Dublin School District –Franklin County
Notes to the Five-Year Forecast
General Fund Only

Introduction to the Five-Year Forecast

A forecast is a snapshot of today. Based on historical trends, what we know and future assumptions. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. Various events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), new state mandates, tax levies, property reappraisals and updates, salary increases, health insurance increases, enrollment variances, or changes to property valuations due to businesses moving in or out of the district.

As noted below the current state budget approved in HB96 changed the forecast based on what the state of Ohio and the Ohio Department of Workforce and Education will require, however the Board of Education will continue to plan over a five-year period. Our district leadership believes that the five-year forecast is a crucial management tool. A five-year planning horizon enables district management teams to examine future years' projections and identify when challenges will arise. This helps district management to be proactive in meeting those challenges.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions of the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are fundamental to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Since the preparation of a meaningful five-year forecast is as much an art as it is a science and entails many intricacies, it is recommended that you contact the Treasurer/Chief Fiscal Officer of the school district with any questions you may have. The Treasurer/CFO submits the forecast, but the Board of Education is recognized as the official owner of the forecast.

Here are three essential purposes or objectives of the five-year forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district.
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate".
- (3) To provide a method for the Ohio Department of Education and Workforce, and the Auditor of State to identify school districts with potential financial problems.

Ohio HB96 was passed in June 2025 which amended O.R.C. 5705.391 and O.A.C. 3301-92.04 requiring a Board of Education (BOE) to file their current years budgeted revenue and expenses, and three additional years. This is essentially a four (4) year forecast. Beginning in fiscal year 2026 (July 1 to June 30) the financial forecast must be filed by October 15, and the end of February. The filing deadlines will change in fiscal year 2027 to August 31, and end of February each fiscal year thereafter. While the legislative requirement is to file a four-year forecast, as noted above, we believe it is a prudent business practice to continue to develop a five-year forecast for planning purposes. The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The first year of the financial forecast is considered the current year budget and is used as the base for future years projections. Our forecast is updated to reflect the most current economic data available for the February 2026 filing.

Forecast Risks and Uncertainty:

This financial forecast has risks and uncertainty due to economic changes, new property tax laws signed by Governor DeWine on December 19, 2025, and also due to state legislative changes that will occur in the spring of 2027 and 2029 due to deliberation of the two (2) state biennium budgets for FY28-29 and FY30-31, all of which affect this forecast.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast. The items below give a short description of the current issues and how they may affect our forecast in the long term:

- 1) On December 19, 2025, Governor DeWine signed into law several pieces of legislation that are the most sweeping changes to Ohio property tax law since 1976 when HB920 was passed. The legislation approved are: HB129, HB186, HB309 and HB335. These laws become effective March 19, 2026, which is after the February filing deadline for this forecast. Of particular concern is HB186 which implements new property tax caps retroactively for property reappraisal and triennial updates that occurred in tax year 2023, 2024 and 2025. Due to the complexity of these calculations, the Ohio Department of Taxation (ODT) has been charged with calculating the effects of this legislation and notifying Ohio's 88 county auditors as to the impact on property tax bills and subsequent tax settlements to local governments. The ODT has until April 20, 2026 to calculate any tax reductions that impact school districts.

A brief summary of the impact of each piece of legislation is noted below with specific anticipated impacts to this forecast noted in Estimated Real Estate Tax Line 1.01 section of these assumptions below:

