accounting records. Implementation progress and effectiveness of these corrective measures will be evaluated and verified as part of the next annual audit.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE TEN MONTHS ENDED JUNE 30, 2025

Basis of Presentation

The accompanying schedule of expenditures of federal awards ("the Schedule") includes the federal grant activity of Godley Independent School District. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Therefore, some amounts may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported using the modified accrual basis of accounting. These expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Godley Independent School District has elected not to use the 10-percent *de minimis indirect cost rate* allowed under the Uniform Guidance.

Reconciliation

The following table reconciles expenditures per the Schedule of Expenditures of Federal Awards to the federal program revenues per the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds:

Federal Program Revenues	\$ 3,204,128
Less:	
SHARS	(86,390)
Total Expenditure of Federal Awards	<u>\$ 3,117,738</u>
