Citizens of the Irving Independent School District
and Board of Trustees
Irving Independent School District
2621 W. Airport Freeway
Irving, Texas 75062

Dear Citizens and Board Members:

The Annual Comprehensive Financial Report (ACFR) of Irving Independent School District (the District) for the fiscal year ended August 31, 2025, is submitted herewith. The District's Business Office has prepared this ACFR, assuming full responsibility for the accuracy and completeness of the information contained therein, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

We believe the data is presented in a manner to fairly represent the financial position and results of operations of the District, and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included. The ACFR for the year ended August 31, 2025, is prepared in accordance with generally accepted accounting principles (GAAP) and is in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Weaver and Tidwell, L.L.P. has issued an unmodified ("clean") opinion on the Irving Independent School District's financial statements for the year ended August 31, 2025. The independent auditor's report is located at the front of the Financial Section.

The Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

This report provides valuable information for management as well as other users of the financial statements. The ACFR will be distributed to the Texas Education Agency, financial rating services, and other interested parties. An electronic copy of the ACFR is available on the District's website www.irvingisd.net.

Profile of the District

Irving Independent School District is a political subdivision of the State of Texas located in Dallas County. The District, founded in 1909, is in Irving, the 4th largest city in Dallas County. It currently occupies 67.97 square miles and serves over 30,700 students. The District is one of 1,207 school districts and charter schools in the State of Texas. The District's mission is, "We empower today to excel tomorrow."

The District's Board of Trustees (the Board), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. Since members of the Board are elected by the public and have the authority to make decisions, significantly influence operations, appoint administrators and managers, and have the primary accountability for fiscal matters, the District is not included in any other governmental "reporting entity" as defined in GASB Statement No.14 and as amended by GASB Statement 39. Also, there are no component units for which the District or the Board are financially accountable.

The District provides a comprehensive curriculum of educational services appropriate for students enrolled in pre-kindergarten through Grade 12. Instructional offerings include a strong core curriculum in language arts, mathematics, science, social studies, performing arts, compensatory education, bilingual and limited English proficient education, gifted and talented education for grades 2-12, career and technological education, special education, athletics, and Junior Reserve Officers' Training Corps (JROTC) programs. The District's special programs include a regional school for the deaf, early childhood schools for three and four-year-old students who are limited English proficient and/or economically disadvantaged, an extensive elementary health/safety instruction, and an array of elective courses at the secondary level.

The Board of Trustees and District Administration employ financial management efforts to ensure the District maintains its sound fiscal condition. The latest bond rating by Standard and Poor's was AA+, the second highest bond rating available. Furthermore, no other District in Texas was awarded a higher bond rating. Finally, property values in the District and North Texas continue to increase.

The District measures, monitors, and reports the budget and financial condition to the Finance Committee on a monthly basis. In addition, budget development requires all stakeholders to align the needs of each department's goals and priorities with available resources. During the budget development process, departments summarize their major programs within the budget and measurable goals of the programs. The Superintendent's Cabinet assesses the budget needs and recommends a budget to the Board of Trustees.

Student enrollment is a major factor in the District's current and future financial plan. Enrollment for the 2023-2024 school year, enrollment was 31,485 students. During the 2024-2025 school year, enrollment has decreased to 30,767 students or a decline of 718 students.

The district's facilities include a baby university (tuition-based staff childcare), three early childhood schools (PK), eighteen elementary schools (K-5), eight middle schools (6-8), three high schools (9-12), a high school academy (9-12), a career preparatory center (9-12), and a reassignment center (9-12). All campuses are air-conditioned facilities complete with cafeterias, library/media centers and gymnasiums. In addition, the District owns and operates facilities, which include an administration building, an institute of Wellness and professional Learning (MAHI), a facilities service center, a transportation and logistics Center, a food and nutrition center, a career development center, and an athletic stadium. The age of the District's campuses range from 78 years (Bowie Middle School) to 1 year (Baby University).

The District provides students access to a variety of application-oriented computer labs, mobile multimedia stations, and an automated library circulation and research system. Campus libraries are designed to reflect the goal of being the center of learning by providing ample research materials and integrating all segments of learning in innovative ways. The District's librarians and classroom teachers work together so that information and lessons determined by curriculum needs include hands-on experience and reinforcement through library research and classroom assignments.

The Board is required to adopt a final budget not later than the close of the fiscal year. This annual budget serves as the foundation of the District's financial planning and control. The budget is prepared by fund and function for expenditures, and by fund and object for revenues. If any change in the approved budget is required, requests are presented to the Board for consideration.

Economic Condition and Outlook

Local Economy

The City of Irving, Texas, is conveniently located between Dallas and Fort Worth and just minutes away from the Dallas/Fort Worth (DFW) International Airport – one of the country's busiest airports. Irving's commitment to providing diverse, business-friendly, economic opportunities has made it the destination for the global headquarters for ten Fortune 500 and four Fortune 1000 companies and the site of more than 100 international companies currently operating throughout the city.

The state's strong economy combined with Irving's numerous economic strengths are the economic drivers to attract national and international companies and commercial and retail development. This has led to several high-profile projects in various stages of completion including Water Street, a mixed-use complex bringing more than 60,000 square feet of shops and restaurants and hundreds of apartments to a lakeside site in the Las Colinas Urban Center, and Toyota Music Factory, a state-of-the-art, destination venue that converts from a 2,500 - seat capacity intimate theater, to a 4,000 – seat capacity indoor theater.

Irving offers a vibrant urban community for new economic development and high-wage jobs and a stable economic setting for some of the most respected and recognized companies in the world including Verizon, Citi Bank, and Microsoft.

Long-term Financial Planning

The District's unassigned fund balance for the General Fund is approximately 25% of the operating expenditures, or about three months of expenditures. The Board adopted financial policy CE(LOCAL)-X to strive to maintain a minimum general operating fund balance equal to the sum of at least three months (i.e., 25 percent) of total budgeted general fund operating expenditures. For the last thirteen years, the fund balance for the General Fund has consistently been above the 25% goal of Fund Balance to Actual Expenditures.

Much of the District's planning effort is focused on the District's Improvement Plan. The plan demonstrates the commitment to increase student achievement for all students. Campus Improvement Plans, which work in concert with the District's plan, address specific needs of students at individual campuses. The District and Campus Improvement Plans include annual goals for improving student achievement and objective evaluation criteria for measuring success.

The Department of Performance Outcomes & Data begins the budget development planning cycle with the release of the projected student enrollment for the following fall in December. Staffing charts are updated, and campus staff is adjusted by Human Resources to accommodate the changes in student enrollment. The CFO's Office develops a forecast document that compares the prior year's actual expenditures to the current year budget and projects the financial position of the District for the next three years. The parameters for this forecast model are developed early in the budget cycle by the Administration and provided to and discussed with the Finance Committee which is made up of three members of the Board of Trustees, the Chief Financial Officer and three members of the Finance department. Financial calculations such as taxable assessed value growth, optional homestead exemption, employee raises, fund balance levels, and state funding assumptions are determined early in the budget cycle in preparation for accurate budget estimates necessary for budget compilation. This allows the District several months of planning for developing budgets for district-wide staffing, and non-payroll campus and department needs, before the first budget draft is presented to the Board of Trustees in June, with the final adoption of the budget by August 31st each year.

Financial Policies

The Annual Comprehensive Financial Report for the year ended August 31, 2025, is prepared in accordance with GAAP and in conformance with standards of financial reporting established by GASB using guidelines recommended by the GFOA. This report covers all funds of the District. Presented funds are organized into three types dictated by the nature of the activities involved:

Governmental Funds:

- General Fund
- Food Service Fund
- Debt Service Fund
- Capital Projects Fund
- Non-Major Funds

Proprietary Funds:

- Internal Service Funds

Fiduciary Funds:

- Custodial Funds

Single Audit

As a recipient of Federal financial assistance, the District is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to federal programs, and is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended in 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). As a part of the District's single audit, tests are made to determine the adequacy of internal controls, including that portion related to Federal financial assistance programs, as well as to determine the District's compliance with applicable laws and regulations. The results of the District's single audit for the fiscal year ended August 31, 2025, provided no conditions that would be considered a material weakness in relation to a Federal financial assistance program, and no material instances of non-compliance with applicable laws and regulations were noted. Information related to this single audit, including the schedule of expenditure of federal awards, findings and recommendations, and independent auditor's reports on internal controls and compliance with applicable laws and regulations, is included in this report.

Budgetary Controls

The District maintains budgetary controls to ensure compliance with the legal provisions of the Texas Education Code, as well as to provide management with an instrument for planning and controlling operations. Annual budgets are legally adopted for the General Fund, Food Service Special Revenue Fund, and the Debt Service Fund at the functional level within each fund. The remaining Special Revenue Funds and the Capital Projects Fund adopt project length budgets. The District maintains an encumbrance accounting system as a method of ascertaining the availability of funds. The encumbrance accounting method provides for recording commitments in the budgetary control accounts. Appropriations are encumbered at the time purchase orders are issued or contracts awarded. Appropriations lapse at fiscal year-end, and encumbrances outstanding at that time are generally re-appropriated in the subsequent year's budget.

Internal Controls

An internal control structure that has been designed, managed and maintained by the District is in place to ensure that the District's assets are protected from loss, theft and misuse, and to ensure that accurate accounting data is compiled in the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

Independent Audit

State law and District policy require an annual audit by independent certified public accountants. Weaver and Tidwell, L.L.P. was selected to fulfill this requirement. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirement of the Single Audit Act of 1984, as amended in 1996, and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The independent auditor's report on the basic financial statements is included in the financial section of this report.