- HB129 implements new requirements for and restores fixed sum levies. It will also include fixed sum levy millage in the 20-mill floor calculation beginning in the next reappraisal or triennial update cycle of any county that contains district territory, but no later than Tax Year 2028 collect in calendar 2029. For some districts this will result in a loss due to a change in the 20-mill floor. Dublin CSD is not going to be affected by this legislation as we are not at the 20-mill floor and all our levies are impacted by HB920.
- HB186 establishes Inflation Cap Credits, if applicable, following reappraisals and triennial updates for school district property taxes, preventing increases beyond the Gross Domestic Product Deflation Factor (GDP DF). HB186 also includes Temporary Tax Credits (clawback) provision that takes back tax revenue that has already been collected by school districts beginning with reappraisals and triennial updates that occurred before the effective date of the law retroactive back to tax year 2023, 2024 and 2025. These are funds that have already been realized and have been spent and/or included in future educational planning. While skyrocketing home values resulted in the need for property tax reform that limits tax growth for taxpayers, the retroactive clawback of taxes already paid is very detrimental to districts at the 20-mill floor. Dublin CSD is not going to be affected by this legislation on our Tax Year 2023 reappraisal and will project increases in values lower than anticipated GDP DF in future reappraisal/triennial updates.
- HB309 allows County Budget Commissions (CBC's) to reduce any voter-approved levy (except debt) to bring taxes levied within levels the CBC finds reasonable and prudent to avoid unnecessary collections. This law gives locally elected CBC officials the power to override voter-approved levies and local school board fiscal decisions. The impact of this new law is indeterminable and can be administered inconsistently in 88 counties across Ohio.
- HB335 limits revenue growth from inside millage due to valuation reappraisals or triennial updates to no more than the Gross Domestic Product Deflation Factor (GDP DF). Our district plans to project at or below anticipated GDP DF to avoid inflation cap credits on inside millage collections.

We have estimated revenues and expenses based on the limited data available and understanding of this legislation. As additional authoritative data concerning HB186 is made available from the Ohio Department of Taxation, changes may need to be made to the forecast but we do not anticipate that at this time.

- 2) Property tax collections are the largest single revenue source for the school system and a significant risk to the forecast. We have projected growth in appraised values every three (3) years that will align with the new HB186 Gross Domestic Product Deflation Factor (GDP DF) and new construction growth. The effects of HB186 will be to limit property tax growth following reappraisals and updates. Total local revenues, predominately local taxes, equating to 85% of the district's resources.
- 3) Union County experienced a reappraisal update for all property values in the 2025 tax year to be collected in FY26. The 2025 update increased assessed values by \$177.9 million, or 3.3%. Overall values rose \$368.7 million or 6.68%, including reappraisal and new construction for all property classes. A full reappraisal will occur in the tax year 2028 for collection in FY29. We anticipate future reappraisal and/or update values to be more in line with historical trends and below Gross Domestic Product Deflation Factor.

Franklin and Delaware Counties experienced full reappraisals for all property values in the 2023 tax year to be collected in FY24. The 2023 reappraisals increased assessed values by \$854.7 million, or 26.32%. Overall values rose \$1.13 billion or 26.87%, including reappraisal and new construction for all property classes. Reappraisal updates will occur in the tax year 2026 for collection in FY27. Again, we anticipate future reappraisal and/or update values to be more in line with historical trends. We anticipate future reappraisal and/or update values to be more in line with historical trends and below Gross Domestic Product Deflation Factor.

- 4) The state budget represented 15% of district revenues, which means it is a significant risk to the revenue. The future risk comes in FY28 and beyond if the state economy stalls due to a possible recession and the Fair School Funding Plan is not continued and funded in the next state biennium budget. In this forecast, there are two unknown future State Biennium Budgets covering FY28-29 and FY30-31. Future uncertainty in the state foundation funding formula and the state's economy makes this area an elevated risk to district funding long-range through FY30. We have projected our state funding in FY26 based on recent formula calculations and use of the Ohio Department of Education and Workforce (ODEW) funding simulator for FY27 projections. This forecast reflects state revenue to align with the FY27 funding levels through FY30, which we feel is conservative and should be close to what the state approves for the next two biennium budgets. We will adjust the forecast in future years as we have data to make an informed decision.
- 5) HB96, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY26 and FY27. FY26 reflects 83.33% of the implementation cost at year five of a six-year phase-in plan, which increases by 16.66% each year. FY27 will result in 100% funding of (FSFP). HB96 did not increase the base cost inputs (no increase from the state on formula funding) while allowing local capacity inputs to increase. This causes more districts to appear to have greater local ability to fund their schools thus reducing the amount of State Aid they receive. We have used the most recent FY27 simulations published by the Department of Education and Workforce for our forecasted revenues in FY27-FY30.
- 6) HB96, the current state biennium budget also enacted a new provision called "Piggyback Property Tax Exemptions". This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner occupied 2.5% tax credit. Current Homestead and 2.5% owner occupied credits are reimbursed to the district from the state of Ohio. These "Piggyback Property Tax Exemptions" would NOT be reimbursed. Our county commissioners did not vote to approve further Piggyback Property Tax Exemptions for tax year 2025. HB96 would allow this to occur every year and if they were to be approved in our three (3) counties it could result in reduced property tax collections for the school district of roughly

