Traffic Safety

If your student is at least 15 ½, they can get their permit at the DOL.

Prerequisites:

- Obtain WDL Number (this will be requested via ParentSquare prior to scheduling your student in the class this April—you can do it now!)
- Solid attendance patterns semester prior to enrollment in course
- Prioritized by age—must be 15 ½ when the class starts or have permission

For more information see our webpage:

<https://www.wahibluedevils.org/c-p/courses/traffic-safety-and-financial-literacy>

Research shows that teenagers who take a driver's education class are much safer on the road. This semester-long course will focus on traffic safety education (TSE) and personal finance through a blended semester developing student independence.

This class is scheduled in age order based on student course requests. Students who wish to take Driver's Ed (TSE) next school year MUST request the class through this class registration process: BUS278 FINANCE/TSE.

Limited Driver's Ed spaces will be offered this summer. If your student is already 16 and wants to take the course in the summer they should NOT request Driver's Ed as a class for next year. Information about summer sign-ups has been communicated via ParentSquare and is posted on our website. If students who request summer don't get the class, we will request a school year spot for them. If students have requested a school year spot, they will not have priority for summer spots.

Summer Schedule- June 8-July 17, M-Th, with Friday availability for retakes PLUS two 2-hour drives per week. ONE fast-paced session available: 9:15-11:30. With limited make-ups available, students must attend all days.

Seguridad vial

Si su estudiante tiene al menos 15 ½, puede obtener su permiso en el DOL.

Prerrequisitos:

- Permiso de instrucción (10 días antes del comienzo de la clase)
- Buena asistencia durante el semestre previo a la inscripción en este curso
- Priorizado por edad—debe tener 15 ½ al comienzo de la clase o tener un permiso

Para más información vea nuestra página de internet:

<https://www.wahibluedevils.org/c-p/courses/traffic-safety-and-financial-literacy>

Las investigaciones muestran que los adolescentes que toman clases de educación vial son mucho más seguros en la carretera. Este curso de un semestre se centrará en la educación sobre seguridad vial (TSE, por sus siglas en inglés) y las finanzas personales a través de un semestre combinado que desarrollará la independencia de los estudiantes.

Esta clase está programada en orden de edad según las solicitudes de cursos de los estudiantes. Los estudiantes que deseen inscribirse en Driver's Ed para el próximo año deben solicitar esta clase. Dejaremos de aceptar solicitudes cuando la clase esté llena. Solicite BUS728 + otra clase semestral; unas buenas opciones incluyen educación física, aplicaciones de Microsoft, planificación profesional o cualquier otra cosa que se ofrezca en AMBOS semestres.