Awards

The Association of School Business Officials awarded the Certificate of Excellence in Financial Reporting, and the Government Finance Officers Association awarded the Certificate of Achievement for Excellence in Financial Reporting, to the District for its annual comprehensive financial report for the fiscal year ended August 31, 2024. To be awarded these certificates, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements. This is the thirty-second consecutive year that the district has prepared this report and won these prestigious awards.

These certificates are valid for a period of one year only. We believe that our dedication toward the current comprehensive annual financial report continues to meet the programs' requirements; therefore, we are preparing submissions to ASBO and GFOA, so the organizations can evaluate their eligibility for the fiscal year 2025 certificates.

The District received a Superior rating for the 2024 School's Financial Integrity Rating System of Texas (FIRST). For the previous twenty-three years, the District earned a Superior Achievement (or Perfect) rating from the School's FIRST. The superior and perfect ratings confirm the District's excellence in managing and reporting taxpayer dollars.

Acknowledgements

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Business Services Department. We would like to express our appreciation to all members of the department who assisted and contributed to its preparation.

We also wish to thank the Board of Trustees for their continued leadership and support, and for planning and conducting the financial operations of the District in a responsible and progressive manner.

Sincerely,

Magda Hernández
Superintendent

Fernando Natividad

Independent Auditor's Report

To the Members of the Board of Trustees
Irving Independent School District
Irving, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Irving Independent School District (the District), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 8 to the basic financial statements, during the year ended August 31, 2025, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. Beginning net position has been restated as a result of the implementation of this statement. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the introductory section, statistical section and schedule of required responses to selected school FIRST indicators but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2026 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion And Analysis

As management of the Irving Independent School District (the "District"), we offer readers of the District's basic financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2025. We encourage readers to consider the information presented here in conjunction with the District's financial statements and in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- General revenues accounted for \$423,207,394, or 86%, of all fiscal year 2025 revenues. Program-specific revenues in the form of charges for services and grants and contributions accounted for \$69,087,322, or 14%, of total fiscal year 2025 revenues.
- The District had \$423,429,752 in expenses related to governmental activities, of which \$69,087,322 was offset by program-specific charges for services or grants and contributions. General revenues of \$423,207,394 were adequate to provide for the remaining costs of these programs, resulting in a \$68,864,964 increase in net position.
- Among major funds, the General Fund had \$339,994,979 in revenues which primarily consisted of state aid and property taxes, and \$320,840,233 in expenditures. The General Fund's fund balance increased \$19,394,847 from \$139,868,206 as of August 31, 2024 to \$159,263,053 as of August 31, 2025.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements and required supplementary information. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. These statements include the statement of net position and the statement of activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters.

The statement of net position presents information on all of the District's assets, deferred inflows/outflows of resources, liabilities and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unpaid salary).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation, and operation of non-instructional services.

Fund financial statements. The *fund financial statements* report the District's operations in more detail than the government-wide statements by providing information about the District's major funds, as opposed to the District as a whole as presented in the government-wide financial statements. The District's major funds are the general fund, food service fund, debt service fund, and capital projects fund. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District and how the sales revenues covered the expenses of the goods or services. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.

Lastly, the fiduciary statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

Notes to the basic financial statements. The notes provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

Other information. The combining and individual fund statements contain even more information about the District's individual funds. The section labeled Required T.E.A. Schedules contains data used by monitoring or regulatory agencies, such as TEA, for assurance that the District is using funds supplied in compliance with the terms of grants.

The combining and individual fund statements referred to earlier are presented immediately following the general fund and food service fund budgetary comparison.

Government-Wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, the District's overall assets and deferred outflows of resources exceeded the liabilities and deferred inflows of resources by \$235,540,404 as of August 31, 2025.

A portion of the District's net position represents resources subject to external restrictions on how they may be used. As of August 31, 2025, the District's restricted net position for federal and state programs was \$23,470,943 and restricted net position for future debt service payments was \$15,984,711. Unrestricted net position can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements. As of August 31, 2025, unrestricted net position showed a \$69,987,780 deficit at the end of the year.

Net investment in capital assets was \$266,072,530. The District uses capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The following table presents a summary of the District's net position for the fiscal years ended August 31, 2025 and 2024.

	Governmental Activities			
	2025	2024	Increase (Decrease)	Percentage Change
Current and other assets	\$ 679,237,815	\$ 543,645,855	\$ 135,591,960	25%
Capital assets (net)	635,979,211	502,606,311	133,372,900	27%
Total assets	1,315,217,026	1,046,252,166	268,964,860	26%
Deferred outflows	70,449,816	88,025,401	(17,575,585)	-20%
Current liabilities	94,300,247	73,703,490	20,596,757	28%
Long-term liabilities	963,571,675	774,945,367	188,626,308	24%
Total liabilities	1,057,871,922	848,648,857	209,223,065	25%
Deferred inflows	92,254,516	113,000,357	(20,745,841)	-18%
Net investment in capital assets	266,072,530	236,580,087	29,492,443	12%
Restricted	39,455,654	31,060,275	8,395,379	27%
Unrestricted	(69,987,780)	(95,012,009)	25,024,229	-26%
Total net position	\$ 235,540,404	\$ 172,628,353	\$ 62,912,051	36%

The following are significant current-year transactions that have had an impact on the statement of net position:

- Total assets increased by \$268.9 million, or 26%, from the prior year. This is attributed to the increase in construction projects that's currently ongoing for the district as a result of the 2023 and 2025 bond issuances.
- Deferred outflows of resources decreased by \$17.6 million, or 20% and deferred inflows decreased \$20.7 million, or 18%. The pension and OPEB deferred outflows and inflows change year to year based on the calculations of the Teacher Retirement System actuary.
- Total liabilities increased \$209.2 million, or 25% from the prior year. There was a \$222.1 million bond issuance in fiscal year 2025.
- The District's net position increased by \$62,912,051, and there was a decrease in beginning net position of \$5,952,913, which was a change in accounting principle due to the implementation of GASB 101, *Compensated Absences*.

The District's total revenues for the fiscal year ended August 31, 2025 were \$492,294,716. The total cost of all programs and services was \$423,429,752. The following table presents a summary of the changes in net position for the fiscal years ended August 31, 2025 and 2024.

	Governmental Activities			
	2025	2024	Increase (Decrease)	Percentage Change
Revenues:				
Program revenues:				
Charges for services	\$ 2,274,254	\$ 2,543,141	\$ (268,887)	-11%

Change in net position	68,864,964	68,964,732	(99,768)	0%
Net position - beginning	172,628,353	103,663,621	68,964,732	67%
Change in accounting principle - GASB 101	(5,952,913)	-	(5,952,913)	-
Net position - beginning, as restated	166,675,440	103,663,621	63,011,819	61%
Ending net position	\$ 235,540,404	\$ 172,628,353	\$ 62,912,051	36%

The District's reliance upon tax revenues is demonstrated by the graph below, which indicates that 44% of total revenues for governmental activities come from local taxes.

The District's total revenue this year was \$492,294,716, down \$43,182,930 or 8% from the prior year. The increase in revenues was due to the following events:

- General revenues for maintenance and operations and debt service taxes increased by \$18.6 million or 9% from the prior year, whereas, State program revenues for Operating Fund decreased by \$8.9 million or 5% from the prior year.
- Investment earnings year over year decreased by \$4.2 million or 14%, this is attributed to the flattening of market rates that the nation has been experiencing for this past year.

The cost of all governmental activities this year was \$423,429,752. However, as shown in the statement of activities, the amount that our taxpayers ultimately financed for these activities through district taxes was \$152,964,921 because some of the costs were paid by those who directly benefited from the programs (\$2,274,254), by other governments and organizations that subsidized certain programs with grants and contributions (\$66,813,068), or by state aid (\$179,660,578), investment income (\$26,021,248), and other miscellaneous income (\$1,728,501).

The following table presents the total cost of the District's major functional activities and the net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs):

	Total Expenses	Net Expenses
Instruction, curriculum, and media services	\$ 224,546,031	\$ 198,879,178
Instructional and school leadership	30,970,860	27,483,890
Student support services, child nutrition and co-curricular activities	71,837,186	37,539,154
General administration	14,143,503	13,051,424
Plant maintenance, security, and data processing	53,687,915	51,916,806
Community services	3,929,777	1,178,472
Interest and fiscal charges	23,467,535	23,467,535
Intergovernmental charges	846,945	825,971
Total expenses	\$ 423,429,752	\$ 354,342,430

The District's Funds

As the District completed the year, its governmental funds reported a combined fund balance of \$611,993,594 which is an increase of \$109,261,769 from the prior year.

The schedule below indicates the fund balance by fund type as of August 31, 2025 and August 31, 2024.

	Fund Balance August 31, 2025	Fund Balance August 31, 2024	Change in Fund Balance
General fund	\$ 159,263,053	\$ 139,868,206	\$ 19,394,847
Food service	23,054,831	18,083,132	4,971,699
Debt service	16,034,099	12,912,282	3,121,817
Capital projects	413,234,283	332,064,856	81,169,427
Nonmajor funds	407,328	(196,651)	603,979
Total	\$ 611,993,594	\$ 502,731,825	\$ 109,261,769

General Fund

The fund balance of the General Fund increased \$19,394,847 from the prior year. The following factors contributed to the increase:

- Due to declining enrollment numbers throughout the state the district took several strategic measures to cut budget throughout the district in efforts to stay financially healthy. As a result expenditures in most function levels experienced a decrease in spending when compared to the prior year.
- Local revenue increased by \$10.3 million but state resources decreased by \$8.8 million.