\$3.2 million from current operating levies. This new law creates a potential risk to our local tax collections every year. County commissioners have until December 2026 to implement this tax credit for tax year 2026. We will adjust the forecast in the future accordingly.

- 7) The Ohio Department of Taxation on January 15, 2026 announced an updated state property tax reappraisal and triennial update schedule. Sixteen counties will have their reappraisal moved back by one year in accordance with the new schedule. Franklin and Delaware Counties will be impacted. This will move the Tax Year 2029 reappraisals to Tax Year 2030 for collection in Calendar year 2031. This move is estimated to cost our district \$1.78 million in taxes for calendar year 2030.

Labor relations in our district have been amicable, with all parties working for the best interest of students and realizing the resource challenges we face. We believe that as we move forward, our positive working relationship will continue and will only grow stronger.

The significant lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should assist the reader in reviewing the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information, please contact Brian Kern, Treasurer/CFO, at 614.764.5913.

General Fund Revenue, Expenditures, and Ending Cash Balance Actual FY23-25 and Estimated FY26-30
The graph captures in one snapshot the operating scenario facing the District over the next few years.

Revenue Assumptions

Operating Revenue Sources General Fund FY26

Real Estate Value Assumptions – Line #1.010

Our district has values in Delaware, Franklin and Union Counties. Property Values are established annually by the County Auditor based on new construction, demolitions, BOR/BTA activity, and complete reappraisal or updated values. New HB186 allows new construction growth in property taxes irrespective of Gross Domestic Product Deflation Factor limits.

Union County experienced a reappraisal update for all property values in the 2025 tax year to be collected in FY26. The 2025 update increased assessed values by \$177.9 million, or 3.3%. Overall values rose \$368.7 million or 6.68%, including reappraisal and new construction for all property classes. A full reappraisal will occur in the tax year 2028 for collection in FY29. We anticipate future reappraisal and/or update values to be more in line with historical trends and below Gross Domestic Product Deflation Factor.

Franklin and Delaware Counties experienced full reappraisals or for all property values in the 2023 tax year to be collected in FY24. The 2023 reappraisals increased assessed values by \$854.7 million, or 26.32%. Overall values rose \$1.13 billion or 26.87%, including reappraisal and new construction for all property classes. Reappraisal updates will occur in the tax year 2026 for collection in FY27. Again, we anticipate future reappraisal and/or update values to be more in line with historical trends. We anticipate future reappraisal and/or update values to be more in line with historical trends and below Gross Domestic Product Deflation Factor.

We have been conservative with any future value increases for reappraisal or updates due to uncertainty over pending legislative as noted in the Forecast Risks and Uncertainty above.

