8TH - 12TH

RISING
3RD - 8TH
GRADERS

8:30 AM - 2:30 PM

MARINE MAVERICKS

TRANSPORTATION
PROVIDED

Marine Mavericks is a week-long marine science camp held in collaboration with Fernbank Science Center and Georgia Aquarium, Inc. Students will explore various aspects of marine science, including deep ocean exploration, biodiversity, climate resilience, and sustainability practices through experiential learning that takes place at Fernbank Science Center and the Georgia Aquarium

JUNE

16TH - 18TH

RISING
10TH - 12TH
GRADERS

8:30 AM - 2:30 PM

S.T.A.R.S.

Students Through Action and Research in Science (STARS) is a summer program designed to develop the next generation of science leaders in DeKalb County School District high schools. Selected participants engage with real-world science professionals, explore a wide range of STEM careers, and build essential skills in leadership, collaboration, and critical thinking. Through hands-on experiences and authentic learning opportunities, students gain a clearer understanding of the pathways, skills, and education needed to succeed in science-related fields.

JUNE

22ND - 28TH

RISING
3RD - 5TH
GRADERS

8:30 AM - 2:30 PM

OLOGIST DISCOVERY CAMP

Discover the Science in You!

What is an ologist? An ologist is a scientist who studies how the world works - like a biologist who studies living things, a chemist who studies matter, or a geologist who studies Earth. Campers explore different branches of science through hands-on experiments, investigations, and teamwork. They learn by doing, just like real scientists!

TRANSPORTATION
PROVIDED

*Camps are FREE and only open to DCSD students.

*Completing an application does not guarantee camp admission.