The District is a service entity; therefore, the largest portions of the General Fund expenditures are related to payroll and contracted services such as utilities, as illustrated below.

Food Service Fund

The fund balance of the Food Service Fund increased \$4,971,699 from the prior year. This slight increase is due to the District serving more meals in the 2024-2025 fiscal year which in turn increased federal revenues by around \$3.4 million plus District efforts to streamline processes to help cut costs.

Debt Service Fund

The Debt Service fund balance increased \$3,121,817. Property tax revenue increased \$5.2 million from prior year because of increased property values.

Capital Projects Fund

The Capital Projects fund balance increased \$81,169,427 from the prior year. In 2024-2025 fiscal year the District issued \$222,115,000 in Series 2025 building bonds, and continued bond projects with both the 2025 and 2023 bond funds.

Budgetary Highlights

The difference between the original budget and the final amended budget were necessary amendments for changes in situations and estimates. Expenditures had budget amendments increasing the appropriation budget by \$2,989,388. Revenues had budget amendment increasing revenue budget by \$886,465. The major components of these changes are reflected on Exhibit G-1 and the key factors for the changes can be summarized below.

The following factors contributed to the increase in the expenditures budget:

- Function 13 for curriculum and instructional staff development was approved to be amended by \$3.4 million and funds were transferred to other functions as needed.
- Function 31 for guidance, counseling, and evaluation services was approved to be amended by \$2.6 million to accommodate greater expenditures that were anticipated in the original budget.
- Function 36 for co-curricular/extracurricular activities was approved to be amended by \$3.1 million to accommodate greater expenditures that were anticipated in the original budget.
- There was a \$886,465 increase to the final amended budget compared to the original budget for general fund local revenue and other sources. The increase was for campus activity funds to accommodate campus activities as they raise funds throughout the year.

Final Budget Compared to Actual Results:

As of August 31, 2025, actual revenue exceeded the final estimated revenues by \$17.5 million and final appropriations exceeded actual expenditures by \$3.6 million. The most significant variances are summarized below:

- Local and intermediate sources along with State program revenue for the fiscal year earned a combined total of \$18.6 million more than anticipated and federal sources earned \$1 million less than expected for a net increase of \$17.5 million.
- Expenditures' budget exceeded actual expenditures by \$3.6 million due to varied circumstances of the district. These can be attributed to unfilled positions, unspent funds within departmental/campus budget or incomplete projects by August 31, 2025, that resulted in budget rolling forward into the next year.

Capital Assets and Debt Administration

Capital Assets

As of August 31, 2025, the District had invested \$635,979,211 in capital assets, net of accumulated depreciation and amortization of \$554,064,339, including land and improvements, facilities, and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net increase in capitalized cost of \$133,372,900 from last year. The total depreciation and amortization expense for the year was \$21,255,832. The following schedule presents capital asset balances net of depreciation and amortization for the fiscal year ended August 31, 2025:

Land and improvements	\$ 31,165,980
Furniture and equipment	27,622,173
Right-to-use leased assets	1,235,495
SBITA Assets	2,147,179
Buildings and improvements	410,854,334
Construction in progress	162,954,050
Total	\$ 635,979,211

More detailed information about the District's capital assets is presented in Note 5 in the financial statements.

Debt

As of August 31, 2025, the District had \$795,065,859 in general obligation bonds payable, including accreted interest, with \$32,195,000 due within one year. The District continues to have favorable general obligation bond ratings indicated by Aa2 and AA+ ratings from Moody's Investors Service and Standard & Poor's Ratings Group, respectively.

Additional information on the District's long-term debt can be found in Note 8 in the financial statements.

Additional information on the District's Pension and OPEB liabilities can be found in Note 6 and 7, respectively, to the financial statements as indicated in the table of contents of this report.

Economic Factors and Next Year's Budgets and Rates

The District's elected and appointed officials considered many factors when preparing the 2025-2026 budget and setting the 2025 tax rates. After a decade of property value increase the 2025 property value saw a small decrease. The certified tax roll reflected values of \$22,307,229,200, which is a 1% increase in value compared to the prior fiscal year.

The Board approved for the tax rate to remain the same as 2024 at \$1.0159 for the 2025 tax year. The Maintenance and Operations tax rate remained at \$0.7179; the interest and sinking rate also remained at \$.2980. As the result of the decrease in property values, it is anticipated that local property tax collections will decrease for maintenance and operations as well as interest and sinking fund compared to 2024.

As of August 31, 2025, the fund balance for the general fund increased by \$19.3 million to \$159,263,053.

- The non-spendable fund balance increased by \$241,063 to \$964,440.
- The unassigned fund balance increased by \$125,000 to \$98,925,000.
- The assigned fund balance increased by \$19,028,784 to \$59,473,613.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning any of the information provided in this report, or requests for additional information, should be addressed to the Director of Business Operations, Irving Independent School District, P.O. Box 152637, Irving, Texas, 75015-2637.

Irving Independent School District**Exhibit C-1R**
**Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
August 31, 2025**

Total Fund Balances - Governmental Funds		\$	611,993,594
Amounts reported for governmental activities in the statement of net position are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$1,189,543,776 and the accumulated depreciation/amortization is \$553,677,905, which does not include those assets held in the internal service fund (\$113,340).			635,865,871
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.			5,936,332
Internal Service Funds are used by the District's management to charge the cost of health insurance, workers compensation, unemployment, and benefits administration to the funds. The assets and liabilities of the Internal Service Funds are included with governmental activities.			2,356,511
The deferred loss on refundings is not a current period transaction and therefore is not reported in the funds. The deferred loss on refundings is included in the deferred outflows of resources with governmental activities.			11,697,272
Included in the items related to debt is the recognition of the District's proportionate share of the TRS net pension liability (\$120,774,051) and a deferred inflow of resources (\$13,946,194), and a deferred outflow of resources (\$27,969,282). The result is a decrease in net position.			(106,750,963)
Included in the items related to debt is the recognition of the District's proportionate share of the TRS-Care net OPEB liability (\$72,949,249) and a deferred inflow of resources (\$78,308,322), and a deferred outflow of resources (\$30,783,262). The result is a decrease in net position.			(120,474,309)
Bonds, leases, and SBITAs payable are not due and payable in the current period and therefore are not reported as liabilities in the funds. Bonds, leases, and SBITAs payable and related accounts at year-end consist of (does not include leases held by the internal service fund totaling \$109,798):			
Bonds Payable	\$	(748,582,939)	
Premium/Discount on Bonds Payable		(46,482,920)	
Interest Payable		(1,672,743)	
SBITA Liability		(1,473,710)	
Leases Payable		(1,121,808)	
Compensated Absences Liability		(5,749,784)	
			(805,083,904)
Net Position - Governmental Activities		\$	235,540,404

Irving Independent School District

Exhibit C-3

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Year Ended August 31, 2025

Total Net Change in Fund Balances - Governmental Funds \$ 109,261,769

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation and amortization expense. This is the amount by which capital outlay (\$155,568,519) exceeded depreciation (\$19,366,352) and amortization (\$1,254,032) in the current period.

134,948,135

The disposal of capital assets is not recognized in the governmental funds.

(484,287)

Because some property taxes will not be collected for several months after the district's fiscal year ends, they are not considered "available" revenues and are deferred inflows in the governmental funds. Unavailable revenue, net of bad debt, decreased by this amount this year.

773,482

Internal Service Funds are used by the district's management to charge the cost of health insurance, workers compensation, unemployment, and benefits administration to the funds. The net revenue (expense) of the Internal Service Funds is reported with governmental activities.

(181,630)

Current year long-term debt payments on bonds, leases, and SBITA payable, and payments of accreted interest on capital appreciation bonds are expenditures in the fund financial statements, but they also reduce long-term liabilities in the statement of net position.

40,928,305

Bond issuances, leases, SBITAs, and related costs are shown as "other sources" and "other uses" in the governmental funds, but are shown on the statement of net position with related costs amortized over the life of the bonds. Differences consist of the following:

Building Bonds Issued	\$ (222,115,000)	
Premium on Current Interest Bonds	(5,188,053)	
SBITAs	(1,697,467)	
Amortization of Refunding Loss	(2,121,458)	
Amortization of Bond Premiums	5,992,251	
Change in Compensated Absences Liability	203,129	(224,926,598)

The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds.

The net change consists of a decrease in deferred outflows (\$27,637,411); decrease in deferred inflows (\$2,320,705); and decrease in net pension liability (\$21,701,129).

(3,615,577)

The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds.

The net change consists of an increase in deferred outflows (\$12,183,284); decrease in deferred inflows (\$18,425,136); and increase in net OPEB liability \$17,899,315.

12,709,105

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Differences consist of the following:

Change in Accrued Interest	\$ (392,284)	
Interest Accretion	(155,456)	(547,740)

Change in Net Position - Governmental Activities

\$ 68,864,964

Irving Independent School District

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies

Irving Independent School District's (the District) basic financial statements have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental units in conjunction with the Texas Education Agency's (TEA) Financial Accountability System Resource Guide (FASRG). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

A. Reporting Entity

The Board of Trustees, a seven-member group, has financial accountability for all activities related to public elementary and secondary education within the jurisdiction of the District. Since members of the board are elected by the public, they have the authority to make decisions and to appoint administrators and managers.

In evaluating how to define the government for financial reporting purposes, the District's management has considered all potential component units. By applying the criteria set forth in generally accepted accounting principles, the District has determined that no other organizations require inclusion in its reporting entity.

The District receives funding from local, state and federal government sources and is required to comply with the requirements of these funding entities.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all non-fiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from these statements. An exception to this general rule would be amounts that are reasonably equivalent in value to the interfund services provided. The *governmental activities* are supported by tax revenues and intergovernmental revenues. The *business-type activities* rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following Major Funds:

General Fund - This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund, and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.