Tax Rate Assumptions

The county auditor sets tax rates for each levy voted on to provide tax revenues for the school district. Ohio law provides for “reduction factors” of all voted property tax levies to adjust the millage rates lower for the levy to not increase from inflation of property values for the taxes received by a district to that of the actual amount of the levy at the time of the election. The reduction factors are applied separately to Residential/Agriculture (Class I) and Commercial/Industrial (Class II), resulting in different effective millage rates. The district-voted rate for all levies is 93.4 mills while the Class I effective millage rate is 41.49 mills and the Class II effective millage rate is 54.3 mills. The Ohio law has a provision that the reduction factors cannot lower the total millage rate for each class less than 20 mills, which includes both the voted and the non-voted millage rates; this is called the “20-Mill Floor”. Currently, our district is not on the floor for either Class I or Class II.

HB129 is a new law that restores fixed sum levies and now includes them in the 20-mill floor calculation. HB129 will be in effect following the tax year 2026 reappraisal/triennial update. Our district does not have fixed sum, or emergency, levies, therefore, this will not impact our forecast.

Estimated Real Estate Tax Collection Assumptions & New Tax Laws

HB96 enacted a new provision called “Piggyback Property Tax Exemptions”. This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner occupied 2.5% tax credit. Our county commissioners did not vote to approve further Piggyback Property Tax Exemptions for tax year 2025. County commissioners have until December 2026 to implement this tax credit for tax year 2026. We will adjust the forecast in the future accordingly.

HB186 is a new law that establishes an Inflation Cap Credit for school district property taxes, preventing increases beyond the Gross Domestic Product Deflation Factor (GDP DF) in reappraisal and triennial updates. Our district is not at the 20-mill floor and all operating levies are affected by HB920 reduction factors which inflation proofs these current expense levies. We do not anticipate any clawback of previously paid taxes and will project increases in future reappraisals and triennial updates at or below Gross Domestic Product Deflation Factor.

HB335 is a new law that limits revenue growth from inside millage due to valuation reappraisals or triennial updates to the Gross Domestic Product Deflation Factor (GDP DF) for future real estate tax revenue growth. We have not forecasted any increases for future reappraisals/triennial updates above anticipated GDP DF, thus no adverse impact to the forecasted property tax revenue is anticipated from this new law.

We have been conservative with any future value increases for reappraisal or updates due to implementation uncertainty over the new legislative changes as noted in the Forecast Risks and Uncertainty above.

ESTIMATED REAL ESTATE TAX - Line #1.010

Source	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Est. Real Estate Taxes	\$221,519,241	\$226,104,482	\$228,926,193	\$230,699,967	\$232,070,253
Piggyback Exemption HB96	0	0	0	0	0
Other Tax Adjustments	0	0	0	0	0

Total Line #1.010 Real Estate Taxes	<u>\$236,010,313</u>	<u>\$240,740,465</u>	<u>\$243,708,536</u>	<u>\$245,630,133</u>	<u>\$247,149,721</u>

Property tax levies are estimated to be collected at 98.5% of the annual amount. This allows a 1.5% delinquency factor. In general, 52.72% of the Res/Ag and Comm/Ind property taxes are expected to be collected in the February tax settlement and 47.28% in the August tax settlement. Collections in FY23 were up \$407,230 over FY22, primarily due to \$9.4 million in Board of Revision and Board of Tax Appeals settlements made directly with the district. Unfortunately, HB126 passed at the end of FY22 and it limits all districts in Ohio from contesting valuation adjustments which are sought by businesses, often without adequate supporting documentation showing a fair value. This legislation is severely one sided and will likely end in other commercial taxpayers paying higher taxes when the values for some are lowered unjustly. This is an example of legislation that has been passed that significantly impacts our local revenues. The \$9.4 million is equivalent to 2.2 mill levy.

New Operating Levy and Bond Issue

This forecast includes the first partial year collection of the new 7.9 mill operating levy in FY24 and a full year collection beginning in FY25. The district also passed a \$145 million bond issue. The revenue for bond issue levy will be collected in separate funds and are not included in the general fund forecast. This levy will help address some facility repair and maintenance costs without impacting the General Fund. The net result is an improved five-year forecast through FY30.

New Tax Levies – Line #13.030 - No new levies are modeled in this forecast.

