HHS Principal Report

(20260121)

1.0 AI Inservice (Friday, January 2, 2026)

1.1 Conducted by William Grube, founder of Gruvy Education
1.2 4-hour Inservice
1.3 **Staff Feedback Form Stats: 24** total responses.

- The average confidence level in using AI effectively in an educational setting increased from about **4.8** out of 10 (before training) to **7.3** out of 10 (after training).
- Out of **24** respondents, **24** indicated they would recommend the training to other educators.
- **96%** of teachers now expect to save at least 1 hour each week with AI, and **33%** expect to save 3 hours or more. This indicates saving a minimum of **43 hours per week**, school wide.
- After the training, **100%** of staff plan to use AI weekly. **50%** plan to use it three or more times each week.
- **13** total testimonials were given. Here are a few of my favorites:

  - "This training was very easy to follow and gave me tons of ideas on how to make my teaching more enjoyable for the students."
  - "I thought I knew a reasonable amount about AI and ChatGPT, but this training showed me how much MORE I can do with the tools. The prompt vault is great and the additional tools and applications I was introduced to will make doing more, more fun! I highly recommend the training."
  - "First of all, this is a fantastic overview of the tools teachers can use. Secondly, how to write good prompts was probably the most effective way to get excellent use of not only ChatGPT but also the other materials as well."
  - "William did a great job packing this training with useful information, as well as providing resources and support outside of the training window. This training is definitely worth more than the 4 hours we spent with it!"

2.0 Registration for SY2026-2027

2.1 Pre-registration and registration will take place over the next two weeks. Minimal Changes to offerings.
