6100 Local Wellness Policy

The MSD of Wabash County promotes healthy schools by supporting wellness, good nutrition, and physical activity as part of the total learning environment. The Superintendent shall develop Implementation Guidelines for this policy in accordance with applicable statutes and regulations.

Wellness:

As required by law, the Board of Education establishes the following wellness policy for the Metropolitan School District of Wabash County.

The Board recognizes that good nutrition and regular physical activity affect the health and well being of the Corporation's students. Furthermore, research suggests that there is a positive correlation between a student's health and well being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. Nutrition Education

1. Nutrition education shall be included in the Health curriculum and integrated into other subject areas of the curriculum so that instruction is sequential and standards- based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
2. Nutrition education shall include opportunities for appropriate student projects related to nutrition, involving, when possible, school staff, families, and community agencies and organizations.
3. Nutrition education posters, such as My Plate, will be displayed in the cafeteria.
4. The Corporation shall provide information to parents that is designed to encourage them to reinforce at home nutrition education being taught at school.
5. It will be the goal of MSD that students be offered healthy taste testing opportunities during the school day to familiarize students with new foods.
6. It will be the goal of MSD to promote student health across various curricular areas.

B. Physical Education

1. The sequential, comprehensive physical education curriculum shall provide students with opportunities to learn, practice and be assessed on developmentally appropriate knowledge, attitudes, and skills necessary to engage in lifelong, health-enhancing physical activity.
2. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.
3. Grades K-6 shall participate in physical education class at a minimum of once per week. Grades 7-8 shall participate in physical education class 1 semester per year and participate in health class one semester per year. Students in grades 9-12 shall participate in 2 semesters of physical education, one semester of health, and be offered elective PE.
4. All physical education teachers are licensed PE teachers and will be offered opportunities for continued training.
5. Planned instruction in physical education shall teach cooperation, fair play, and responsible participation.
6. Planned instruction in physical education shall meet the needs of all students, including those who are not athletically gifted.
7. Planned instruction in physical education shall be presented in an environment free of embarrassment, humiliation, shaming, taunting, or harassment of any kind.
8. Students shall not use regularly scheduled physical education class time to make up work in other subjects.

C. Physical Activity

2. The school shall encourage families and community organizations to institute programs that support physical activity of all sorts.
3. All students are encouraged to participate in extracurricular activities and intramural programs that emphasize the physical activity.
4. In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day, intramurals and clubs before and after school, and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special healthcare needs.
5. It will be the goal of MSD that the school shall discourage staff from withholding physical activity, such as recess, as a means of discipline.
6. It will be the goal of MSD that the staff shall be encouraged to incorporate physical activity breaks during class.

D. School-Based Activities

1. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs, group meetings, or events.
2. The school shall provide attractive, clean environments in which the students eat.
3. The school shall allow students a minimum of 20 minutes to eat lunch daily.
4. The school shall make available free drinking water during meals as well as throughout the school day.
5. Students, parents, and other community members shall have access to, and be encouraged to use the school's outdoor physical activity facilities when not used for scheduled student activities.
6. The school staff shall be encouraged to participate in a wellness program.
7. Schools in the system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
8. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about communicable diseases, allergies and other restrictions on some students' diets.
9. It will be the goal of MSD that the staff will integrate wellness activities across the school setting, not just in the cafeteria.

The MSD Wabash County Board of School Trustees authorizes using video cameras, some with audio capabilities, on school buses and its premises to monitor and maintain a safe educational environment for students and employees. The video cameras may be used on its premises and buses for transportation to and from school, field trips, curricular events, and extra-curricular events.

Student and Staff Records

Video recordings may become a part of a student's educational record under FERPA guidelines or a staff member's personnel record under Access to Public Records Act guidelines. The district shall comply with all applicable state and federal record maintenance and retention laws.

Review of Video by School District Administrators

Reviewing the video is limited to individuals with a legitimate educational purpose. In most instances, those individuals with a legitimate educational purpose may include the Superintendent, building principal, transportation director, bus driver, technology director, or special education staffing team. Video footage recorded during a school-sponsored trip, such as an athletic event, may also be accessible to the sponsor or coach of the activity. Students or staff violating Board policies, administrative regulations, building rules, or law shall be subject to appropriate disciplinary action. Others may be referred to law enforcement agencies.

The Superintendent will notify staff and students through staff and student handbooks that video surveillance with audio may occur on district property.

The MSD Wabash County Board of School Trustees has authorized the use of video cameras, some with audio, on its premises and on school district buses. The video cameras will help promote and maintain a safe environment for the students and employees by monitoring student behavior. Students, staff, and parents are notified that the video footage's content may be used in student or staff disciplinary proceedings. The content of the video footage constitutes a confidential record and will be retained, filed, and maintained with other records if necessary for use in a disciplinary proceeding or for use in other matters as determined necessary by the administration.

Absent the consent of the parents or guardians of all other students depicted in the video footage, the school district **may not**, under federal regulation (FERPA), review with parents the video footage maintained by the school district.