Estimated Public Utility Personal Property (PUPP) Taxes – Line #1.020

Public Utility Personal Property (PUPP) values change annually as the values are not included in the reappraisal or update years, which make them very difficult to forecast. PUPP values decreased by \$11.87 million or 8.31% in Tax Year 2025. We expect our values to continue to grow by \$5.5 million FY27-FY28 and \$1 million FY29-FY30.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>

State Foundation Revenue Estimates – Lines #1.035, 1.040 & 1.045
Current State Funding Model per HB96 through June 30, 2027

A) Unrestricted State Foundation Revenue– Line #1.035

HB96, the current state budget, continued the Fair School Funding Plan for FY26 and FY27, which funds students where they are educated rather than where they live. We have projected FY26 funding based on the most current foundation settlement and funding factors.

Our district is currently a formula district in FY26 and is expected to continue to be on the formula in FY27-FY30 if our enrollment continues to grow and the Fair School Funding Plan (FSFP) is continued past FY27.

A detailed overview of how foundation funding is calculated including all of the HB96 changes on the Ohio Department of Education and Workforce is now available. Please visit the Ohio Department of Education and Workforce at: <https://education.ohio.gov/Topics/Finance-and-Funding/Overview-of-School-Funding>.

State Funding FY26-FY27

The Fair School Funding Plan was presented as a six (6) year phase-in plan, the state legislature approved the final two (2) years of the funding plan in HB96 phasing in funding at 83.33% in FY26 and then 100% in FY27. However, the legislature did not increase the funding base inputs from FY25. In other words, the legislature did not increase funding in the foundation formula. They did increase transportation funding's state share percentage to 45.83% in FY26, and 50% in FY27, which could increase funding, and; they added three (3) Supplemental Payments outside the formula: a Base Funding Supplement, Enrollment Growth Supplement and Performance Supplement.

The Base Funding Supplement will be paid to all districts. The funding supplement per pupil is \$27 in FY26 and \$40 in FY27.

The Enrollment Growth Supplement is paid to eligible districts based on the current FY26 enrolled ADM multiplied by \$225 per student, and in FY27 based on FY27 enrolled ADM multiplied by \$250. To be eligible enrolled ADM growth between FY22 and FY25 must equal or exceed 5% growth, and FY27 enrolled ADM growth between FY23 and FY26 must equal or exceed 3%. According to the ODEW FY27 funding simulator the district may qualify for this payment in FY27 which we have projected at \$4.14 million. This is a payment that is indeterminable every year so we have removed this amount from projected state aid FY28 through FY30.

The Performance Supplement was included in HB96. The eligibility for the supplement payment uses data from the state report card for the 2024-2025 school year for FY26 and 2025-2026 school year for FY27; the payment will be a separate payment of \$13 per pupil in FY26 and FY27. We anticipate receiving \$968,704 in FY26 and FY27 as we qualify for this funding.

The funding formula eliminated the Supplemental Targeted Assistance guarantee beginning in FY26, but still includes two (2) primary guarantees: 1) Temporary Transition Aid, and 2) Formula Transition Supplement. The two (2) guarantees in both temporary and permanent law ensure that no district will get fewer funds in FY26 and FY27 than they received in FY21. We are currently a formula district in FY26. We may become a guarantee district in FY27 based on the Union County reappraisal which will increase our local capacity.

Future State Budget Projections beyond FY27

Our funding status for FY28-FY30 will depend on unknown two (2) new state budgets. There is no guarantee that the current Fair School Funding Plan will be continued in future biennial budget processes; therefore, our state funding estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is held constant in the forecast for FY28 through FY30.

Casino Revenue

On November 3, 2009, Ohio voters passed the Ohio casino ballot issue. This issue allowed four (4) casinos to open in Cleveland, Toledo, Columbus, and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% of Gross Casino Revenue that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year, beginning for the first time on January 31, 2013.