Irving Independent School District

Notes to the Financial Statements

Food Service Fund – This fund is established to account for Food Service Program transactions. The District's Food Service Fund is considered a special revenue fund since it meets the following criteria: (1) User fees are charged to supplement the National School Lunch Program (NSLP), (2) The General Fund subsidizes the Food Service Program for all expenditures in excess of NSLP, and (3) The District does not consider the Food Service Program completely self-supporting. Food Service fund balances are used exclusively for child nutrition program purposes.

Debt Service Fund – This governmental fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund, and a separate bank account is maintained. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.

Capital Projects Fund – This governmental fund is established to account for proceeds, on the modified accrual basis, from the sale of bonds and other resources to be used for Board authorized acquisition, construction or renovation, and furnishing and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

The District reports the following Proprietary Fund:

Internal Service Funds – The District utilizes Internal Service Funds to account for its workers' compensation, unemployment insurance, science kit refurbishment and district-wide print shop. The General Fund is contingently liable for liabilities of these funds. The principal operating revenues of the District's internal service funds are charges to other funds for services. Operating expenses for internal service funds include the cost of providing the services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Sub-fund accounting is employed to maintain the integrity of these activities of the District. See Note 1 (O), (P), and (Q) for additional discussion of the District's self-insurance plans.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Custodial Funds – The District accounts for resources held for others in a custodial capacity in a custodial fund. The District's custodial funds are the student activity fund and the flexible benefits fund. These funds are used to account for assets held by the District as an agent for student and other organizations. The District has no administrative involvement with the assets, or direct financial involvement with the assets.

C. Basis of Accounting/Measurement Focus

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Irving Independent School District

Notes to the Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount. In accordance with the Financial Accountability System Resource Guide (FASRG), the District has adopted and installed an accounting system that exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Account Codes section of the FASRG. Mandatory codes are utilized in the form provided in that section.

D. Budgetary Data

Formal budgetary accounting is employed for the General, Food Service, and Debt Service Funds, as required in TEA's FASRG. The budget is prepared and controlled at the fund and function level (See Note 1 in the Notes to Required Supplementary Information). The official school budget is prepared for adoption for required Governmental Funds prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The Board of Trustees formally adopts the budget at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Food Service Special Revenue Fund and Debt Service Fund. The remaining special revenue funds and the Capital Projects Fund adopt project-length budgets, which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles. The budget was properly amended throughout the year by the Board of Trustees. Such amendments are before the fact and are reflected in the official minutes of the Board.

E. Encumbrance Accounting

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts.

An encumbrance represents a commitment of Board appropriations related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at August 31, and encumbrances outstanding at that time are either canceled or provided for in the subsequent year's budget. Outstanding encumbrances at August 31, 2025 that were subsequently provided for in the 2025-2026 budget totaled \$334,721 for the General Fund.

Irving Independent School District

Notes to the Financial Statements

Deposits and Investments

Cash and Cash Equivalents - For purposes of the Statement of Cash Flows, the Proprietary Funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments – Investments for the District, except for certain investment pools and certificates of deposit, are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost or net asset value; i.e. fair value.

F. Due From (To) Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded in all affected funds in the period in which transactions are executed in the normal course of operations. See Note 10 for additional discussion of interfund receivables and payables.

G. Inventories

The consumption method is used to account for inventories of food products, technology, school supplies and athletic equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. The Food Service (Special Revenue Fund) commodity inventories received through the U.S. Department of Agriculture are recorded as inventory on the date received and recognized as revenue. In the governmental funds, inventories are reported as nonspendable fund balance.

H. Prepaid Items

Prepaid items of \$113,651 in the General Fund and NonMajor Governmental Funds are purchases which benefit the next school year. The consumption method is used to account for these items paid in advance. In the governmental funds, they are reported as nonspendable fund balance.

I. Capital Assets

Capital assets, which include land, buildings, furniture and equipment, and construction in progress, are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined as land, land improvements, buildings, building improvements with an initial cost of any amount, and vehicles, furniture and equipment with an initial individual cost of more than \$5,000 and an estimated useful life greater than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value rather than fair value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. When assets are retired, or otherwise disposed of, the related costs or other recorded amounts are removed. Land and construction in progress are not depreciated.

Irving Independent School District

Notes to the Financial Statements

Buildings, land improvements, furniture and equipment are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Building and improvements	40
Land improvements	20
Portable buildings	20
Food service/vocational/athletic equipment	15
Furniture, fixtures and equipment	10
Library books/musical instruments	10
Vehicles	10
Technology/maintenance equipment	5
Software	3

J. Leases

The District is a lessee for noncancellable leases of copiers. The District recognizes a lease liability, reported with long-term debt, and a right-to-use lease asset (lease asset), reported with other capital assets, in the government-wide and proprietary fund financial statements. The District recognizes lease liabilities with an initial, individual value of \$50,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the District is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

L. Subscription-Based Information Technology Arrangements (SBITAs)

The District has noncancellable contracts with SBITA vendors for the right to use information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets). The District recognizes a subscription liability, reported with long-term debt, and a right-to-use subscription asset (an intangible asset), reported with other capital assets, in the government-wide financial statements. The District recognizes subscription liabilities with an initial, individual value of \$50,000 or more.

Irving Independent School District

Notes to the Financial Statements

At the commencement of an SBITA, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of SBITA payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for SBITA payments made at or before the SBITA commencement date, plus certain initial implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying IT assets.

Key estimates and judgments related to SBITAs include how the District determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The District uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for SBITAs.
- The subscription term includes the noncancellable period of the SBITA.
- Subscription payments included in the measurement of the subscription liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, termination penalties if the District is reasonably certain to exercise such options, subscription contract incentives receivable from the SBITA vendor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

M. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Deferred losses on refundings are reported as deferred outflows of resources and are amortized over the shorter of the life of the old debt or the life of the new debt. Issuance costs are included in interest and fiscal charges.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Fund Equity

In the fund financial statements, governmental funds report fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which the amounts in the respective governmental funds can be spent. The District reports the following classifications of fund balances:

Nonspendable -- includes amounts that cannot be spent because they are either not in spendable form or, for legal or contractual reasons, must be kept intact. This classification includes inventories and prepaid items.

Irving Independent School District

Notes to the Financial Statements

Restricted -- includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to contractual provisions or enabling legislation. This classification includes the child nutrition program, retirement of long-term debt, construction programs and other federal and state grants.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action of the highest level of decision making authority. Committed fund balance is reported pursuant to resolution passed by the District's Board of Trustees.

Assigned – includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. Board Policy CE (Local) has authorized the Superintendent or Chief Financial Officer to assign fund balance.

As of August 31, 2025, the District has assigned fund balance in the General Fund for the following purposes: 1) Campus Activity Funds – assigned to distinguish the portion of fund balance allocated to activity funds, 2) Insurance Deductibles, 3) Technology, 4) Bond Planning and Future Debt Reduction, 5) Future Pay Adjustments, 6) Equipment Acquisition Repair Replacement, and 7) Other unplanned/unexpected expenditures as they arise with approval from the board and superintendent.

Unassigned – includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts and then unassigned amounts.

It is the desire of the Board to attempt to maintain a fund balance in the general operating fund that is approximately 25 percent, or three months, of general operating expenditures, excluding any nonspendable fund balance.

Net position on the Statement of Net Position includes the following:

Net Investment in Capital Assets – the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Federal and State Programs – the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the federal and state government.

Restricted for Debt Service – the component of net position that reports the difference between assets, liabilities, and deferred inflows/outflows of resources with constraints placed on their use by law.

Unrestricted – the difference between the assets and liabilities that are not reported in net investment in capital assets and restricted net position.

Irving Independent School District

Notes to the Financial Statements

O. Compensated Absences

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee benefit account) during or upon separation from employment. The liability for compensated absences is reported as incurred in the government-wide financial statements. The liability for compensated absences includes salary-related benefits, where applicable.

P. Data Control Codes

Data control codes refer to the account code structure prescribed by the Texas Education Agency's Financial Accountability System Resource Guide.

Q. Self-Insured Workers' Compensation

On September 1, 1992, the District established its self-funded Workers' Compensation program. The District maintained a self-insured retention of \$600,000 per occurrence and purchases excess coverage to statutory limits from Safety National Casualty Company. Claims administration was provided by the third party administrator TRISTAR Risk Management Inc. On September 1, 2023, the District began using TASB Risk Fund's fully funded plan, where one contribution covers all claims, services and administration, which is a one-time annual expenditure. Beginning September 1, 2023, the District no longer carried a workers' compensation claim liability, as they were no longer self-insured, and TASB took over as administrator of the program.

During the year ended August 31, 2025, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers' Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members' injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2025, the Fund carries a discounted reserve of \$50,247,590 for future development on reported claims and claims that have been incurred but not yet reported. For the year-ended August 31, 2025, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2025, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

R. Self-Insured Unemployment

The District through a reimbursement program provides unemployment insurance protection through the Texas Workforce Commission (TWC), should an employee experience a job loss through no fault of his own. As a reimbursing employer (IISD employees receive unemployment benefits directly from the Texas Workforce Commission), the District refunds unemployment benefit claims on a quarterly basis to TWC.

Irving Independent School District

Notes to the Financial Statements

S. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The risk is minimized by the purchase of excess workers' compensation insurance, property and liability coverage, and a set-aside loss fund for damages under a particular deductible or for where no other protection exists. During fiscal year 2025, there were no significant reductions in insurance coverage for any category of risk. In addition, there are no settlements in excess of the insurance coverage in any of the three prior fiscal years.

