YEAR 1	YEAR 2
Esthetics (600 Colorado State Clocked hours) For Colorado Barbering (1500 Colorado State Clocked Hours with an Internship at a Barbershop)	Nationally Accredited with NCEA (600 hours) Li anywhere in the United States

COURSE INFORMATION

ESTHETICS

Colorado State-Approved Esthetics Program
This comprehensive esthetics program consists of a minimum of 600 hours of instruction, covering essential core areas such as facials, skincare, hair removal, makeup artistry, business management, and sanitation. Students will gain a thorough understanding of state laws, professional ethics, and safe work practices, equipping them for the state board exam and subsequent licensure.

Licensure Requirements:

600 Hours of Training: Successful completion of the approved esthetics program. Receive an Hours of Completion certificate

State Board Exam: Pass both a written and practical exam administered by PSI Exams to demonstrate your knowledge and hands-on skills. Graduates will register and go to PSI to take the state exam.

Licensure: After successfully passing the exam and fulfilling all state requirements, students can apply for a Colorado Esthetician License

NCEA ESTHETICS

This program is designed to meet the highest national educational standards for esthetician licensing, requiring a total of 1200 hours of training. By aligning with the NCEA's Esthetician Job Tasks, we ensure that students receive a consistent and comprehensive education, comparable to that of estheticians trained in various states, including Idaho and California. This standardization enhances employability and demonstrates a solid understanding of industry requirements for estheticians entering the workforce.

Note on Licensing: This program emphasizes the importance of a unified licensing standard, rejecting a two-tiered licensing system. Graduates will possess a comprehensive understanding of esthetic practices, ensuring consumer protection and clarity regarding their qualifications. Students will leave the program ready to perform competently in all required tasks and confidently engage with clients.