In FY25, the funding totaled \$114.30 million or \$65.70 per pupil. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 1.5% annual growth rate for the remainder of the forecast.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>

B) Restricted State Revenues – Line #1.040

HB96 has continued Disadvantaged Pupil Impact Aid, Career Technical, Gifted, English Learners (ESL), and Student Wellness funding. We have estimated revenues for these new restricted funding lines using the most current funding factors available. We were notified in January that the state of Ohio overspent their Science of Reading Appropriation and has reduced our funding by \$96,716 to recover funds previously paid.

For fiscal years 2026 and 2027, HB96 modifies how DPIA is calculated by factoring in both directly certified and economically disadvantaged students. The new formula modified the weight given to these student groups over the biennium. The new DPIA formula modified the weight given to these student groups over the biennium which has resulted in calculated DPIA state funding in FY26 being \$86.6 million less than in FY25.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
DPIA	\$144,994	\$162,948	\$160,458	\$160,458	\$160,458

Total State Foundation Revenue	<u>\$28,350,643</u>	<u>\$32,655,724</u>	<u>\$28,832,531</u>	<u>\$28,856,568</u>	<u>\$28,881,089</u>

State Reimbursement of Property Tax Credits – Line #1.050

Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given to owner-occupied residences. Credits equal 12.5% of the gross property taxes charged to residential taxpayers on levies passed before September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013. And Homestead Exemptions are credits paid to the district from the state of Ohio for qualified elderly and disabled.

Summary of State Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Rollback and Homestead Line #1.050	<u>\$18,059,415</u>	<u>\$18,520,511</u>	<u>\$18,798,936</u>	<u>\$18,943,798</u>	<u>\$19,042,463</u>

Other Local Revenues – Line #1.060

All other local revenue encompasses any revenue that does not fit the above lines. The primary sources of revenue in this area have been, interest on investments, tuition for court-placed students, student fees, Payment In Lieu of Taxes, and general rental fees. We were notified by ODEW that Threshold reimbursements in FY26, and future years, are likely to be reduced by 30% from FY25 levels due to fixed state appropriations.

Interest income is based on the district's cash balances. While interest income in FY26 should remain steady due to laddered investment strategies, expected Federal Reserve rate cuts will begin to have an impact on earnings in FY27 and future years. We will continue to monitor the investments for the district.

We have elected to show revenue sharing agreements such as the Bridge Street Agreement with the City of Dublin and Payment In Lieu of Taxes (PILOT) payments in other income separate from property taxes on line 1.010. These are the largest other revenue sources in the General fund other than rentals, interest income and other miscellaneous revenues.

Rentals are expected to return to pre-pandemic levels over time. In FY25 we received approximately \$438,000 in Medicaid reimbursements. In FY26 we have already received \$827,500 in Medicaid reimbursements but we anticipate these reimbursements to be reduced in future years.

All other revenues are expected to continue at historical trends.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
City of Dublin Bridge St. Agreement	\$1,500,000	\$1,500,000	\$1,500,000	\$1,500,000	\$1,500,000

Transfers In / Return of Advances – Lines #2.040 & #2.050

These are non-operating revenues which are the repayment of short-term loans to other funds over the previous fiscal year and reimbursements for expenses received for a prior fiscal year in the current fiscal year. The advances in prior fiscal years are planned to be repaid in the following year as noted in the table below.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Transfers In - Line #2.040	\$0	\$0	\$0	\$0	\$0
Advance Returns - Line #2.050	<u>467,210</u>	<u>575,000</u>	<u>575,000</u>	<u>575,000</u>	<u>575,000</u>
Total Transfer & Advances In	<u>\$467,210</u>	<u>\$575,000</u>	<u>\$575,000</u>	<u>\$575,000</u>	<u>\$575,000</u>

All Other Financial Sources – Line #2.060

This funding source is typically a refund of prior year expenditures that is very unpredictable. These revenues are inconsistent year to year, therefore we will not project that occurring in the remainder of the forecast.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Refund of prior years expenditures	<u>\$80,000</u>	<u>\$80,000</u>	<u>\$80,000</u>	<u>\$80,000</u>	<u>\$80,000</u>

Expenditures Assumptions

The district's leadership team is always looking at ways to improve the education of the students, whether it be with changes in staffing, curriculum, or new technology needs. As the administration of the district reviews expenditures, the education of the students is always the main focus for resource utilization.