Insurance and coverage policies are purchased for the following exposure with the deductible/retention also indicated.

Insurance/Coverage	Deductible/ Retention	Per Occurrence Limit
Property	\$100,000 \$250,000 Wind/Hail	\$957,450,548 blanket RC
Flood/earthquake/extra exp.	\$100,000	\$10,000,000
EDP equip/EE/data & media	\$10,000	\$4,293,427
Wind turbines, geothermal systems	\$10,000	\$5,721,764
BI/EE	\$10,000	\$25,000
Other equipment breakdown	\$10,000	\$100,000,000
Crime	\$10,000	\$500,000
Valuable papers	\$100,000	\$500,000
Liability (E & O)	\$10,000	\$2,000,000 PO/2,000,000 Agg.
Liability (general)	None	\$2,000,000
Employee benefits	None	\$100,000
Cyber liability - TASB	None	\$100,000/\$10,000 to notify
Cyber liability - endurance	\$75,000	\$1,000,000
Liability (fleet)	\$5,000	\$500,000 CSL
Comprehensive ACV	\$1,000	ACV
Collision ACV	\$1,000	ACV
Catastrophic PD	\$10,000	\$2,621,948
Workers' compensation excess	\$600,000	Statutory

During the fiscal year 2012, the District executed a revised interlocal agreement with the TASB Risk Management Fund (the Fund). In addition to coverage protection, the Fund also provides its members with valuable loss control assistance to include inspections, webinars/seminars, loss prevention grants and awards, and an annual two-day conference each spring. The District is expected to adhere to standards and best practices in the timely reporting of any claims or potential claims, in the implementation of prudent loss control measures, and address any deficiencies noted in a timely manner. Any subrogation cannot be waived without prior approval of the Fund.

The District expects timely payment of any claims and the protection of tort immunity to be exercised as appropriate. The Fund is to provide legal counsel when appropriate to defend a lawsuit against the District, and that the legal counsel arrangement is agreed to either work independently or collaboratively with the District's legal counsel in defense of legal actions. This Fund agreement can renew every year unless a 30-day notice is given to not renew by any party for any reason. If any breach of the agreement occurs, immediate termination of the agreement can go into effect as well.

Irving Independent School District

Notes to the Financial Statements

T. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

U. Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the Net OPEB Liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

V. Deficit Fund Balance

At August 31, 2025, the Federal Special Revenue Fund and State Special Revenue Fund, both nonmajor governmental funds, had a deficit fund balance of \$8,784 and \$200,424, respectively. These funds incurred expenditures under grants that were not reimbursed in a timely manner under the modified accrual basis of accounting to be included in revenue. However, the District anticipates receiving reimbursement for these grants in fiscal year 2026.

Note 2. Deposits and Investments

Cash Deposits – The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law, and these securities are held for safekeeping and trust with the District's and the depository bank's agent bank. The pledged securities shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Under Texas state law, a bank serving as the school depository must have a bond or, in lieu thereof, deposited or pledged securities with the District or an independent third party agent, in an amount equal to the highest daily balance of all deposits the District may have during the term of the depository contract, less any applicable FDIC insurance.

At August 31, 2025, the carrying amount of the District's cash, not including fiduciary funds, was \$4,323. The bank balance was \$2,567,447. During 2024-2025, the District's combined deposits were fully insured by federal depository insurance or collateralized with securities pledged to the District and held in the District's name by the District's agent.

Irving Independent School District

Notes to the Financial Statements

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

1. Name of bank: J.P. Morgan Chase - Irving, Texas.
2. Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$29,474,422.
3. Largest combined collected cash account balance required to be collateralized amounted to \$18,296,143 and occurred on January 27, 2025.
4. Total amount of FDIC coverage at the time of the largest combined balance was \$250,000.

Investments – The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. State law and District policy limits credit risk by allowing investing in: (1) obligations, including letters of credit, of the U.S. or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) other obligations guaranteed by the U.S. or the State of Texas or their agencies and instrumentalities, (4) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent, (5) guaranteed or secured certificates of deposit issued by state or national banks domiciled in Texas, and (6) fully collateralized repurchase agreements.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Irving Independent School District

Notes to the Financial Statements

The District's investments are measured as presented in the table below. The District's investment balances, weighted average maturity, and credit risk of such investments are as follows:

	August 31, 2025	Fair Value Measurements Using			Percent of Total Investments	Weighted Average Maturity (Days)	Credit Risk
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)			
Cash and imprest funds	\$ 4,323	\$ -	\$ -	\$ -	0.00%		
Money market funds	1,247,726	-	-	-	0.19%		
Landing Rock	11,479,142	-	-	-	1.73%		
Investments measured at amortized Cost:							
Investment pools:							
TexPool	1,184,618	-	-	-	0.18%	36	AAAm
Investments measured at net asset Value (NAV):							
Investment pools:							
Lone Star	7,312,661	-	-	-	1.10%	23	AAAm
TexSTAR	10,334,477	-	-	-	1.55%	36	AAAm
Texas CLASS	621,669,183	-	-	-	93.54%	35	AAAm
LOGIC	9,897,523	-	-	-	1.49%	46	AAAm
Investment pools total	650,398,462	-	-	-			
Investments subject to fair value							
Agency securities	1,496,568	-	1,496,568	-	0.23%	388	
Total Value	\$ 664,626,221	\$ -	\$ 1,496,568	\$ -			
Portfolio weighted average maturity						35	

Through the Landing Rock insured deposits program, the District maintains interest-bearing on-demand deposits. The program offered by Landing Rock, invests funds at financial institutions throughout the U.S. The District has entered into an agreement with Landing Rock to act in an agent capacity for the program. Funds in these programs are FDIC insured upon deposit at participating program institutions. Cash deposits are distributed among well capitalized banks in increments of less than \$250,000, the current FDIC insurance limit. Liquidity is at par plus interest, without any early withdrawal penalties or fees.

The TexPool, TexSTAR, Texas CLASS, Lone Star, and LOGIC investment pools are external investment pools measured at amortized cost to report net position to compute share prices. Accordingly, the fair value of the position in these pools is the same as the value of the shares in each pool. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. TexPool and Lone Star have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

Irving Independent School District

Notes to the Financial Statements

These local government investment pools operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The Texas Local Government Investment Pool (TexPool), Local Government Investment Cooperative (LOGIC), Texas Short Term Asset Reserve Program (TexSTAR) and Lone Star Investment Pool are organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. LOGIC and TexSTAR are co-administered by JP Morgan Chase & Co. and First Southwest Asset Management under an agreement with their Boards of Directors.

The Texas Comptroller of Public Accounts is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company, which is authorized to operate TexPool. In addition, the TexPool Advisory Board advises on TexPool's Investment Policy. This Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

Lone Star Investment Pool is administered by First Public which is a wholly-owned subsidiary of the Texas Association of School Boards (TASB). First Public is also a registered broker-dealer with the Securities and Exchange Commission. The Lone Star Investment Pool is overseen by a Board of Trustees comprised of pool participants.

Texas Short Term Asset Reserve Program (TexSTAR) is administered by J.P. Morgan Investment Management Inc. (JPMIM) and Hilltop Securities Inc. (HTS) under an agreement with the TexStar board of directors. JPMIM provides investment management services, and FirstSouthwest, a division of HTS, provides participant services and marketing. The fund is rated AAAm by Standard and Poor's Rating Service.

Texas CLASS (Texas Cooperative Liquid Assets Security System) was organized in March 1996 under a trust agreement executed by and among Texas local governmental entities in accordance with the Public Funds Investment Act, and the Texas Government Code and remains in full compliance with Chapter 2256. The fund is administered by Public Trust Advisors, LLC and is rated AAAm by Standard & Poor's Rating Services.

LOGIC is duly chartered by the State of Texas Interlocal Cooperation Act, is administered by First Southwest Asset Management, Inc. and J.P. Morgan Investment Management, Inc. (JPMIM), and managed by JPMIM. J.P. Morgan Chase provides custody, fund accounting and transfer agency services. LOGIC may invest in obligations of the U.S. or its agencies and instrumentalities; repurchase agreements; SEC-registered money market funds rated in the highest rating category by at least one nationally recognized statistical rating organization (NRSRO); and commercial paper rated A-1, P-1 or equivalent by on NRSRO and is fully secured by an irrevocable letter of credit.

Furthermore, Public Trust Advisors, LLC provides specialized investment opportunities and a broad range of services to state and local governments, academic institutions, and other public and private-sector investors.

U.S. Government Agency Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Certificates of Deposit are valued at amortized cost, which approximates fair value. These are included as Level 2 in the fair value hierarchy.

Irving Independent School District

Notes to the Financial Statements

The Government Accounting Standards Board issued Statement No. 40, Deposit and Investment Risk Disclosures to address common deposit and investment risk related to credit risk, custodial risk, concentration of credit risk, interest rate risk, and foreign currency risk. The District employs various strategies to address these risks.

Interest rate risk occurs whenever rising interest rates will cause a fixed income security to lose fair value. The District manages its exposure to interest rate fluctuations and interest rate risk through its investment policy, through diversity of issuer and maturity and by limiting final maturity of its investments for a maximum of five years, with most purchases between 1.5 and 3.5 years.

The District's investment policy states under the diversity section that, "The investment portfolio shall be diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from over concentration of assets in a specific class of investments, specific maturity, or specific issuer." Therefore, it manages interest rate risk by laddering the portfolio so that agency positions are not concentrated in one time frame or in one issuer, thereby reducing the overall volatility of the portfolio.

