# Fairfield College Preparatory School

## MISSION STATEMENT

Fairfield College Preparatory School is a Jesuit, Catholic School of excellence forming young men of intellectual competence, who possess the conscience to make wise decisions, a compassion for others, and a commitment to justice in our global society.

## VISION STATEMENT

Fairfield College Preparatory School strives to be a reflective community of faith, in which students revere their relationship with God and with one another. We are committed to graduating transformational leaders who will respond to global and ecological challenges in an interconnected world marked by profound change.

## FAIRFIELD PREP PREPARES ALL OF ITS STUDENTS, UPON GRADUATION, TO BE:

### OPEN TO GROWTH

The Fairfield College Preparatory School graduate has begun to assume the responsibility for his own growth and existence. He has begun to take an active role in his own development although still in the formative stage.

### INTELLECTUALLY COMPETENT

Through the course of study at Fairfield College Preparatory School, the graduate begins to demonstrate and use those intellectual skills he has acquired. These serve as the foundation for more advanced learning and through them, he begins to see the need for intellectual integrity in the areas of religious truth and social justice.

### RELIGIOUS

By graduation the student has a firm foundation in the major doctrines and practices of the Catholic Church. He also has examined his own religious feelings and beliefs with a view to choosing a fundamental orientation toward God and establishing a relationship with a religious tradition and/or community. What is stated here, relative to the conscience and religious background of the individual, also applies to the non-Catholic student. The innate limitations in theological understanding are commensurate with the student's level of religious and human development.

### LOVING

By graduation the student is well on his way to establishing his own mature identity. He is at the point of abandoning an egocentrism in favor of an interest in others. He begins to take the risk of self-disclosure and to establish relationships with others which are more profound and which require him to accept the mystery of the individuality and uniqueness of another person. Nevertheless, the student's capacity for loving is not fully developed. He has not yet arrived at the confidence and freedom of a mature person.

### COMMITTED TO DOING JUSTICE

By graduation the student has achieved considerable knowledge of the many needs of local communities and those at-large. He is preparing for the time when he will assume membership in these communities as a responsible, concerned and involved citizen. The

student recognizes injustices that exist in the social order and has begun to acquire the skills and motivation necessary to make a commitment to doing justice.