All Operating Expense Categories - General Fund FY26

Wages – Line #3.010

The model reflects pay increases approved by the Board of Education for certificated, administrative and classified staff for FY24 through FY27 of 3.0% for both years including step increases. Estimated wage increases based on historical trend and step increases are included for FY28-FY30. Our model has been updated with the most recent staffing plan from HR and Operations. We have recoded the ESSER fund 507 wage and fringe benefit expenses to the General Fund through FY24. **We have included new staffing to open a new elementary building in FY26. We have also updated our staffing levels per the Responsible Staffing Plan and included payments for the Science of Reading wages.**

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Base Wages	\$174,044,602	\$184,353,710	\$193,641,511	\$201,264,490	\$207,207,888

Total Wages Line #3.010	<u>\$193,961,565</u>	<u>\$202,892,134</u>	<u>\$210,592,956</u>	<u>\$216,614,877</u>	<u>\$222,845,408</u>

Fringe Benefits Estimates

This area of the forecast captures all costs associated with benefits and retirement costs.

A) STRS/SERS will increase as Wages Increase

As the law requires, the BOE pays 14% of all employee wages to STRS or SERS. The district is also required to pay SERS Surcharge, an additional employer charge based on the salaries of lower-paid members. It is exclusively used to fund health care.

B) Insurance

In FY22 and FY23, the district received an 8.0% increase in medical benefits. We expect to see rate increases fall to 4% for FY24, then 4.8% in FY25 because of a 0% increase in medical premiums for the plan year 2024. We are estimating an 8.6% increase in FY26 and then 9% increases for FY27-30. Our estimates are based on our current employee census and claims data. This could increase at a much higher rate should claims increase dramatically. However, we are always looking for ways to reduce these expenses.

C) Workers Compensation & Unemployment Compensation

Workers Compensation is expected to be about 0.29% of wages FY26-FY30. Unemployment is expected to remain at a very low level FY26-FY30. The district is a direct reimbursement employer, which means unemployment costs are only incurred and due if we have employees who are eligible and draw unemployment.

D) Medicare

Medicare will continue to increase at the rate of increases in wages and as new employees are hired. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

Summary of Fringe Benefits – Line #3.020

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
A) STRS/SERS	\$29,312,772	\$30,690,885	\$31,826,076	\$32,761,382	\$33,705,573

Purchased Services – Line #3.030

College Credit Plus, excess fees, and other tuition costs will continue to draw funds away from the district, which will continue in this area and has been adjusted based on historical trends. In FY26 there will be a new electric Capacity Charge that will be assessed on all electric bills to help expand Ohio's electric generating ability. This charge will begin June 2025 and end June 2026. It is anticipated it will increase electric costs by 20% annually for just that twelve (12) month period.

One of the largest expenses in this area is contracted payment for substitute teachers with the ESC-COG of Central Ohio which reduces district costs to acquire substitutes, and other contract services purchased for special education and other areas of special needs.

We have estimated utilities to rise due to rate hikes. **In FY26 we have added utilities for a new elementary.** Additional all ESSER II and III funds have been spent as of September 2024. Expenses that were paid with these funds have been moved back into the general fund.

<u>Source</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>

Supplies and Materials – Line #3.040

For FY26-FY30, an overall inflation of between 1.0% and 3.0% is being estimated for this category of expenses which are characterized by textbooks, copy paper, maintenance supplies and fuel. Graded Course of Study adoptions have been planned for the forecast period to keep curriculum materials current district wide. **In FY26 we have added supply and material costs for a new elementary** Additionally, all ESSER II and III funds have been spent as of September 2024. Expenses that were paid with these funds have been moved back into the general fund. Chromebook purchases were moved back into the general fund beginning in FY25.