Custodial credit risk-deposits occur when deposits are not covered by depository insurance, and they are uncollateralized or the collateral is held by the financial institution or their trust department but not in the District's name. The District's investment policy requires the District to control this risk by employing a third party, the Federal Reserve Bank, to hold the collateral for the District in the District's name.

Custodial credit risk-investments occur whenever investments are held by the counterparty's trust department but not in the District's name. The District's investment policy requires the District to control this risk by trading all securities on a delivery vs. payment basis through the Federal Reserve book entry system and safekeeping them with a third party, JPMorgan Chase Bank, registered in the District's name.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law and the District's investment policy limits the District's investments to high quality rated instruments that have been evaluated by agencies such as Standard and Poor's or Moody's Investor Service. The District controls and monitors credit risk by purchasing only quality rated instruments or investing in local government investment pools that have been evaluated by Standard and Poor's, Fitch, or Moody's Investors Service and complies with the Public Funds Investment Act. The Public Funds Investment Act limits investments in commercial paper to A1P1 ratings issued by at least two of the nationally recognized statistical rating organizations (NRSROs), and this is reflected in the investment policy of the District. The school district currently has no direct holdings of commercial paper. The local government investment pools that the District uses are also rated by the NRSROs.

Lone Star and LOGIC are rated AAA by Standard and Poor's. Texas CLASS, TexPool, and TexSTAR are rated AAAM by Standard & Poor's as noted in the table above.

Concentration of credit risk is the risk associated with holding investments that are not in pools and in excess of 5% of the total portfolio. As of August 31, 2025, the District held \$0 of securities with a zero par amount. All agency securities held by the District are rated AA+ by Standard and Poor's and Aaa by Moody's Investors Service. The District controls this risk by laddering the portfolio, limiting the final maturity of each investment of a maximum of five years through its investment policy with most purchases between 1.5 and 3.5 years, and by diversifying between agency types when possible.

Foreign currency risk is the risk of loss due to fluctuations in the exchange rate. The District has no exposure to foreign currency risk.

Irving Independent School District

Notes to the Financial Statements

Note 3. Property Taxes

Property taxes are considered available when they become due and receivable within the current accounting period or within 60 days thereafter. The District levies taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by the lien date, February 1 of the year following the October 1 levy date. The assessed value of the property tax roll on January 1, 2024, upon which the levy for the 2024-2025 fiscal year was based, was \$22,546,567,363. Taxes not paid by June 30 are subject to both penalty and interest charges plus 20% delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2025, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.7179 and \$0.2980 per \$100 valuation, respectively, for a total of \$1.0159 per \$100 valuation.

Current tax collections for the year ended August 31, 2025, were 98.32% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes.

Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2025, property taxes receivable, net of estimated uncollectible taxes, totaled \$4,303,134 and \$1,623,355 for the General and Debt Service Funds, respectively.

The District elected to participate in a tax increment reinvestment zone with the City of Irving in August 1999. By terms of the participation agreement with the City, the District will contribute 100% of ad valorem taxes collected on the increased assessed valuation of real property in the tax increment reinvestment zone in excess of the tax increment base value established for the zone on January 1, 1998. The Tax Increment Financing (TIF) Fund with the City of Irving ended in the 2018-2019 fiscal year. The remaining fund balance has been assigned and will be prioritized and spent on projects in the tax increment reinvestment zone.

In return, the City will reimburse the District 75% of the taxes collected for the zone to pay for district projects identified in the project plan to be constructed in the zone for educational facilities and maintenance for operating such facilities. The 25% retained by the City will be used to pay for infrastructure in the zone to promote economic development in the zone, specifically that portion of the tax increment reinvestment zone that encompasses the boundaries of the District.

No remaining tax levy has been collected for the zone in the current fiscal year as the agreement has ended.

Under current state funding laws, as well as a "hold harmless" provision in the participation agreement, the District will remain revenue neutral with respect to the total revenue from local ad valorem taxes and state sources. The District can expect to receive funds for each year it contributes to the tax increment reinvestment zone.

Irving Independent School District

Notes to the Financial Statements

Note 4. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. All federal grants included below in Federal & State Special Revenue Funds are passed through the TEA and are reported on the financial statements as Due from Other Governments. Furthermore, there are times when overpayments are received from a State agency and money may be due to a State agency.

Balances at August 31, 2025 consisted of the following Due from Other Governments:

<u>Fund</u>	<u>State Entitlements</u>	<u>Federal Grants</u>
General fund	\$ 3,539,317	\$ -
Food service fund	-	1,806,691
Nonmajor special revenue funds	874,081	2,114,102
Total	\$ 4,413,398	\$ 3,920,793

Note 5. Capital Assets

Capital asset activity, as reported in governmental activities, for the year ended August 31, 2025, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions / Adjustments</u>	<u>Transfers</u>	<u>Ending Balance</u>
Capital assets not depreciated:					
Land	\$ 21,991,044	\$ -	\$ -	\$ -	\$ 21,991,044

Governmental activities capital assets, net	\$ 502,606,311	\$ 134,312,685	\$ (939,785)	\$ -	\$ 635,979,211

Irving Independent School District

Notes to the Financial Statements

Depreciation and amortization expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
Instruction	\$ 10,877,744
Instructional resources & media services	354,765
Curriculum development & instructional staff development	15,475
Instructional leadership	216,585
School leadership	905,720
Guidance, counseling & evaluation services	617,656
Health services	130,186
Student transportation	1,167,797
Food services	1,487,675
Co-curricular/extracurricular activities	636,306
General administration	925,494
Plant maintenance & operations	715,264
Security & monitoring services	896,370
Data processing services	1,303,066
Facilities	1,005,729
Total depreciation/amortization expense, governmental activities	\$ 21,255,832

The District has active construction projects that started near the end of the fiscal year. Of the District's active construction projects, the total construction commitment as of August 31, 2025 is over \$302 million for projects under the General and Capital Project funds.

Note 6. Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/learning-resources/publications> ; by writing to TRS at P.O. Box 149676, Austin, TX 78714-0185; or by calling 1-800-223-8778.

Irving Independent School District

Notes to the Financial Statements

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity, except for members who are grandfathered where the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as previously noted in the Plan Description above. Accordingly, the 2023 Texas Legislature passed Senate Bill (SB) 10 and House Joint Resolution (HJR) 2 to provide eligible retirees with a one-time stipend and an ad hoc cost-of-living-adjustment (COLA).

One-Time Stipends - Stipends, regardless of annuity amount, were paid in September 2023 to annuitants who met the qualifying age requirement on or before August 31, 2023:

- A one-time \$7,500 stipend to eligible annuitants who are 75 years of age and older.
- A one-time \$2,400 stipend to eligible annuitants age 70 to 74.

Cost-of-Living Adjustment - A cost-of-living adjustment (COLA) was dependent on Texas voters approving a constitutional amendment (Proposition 9) to authorize the COLA. Voters approved the amendment in the November 2023 election and the following COLA was applied to eligible annuitants' payments beginning with their January 2024 payment:

- 2% COLA for eligible retirees who retired between September 1, 2013 through August 31, 2020.
- 4% COLA for eligible retirees who retired between September 1, 2001 through August 31, 2013.
- 6% COLA for eligible retirees who retired on or before August 31, 2001.
-

Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

Irving Independent School District

Notes to the Financial Statements

Rates for such plan fiscal years are as follows:

	Contribution Rates	
	2025	2024
Member	8.25%	8.25%
Non-employer contributions entity (State)	8.25%	8.25%
Employers/District	8.25%	8.25%

The contribution amounts for the District’s fiscal year 2025 are as follows:

2025 Employer Contributions	\$ 10,749,510
2025 Member Contributions	20,265,339
2025 NECE On-behalf Contributions	12,963,623

Contributors to the plan include active members, employers and the State of Texas as the only non-employer contributing entity. The State is also the employer for senior colleges and universities, medical schools, and other entities including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is a surcharge an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.
- All public schools, charter schools and regional education service centers must contribute 1.8% of the member’s salary beginning in fiscal year 2023, gradually increasing to 2.0% in fiscal year 2025.

Irving Independent School District

Notes to the Financial Statements

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

On August 31, 2025, the District reported a liability of \$120,774,051 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District are as follows:

District's proportionate share of the collective net pension liability	\$	120,774,051
State's proportionate share that is associated with the District		<u>140,518,638</u>
Total	\$	<u>261,292,689</u>

The net pension liability was measured as of August 31, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as August 31, 2023 rolled forward to August 31, 2024. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 through August 31, 2024.

At the measurement date of August 31, 2024, the District's proportion of the collective net pension liability was 0.1977174%, which was a decrease of 0.00969% from its proportion measured as of August 31, 2023.

For the fiscal year ended August 31, 2025, the District recognized pension expense of \$16,794,326 and revenue of \$12,963,623 for support provided by the State.

