

Auburn electives

Auburn
Career Center **A**

+

Auburn Electives are courses offered to students (grades 7–10) that align with programs and pathways at Auburn Career Center. Auburn Electives provide students with hands-on, career-focused learning that can shape their academic and professional future.

Why these electives ARE important

Career Exploration: Auburn Electives are designed to give students exposure to Career and Technical Education (CTE) opportunities, helping them explore different career fields.

Career Connections: By aligning with real-world career paths, these electives connect classroom learning to practical skills that are directly relevant in various industries.

Local Partnerships: These courses are available through partnerships with local school districts, enhancing the reach and accessibility of CTE programs for students in the area.