Equipment – Line #3.050

With the passage of the new permanent improvement levy and \$145 million bond issue approved November 7, 2023, we are able to slow the growth of some capital and maintenance costs from the general fund beginning in FY25. This will help us address needed capital projects throughout the district without impacting the general fund. Bus purchases will be moved to the permanent improvement fund due to passage of the new levy. We continue to use funds from the City of Dublin agreement to purchase and update technology in the district. In FY26 we anticipate an increase in Technology and Capital Outlay. Additionally, all ESSER II and III funds have been spent as of September 2024. Expenses that were paid with these funds have been moved back into the general fund.

Other Expenses – Line #4.300

The category of Other Expenses consists primarily of County Auditor and Treasurer Fees for collection of property taxes and advertising for delinquent taxes. Other expenses are liability insurance and dues and fees.

County ESC deductions for fees provided to the District and membership for participation in SB140 City County Agreement.

Transfers Out/Advances Out – Line #5.010

This account group covers fund to fund transfers and end of year short term loans from the General Fund to other funds until they have received reimbursements to repay the General Fund. These amounts are limited in impact to the General Fund as the amounts are repaid as soon as dollars are received in the debtor fund. We have included a transfer from General Fund (001) of \$380,000 to the Sinking Fund (002) to pay our debt for the HB264 project, \$60,000 for summer school and \$100,050 for high school athletic funds. In FY23, we began transferring an additional \$75,000 to middle school athletic funds. We estimate advances to be \$575,000 for each year to cover year-end negative balances in our federal grant funds. Beginning in FY27 there will not be a \$380,000 transfer to Sinking Fund (002) as the Qualified School Construction Bond will be paid off in December of 2025.

Encumbrances –Line #8.010

These are outstanding purchase orders that have not been approved for payment as the goods were not received in the fiscal year in which they were ordered.

	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Estimated Encumbrances	<u>\$5,000,000</u>	<u>\$5,000,000</u>	<u>\$5,000,000</u>	<u>\$5,000,000</u>	<u>\$5,000,000</u>

Operating Expenditures Actual FY23 through FY25 and Estimated FY26-FY30

As the graph below indicates, we have been diligent at reducing costs in reaction to lower and flat state revenues in the past. We are maintaining control over our expenses while balancing student academic needs to enable them to excel and do well on state performance standards.

Ending Unencumbered Cash Balance – Line #15.010

This amount must not go below \$0, or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year contract knowingly signed that results in a negative unencumbered cash balance violate 5705.412, ORC, punishable by the personal liability of \$10,000. It is recommended that a district maintains a minimum of thirty (30) day cash balance, which is about \$25.7 million for our district.

	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Ending Cash Balance Line #15.010	<u>\$104,010,197</u>	<u>\$93,388,493</u>	<u>\$66,770,911</u>	<u>\$28,196,329</u>	<u>(\$23,520,060)</u>

True Cash Days Ending Balance

Another way to look at ending cash is to state it in ‘True Cash Days’. In other words, how many days could the district operate at year-end if no additional revenues were received? This is the Current Years Ending Cash Balance divided by (Current Years Expenditures/365 days) = the number of days the district could operate without additional resources or a severe resource interruption. The government finance officers association recommends that no less than two (2) months or 60 days of cash is on hand at year-end but could be more depending on each district's complexity and risk factors for revenue collection. This is calculated, including transfers, as this is a predictable funding source for other funds such as capital, athletics, and severance reserves.

As the administration plans for the future, they will need to make sure that the district is able to obtain positive cash balance throughout the forecast. They will need to review the expenditures based on the current revenues in order to obtain this.

As you read through the notes and review the forecast, remember that the forecast is based on the best information available to us when the forecast is prepared.