On August 31, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 6,656,901	\$ 942,945
Changes in actuarial assumptions	6,235,823	836,011
Difference between projected and actual investment earnings	734,143	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	3,592,905	12,167,238
Contributions paid to TRS subsequent to the measurement date	<u>10,749,510</u>	<u>-</u>
Total	\$ <u>27,969,282</u>	\$ <u>13,946,194</u>

Irving Independent School District

Notes to the Financial Statements

\$10,749,510 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending August 31,	Pension Expense (Income)
2026	\$ (1,706,784)
2027	11,183,008
2028	(1,080,466)
2029	(4,950,746)
2030	(171,434)
Total	\$ 3,273,578

Actuarial Methods and Assumptions

The actuarial valuation of the total pension liability was performed as of August 31, 2023. Update procedures were used to roll forward the total pension liability to August 31, 2024 and was determined using the following actuarial methods and assumptions:

Actuarial cost method	Individual entry age normal
Asset valuation method	Fair value
Single discount rate	7.00%
Long-term expected rate of return	7.00%
Municipal bond rate as of August 2023	3.87% - The source for the rate is the Bond Buyers 20 Index which represents the estimated yield of a portfolio of 20 general obligation bonds maturing in 20 years based on a survey of municipal bond traders.
Last year ending August 31 in projection period (100 years)	2123
Inflation	2.30%
Salary increases	2.95% to 8.95% including inflation
Ad hoc postemployment benefit changes	None
Mortality rates	The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioners Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published projection scale ("U-MP"). The active mortality rates were based on the published PUB(2010) Mortality Tables for Teachers, below median, also with full generational mortality

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2021 and adopted in July 2022.

Irving Independent School District

Notes to the Financial Statements

Discount Rate and Long-Term Expected Rate of Return

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the rates set by the legislature in the 2019 session. It is assumed that future employer and state contributions will be 9.54 percent of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2024 are summarized below:

Asset Class	Target Allocation**	Long-term Expected Geometric Real Rate of Return***	Expected Contribution to Long-term Portfolio Returns
Global equity			
USA	18.0%	4.4%	1.0%
Non-U.S. developed	13.0%	4.2%	0.8%
Emerging markets	9.0%	5.2%	0.7%
Private equity	14.0%	6.7%	1.2%
Stable value			
Government Bonds	16.0%	1.9%	0.4%
Stable Value Hedge Funds	5.0%	3.0%	0.2%
Absolute Return*	0.0%	4.0%	0.0%
Real return			
Real Estate	15.0%	6.6%	1.2%
Energy, natural resources and infrastructure	6.0%	5.6%	0.4%
Commodities	0.0%	2.5%	0.0%
Risk parity	8.0%	4.0%	0.4%
Asset Allocation Leverage			
Cash	2.0%	1.0%	0.0%
Asset Allocation Leverage	-6.0%	1.3%	-0.1%
Inflation expectation			2.4%
Volatility drag****			-0.7%
Total	100.0%		7.9%

* Absolute return includes credit sensitive investments.

** Target allocations are based on the FY 2024 policy model.

*** Capital Market Assumptions (CMA) come from 2024 SAA Study CMA Survey (as of 12/31/2023)

**** The volatility drag results from the conversion between arithmetic and geometric mean returns.

Irving Independent School District
Notes to the Financial Statements

Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of the TRS net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
District's proportionate share of the net pension liability:	\$ 192,906,762	\$ 120,774,051	\$ 61,006,972

Change of Assumptions Since the Prior Measurement Date

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

Change of Benefit Terms Since the Prior Measurement Date

The 2023 Texas Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House Joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$1.645 billion for one-time stipends and \$3.355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

Note 7. Defined Other Post-Employment Benefit Plan

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRSCare). It is a multiple-employer, cost-sharing defined benefit Other Post-Employment Benefit (OPEB) plan that has a special funding situation. TRS-Care was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/learning-resources/publications> ; by writing to TRS at P.O. Box 149676, Austin, TX 78714-0185; or by calling 1-800-223-8778.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Irving Independent School District

Notes to the Financial Statements

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). The premium rates for retirees are reflected in the following table:

TRS-Care Monthly Premium Rates

	Medicare	Non-Medicare
Retiree or surviving spouse	\$ 135	\$ 200
Retiree and spouse	529	689
Retiree or surviving spouse and children	468	408
Retiree and family	1,020	999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State’s contribution rate which is 1.25% of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75% of each active employee’s pay for fiscal year 2024. The following table shows contributions to the TRS-Care plan by type of contributor.

Rates for such plan fiscal years are as follows:

	2025	2024
Active employee	0.65%	0.65%
Non-employer contribution entity (State)	1.25%	1.25%
Employers (District)	0.75%	0.75%
Federal/private funding*	1.25%	1.25%

*Contributions paid from federal funds and private grants are remitted by the employer (District) and paid at the State rate.

Irving Independent School District
Notes to the Financial Statements

The contribution amounts for the District's fiscal year 2025 are as follows:

2025 District contributions	\$	2,065,054
2025 Member contributions		1,596,663
2025 NECE on-behalf contributions (state)		2,735,512

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

The State of Texas also contributed \$1,739,210, \$1,364,764, and \$1,367,642, in 2025, 2024, and 2023, respectively, for on-behalf payments for Medicare Part D.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

On August 31, 2025, the District reported a liability of \$72,949,249 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided by the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District are as follows:

District's proportionate share of the net OPEB liability	\$	72,949,249
State's proportionate share of the net OPEB liability associated with the District		<u>91,404,419</u>
Total	\$	<u><u>164,353,668</u></u>

The net OPEB liability was measured as of August 31, 2024 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as August 31, 2023 rolled forward to August 31, 2024. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2023 through August 31, 2024.

At the measurement date of August 31, 2024, the employer's proportion of the collective net OPEB liability was 0.2403478% which was a decrease of 0.00831% from its proportion measured as of August 31, 2022.

For the fiscal year ended August 31, 2025, the District recognized net OPEB revenue of \$11,880,888 due to recognition of deferred inflows in excess of deferred outflows and current year expense. OPEB revenue of \$2,735,512 was recognized for support provided by the State.

Irving Independent School District

Notes to the Financial Statements

On August 31, 2025, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 13,981,922	\$ 36,405,630
Changes of assumptions	9,336,642	23,802,496
Net difference between projected and actual earnings on plan investments	-	204,282
Changes in proportion and differences between District contributions and proportionate share of contributions (cost-sharing plan)	5,399,644	17,895,914
District contributions after measurement date	2,065,054	-
Totals	\$ 30,783,262	\$ 78,308,322

\$2,065,054 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended August 31, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending August 31,	
2026	\$ (12,546,531)
2027	(9,242,597)
2028	(10,349,084)
2029	(8,350,402)
2030	(4,842,704)
Thereafter	(4,258,796)
Total	\$ (49,590,114)

Actuarial Methods and Assumptions

The actuarial valuation of the total OPEB liability was performed as of August 31, 2023. Update procedures were used to roll forward the total OPEB liability to August 31, 2024.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2023 TRS pension actuarial valuation that was rolled forward to August 31, 2024:

Demographic Assumptions	Economic Assumptions
Rates of mortality	General inflation
Rates of retirement	Wage inflation
Rates of termination	
Rates of disability	

Irving Independent School District

Notes to the Financial Statements

See Note 6 for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2021.

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

The initial medical trend rate was 6.75 percent for non-Medicare retirees. For Medicare retirees, trend rates are higher in the first two years due to anticipated growth but thereafter match those of non-Medicare retirees. The initial prescription drug trend rate was 7.25 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 11 years.

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Actuarial cost method	Individual entry age normal
Single discount rate	3.87%
Aging factors	Based on plan specific experience
Election rates	Normal retirement: 62% participation prior to age 65 and 25% after age 65. Pre-65 retirees: 30% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Ad hoc postemployment benefit changes	None

Discount Rate

A single discount rate of 3.87% was used to measure the total OPEB liability at August 31, 2023. This was a decrease of 0.26% in the discount rate since the August 31, 2023 measurement date. The plan is essentially a “pay-as-you-go” plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments to current plan members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the same used for the pension plan.

Sensitivity Analysis of Rates

Discount Rate

The following table presents the District’s proportionate share of the TRS-Care net OPEB liability, as well as what the District’s proportionate share of the net OPEB liability would be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (3.87%) in measuring the net OPEB liability.

Sensitivity of the Net OPEB Liability to the Single Discount Rate Assumptions			
	1% Decrease (2.87%)	Current Discount Rate (3.87%)	1% Increase (4.87%)
District's Proportionate share of the Net OPEB Liability	\$ 86,667,116	\$ 72,949,249	\$ 61,865,005

Irving Independent School District

Notes to the Financial Statements

Healthcare Cost Trend Rates

The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

Sensitivity of the Net OPEB Liability to the Healthcare Cost Trend Rate Assumptions

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's Proportionate share of the Net OPEB Liability	\$ 59,406,333	\$ 72,949,249	\$ 90,597,018

Change of Assumptions Since the Prior Measurement Date

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate changed from 4.13% as of August 31, 2023 to 3.87% as of August 31, 2024. Additionally, the tables used to model the impact of aging on the underlying claims were revised.

Change of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

Note 8. Long-Term Liabilities

Long-term debt includes par bonds, capital appreciation (deep discount) serial bonds, and variable rate bonds as follows:

Description	Final Maturity	Interest Rate Payable	Amounts Original Issue	Bonds Outstanding at 09/01/2024	Additions	Reductions/ Refunded	Interest Accretion	Bonds Outstanding at 08/31/2025	Due Within One Year
2011 Qualified school construction bond	2026	None	\$ 34,770,000	\$ 3,620,000	\$ -	\$ (1,810,000)	\$ -	\$ 1,810,000	\$ 1,810,000

2025 School building	2045	4.00% - 5.00%	222,115,000	-	222,115,000	-	-	222,115,000	-
Total bonded indebtedness				561,185,000	222,115,000	(37,650,000)	-	745,650,000	32,195,000
Accreted interest and CAB premium				4,717,483	155,456	-	(1,940,000)	2,932,939	-
Premium/discounts on bonds				47,287,118	5,188,053	(5,992,251)	-	46,482,920	-
Total bonds payable				\$ 613,189,601	\$ 227,458,509	\$ (43,642,251)	\$ (1,940,000)	\$ 795,065,859	\$ 32,195,000
Right-to-use lease liability				\$ 1,866,839	\$ -	\$ (635,233)	\$ -	\$ 1,231,606	\$ 651,692
SBITA liability				1,570,853	1,697,467	(1,794,610)	-	1,473,710	825,892
Net pension liability				142,475,180	11,850,325	(33,551,454)	-	120,774,051	-
Net OPEB liability				55,049,934	21,682,326	(3,783,011)	-	72,949,249	-
Compensated absences*				5,952,912	-	(203,128)	-	5,749,784	-
Total long-term liabilities				\$ 820,105,319	\$ 262,688,627	\$ (83,609,687)	\$ (1,940,000)	\$ 997,244,259	\$ 33,672,584

*Compensated absences are reported as a net change for the year as allowed under the provisions of GASB 101, paragraph 30.

