Happy Spring!

Spring is such an amazing season! New life is blooming everywhere you look. I love the verse, Isaiah 61:11 *“For as the soil makes the sprout come up and a garden causes seeds to grow so the Sovereign Lord will make righteousness and praise spring up before all nations.”*

As you see the signs of spring in these next months, let it be a reminder to you of Jesus’ love for you and your family. If you do not have a church for you and your family to worship, start looking for one now. With Easter coming up, what a perfect time to gather as a family to celebrate the resurrection of Jesus Christ our Lord and Savior!

Many Blessings
To Each One Of You!

In His Service,
Joy Lee
Preschool Director

Tiny Humans, Big Emotions

When a preschooler is upset, their brain is basically throwing a tiny storm—logic takes a back seat, and big feelings take the wheel. That’s where cool-down time comes in. Giving your child space to calm their body helps their nervous system reset so their “thinking brain” can come back online.

Developmental research shows that young children can’t self-regulate on their own yet—they borrow calm from trusted adults. A short, predictable cool-down (think cozy corner, deep breaths, a hug, or squeezing a pillow) teaches them that feelings are safe and manageable, not something to fear or rush through.

Over time, these moments build lifelong skills like emotional regulation, problem-solving, and resilience—all while helping everyone get back to playing, learning, and connecting a whole lot faster.

Reminder!