Irving Independent School District

Notes to the Financial Statements

Debt service principal requirements to maturity (below) exclude accumulated accretion of interest, which is included in the interest column:

Year Ended August 31,	Principal	Interest	Total Requirements
2026	\$ 32,195,000	\$ 35,861,325	\$ 68,056,325
2027	32,590,000	33,509,800	66,099,800
2028	31,990,000	30,983,850	62,973,850
2029	34,915,000	29,403,150	64,318,150
2030	26,955,000	28,020,350	54,975,350
2031-2035	152,570,000	121,406,583	273,976,583
2036-2040	191,330,000	81,804,275	273,134,275
2041-2045	243,105,000	28,386,812	271,491,812
Totals	\$ 745,650,000	\$ 389,376,145	\$ 1,135,026,145

There are a number of limitations and restrictions contained in the various general obligation bond indentures. The District is in compliance with all limitations and restrictions at August 31, 2025.

Leases Payable

The District has entered into multiple lease agreements as lessee. The leases allow the right-to-use copiers over the term of the lease. The District is required to make monthly payments at its incremental borrowing rate or the interest rate stated or implied within the leases. The lease rate, term and ending lease liability are as follows:

	Interest Rate	Liability at Commencement	Lease Term in Months	Ending Balance
Governmental activities				
Pitney Bowes	3.445%	\$ 88,705	60	\$ 41,446
Xerox	0.712%	498,235	60	109,799
Canon	0.736%	2,161,620	60	1,080,361
Total governmental activities				\$ 1,231,606

The future principal and interest lease payments as of fiscal year end are as follows:

Fiscal Year Ending	Principal	Interest	Total
2026	\$ 651,692	\$ 33,256	\$ 684,948
2027	575,150	16,604	591,754
2028	4,764	41	4,805
Total governmental activities	\$ 1,231,606	\$ 49,901	\$ 1,281,507

The value of the right-to-use assets as of the end of the current fiscal year was \$2,750,098 and had accumulated amortization of \$1,514,603.

Irving Independent School District

Notes to the Financial Statements

Subscription Based Information Technology Arrangements (SBITA)

The District has entered into multiple SBITAs that allow the right-to-use the SBITA vendor's information technology software over the subscription term. The District is required to make monthly, quarterly, or annual payments at its incremental borrowing rate or the interest rate stated or implied within the SBITAs. The SBITA rate, term and ending subscription liability are as follows:

	Interest Rate(s)	Liability at Commencement	SBITA Term in Months	Ending Balance
Governmental activities				
Software	1.850%-3.409%	\$ 4,735,855	12-43	\$ 1,473,710
Total governmental activities				\$ 1,473,710

The future principal and interest SBITA payments as of fiscal year end are as follows:

Fiscal Year Ending	Principal	Interest	Total
2026	\$ 825,892	\$ 29,700	\$ 855,592
2027	603,879	12,906	616,785
2028	43,939	1,076	45,015
Total governmental activities	\$ 1,473,710	\$ 43,682	\$ 1,517,392

The value of the subscription assets as of the end of the current fiscal year was \$3,769,744 and had accumulated amortization of \$1,622,565.

Compensated Absences

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee benefit account) during or upon separation from employment. Based on the criteria listed, the following types of leave qualify for liability recognition for compensated absences – vacation and sick leave. The liability for compensated absences is reported as incurred in the government-wide and proprietary fund financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

State Personal Leave

The District is required under Texas Education Code 22.003 to provide eligible employees with a minimum of five days of personal leave per year (state leave) with no limit on accumulation and no restrictions on transfer between Districts.

Irving Independent School District

Notes to the Financial Statements

Local Leave

The District's policy provides eligible employees with five days of local personal leave per year (local leave) with no limit on accumulation.

Sick Leave

The District's policy permits employees to accumulate earned but unused sick leave benefits, with no limit on accumulation.

The District does not have a monetary obligation for accumulated leave benefits upon separation from service. However, a liability for the estimated value of leave benefits that will be used by employees as time off is included in the liability for compensated absences.

Note 9. Debt Issuances and Defeased Debt

On July 15, 2025, the District issued "Irving Independent School District Unlimited Tax School Building Bonds, Series 2025," totaling \$222,115,000. These bonds incur an average cost over the life of the bonds at a rate of 4.50-5.00% and mature annually with semi-annual interest payments. The proceeds were used to construct and renovate school buildings. The bonds will fully mature in 2045.

In prior years, the District issued refunding bonds for the purpose of restructuring outstanding debt service requirements or decreasing the total debt service payments. These refunding issues defeased selected general obligation and maintenance bonds. There was no defeased debt outstanding as of August 31, 2025.

Note 10. Interfund Receivables, Payables, and Transfers

In the fund financial statements, interfund balances are the results of normal transactions between funds and will be liquidated in the subsequent fiscal year. These balances at August 31, 2025, consisted of the following individual fund receivables and payables:

Fund	Receivable	Payable	Reason
General fund:			
Other nonmajor funds	\$ 2,677,984	\$ -	To reclassify deficit pooled cash
Internal service fund	771,403	-	To reclassify deficit pooled cash
Debt service	-	20,091	To reclassify deficit pooled cash
Debt service fund:			
Debt service	20,091	-	To reclassify deficit pooled cash
Other nonmajor funds:			
General fund	-	2,677,984	To reclassify deficit pooled cash
Internal service:			
General fund	-	771,403	To reclassify deficit pooled cash
	<u>\$ 3,469,478</u>	<u>\$ 3,469,478</u>	

Irving Independent School District

Notes to the Financial Statements

Note 11. Litigation, Commitments, and Contingencies

The District is a party to various legal actions, none of which is believed by administration to have a material impact on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying financial statements for such contingencies.

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. Therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2025, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants, therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Note 12. Local, Intermediate, and Out-of-State Revenues – Governmental Funds

During the current year, local, intermediate and out-of-state revenues for the fund statements consisted of the following:

	General Fund	Food Service Fund	Debt Service Fund	Capital Projects Fund	Nonmajor Other Funds	Total
Property taxes	\$ 150,553,257	\$ -	\$ 62,396,376	\$ -	\$ -	\$ 212,949,633
Food sales	-	633,665	-	-	-	633,665

Note 13. Unearned Revenue and Deferred Inflows of Resources

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned (unearned revenue).

Irving Independent School District

Notes to the Financial Statements

Unearned revenue and deferred inflows of resources at year-end for the fund statements consisted of the following:

	General Fund	Debt Service Fund	Nonmajor Other Funds	Total
Deferred inflows of resources:				
Net tax revenue	\$ 4,312,977	\$ 1,623,355	\$ -	\$ 5,936,332
Total deferred inflows of resources	<u>\$ 4,312,977</u>	<u>\$ 1,623,355</u>	<u>\$ -</u>	<u>\$ 5,936,332</u>
Unearned revenue:				
Other unearned revenues	\$ -	\$ -	\$ 312,045	\$ 312,045
Total unearned revenue	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 312,045</u>	<u>\$ 312,045</u>

For government-wide financial statements, unavailable revenue relating to taxes is recognized as revenue.

Note 14. Shared Services Arrangement

The District is the fiscal agent for the Regional Day School for the Deaf (RDSPD) Shared Services Arrangement (SSA), which provides services to students in its member districts, who have educationally significant hearing loss. In addition to the District, other member districts include Duncanville ISD and Grand Prairie ISD. The District, acting as the fiscal agent, manages the shared arrangement's financial matters, including the budgeting, accounting, auditing, and reporting. In accordance to guidance provided in the TEA's Financial Accountability System Resource Guide the District has accounted for the activities of the SSA in the appropriate special revenue funds. Additionally, the SSA is accounted for using Model #2 and #3 in Section 1.3.1.6 of the Accounting and Reporting Treatment Guidance.

Expenditures billed to the SSA members as of August 31, 2025, are summarized below:

	2025
Carrollton- Farmers Branch ISD	\$ 20,272
Duncanville ISD	159,548
Grand Prairie ISD	<u>348,108</u>
	<u>\$ 527,928</u>

Note 15. New Accounting Pronouncements

GASB Statement No. 101, *Compensated Absences* (GASB 101), improves the information needs of financial statements users by updating the recognition and measurement guidance for compensated absences under a unified model and amending certain previously required disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2023, with earlier application encouraged. GASB 101 was implemented in the District's fiscal year 2025 financial statements with a restatement of \$5,952,912 to net position as of September 1, 2024 to reflect the changes adopted to conform to the new standard.

Irving Independent School District
Notes to the Financial Statements

GASB Statement No. 102, *Certain Risk Disclosures (GASB 102)*, improves financial reporting by providing users of financial statements with essential information regarding certain concentrations of constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. The requirements of this statement are effective for reporting periods beginning after June 15, 2024, with earlier application encouraged. GASB 102 was implemented in the District's fiscal year 2025 financial statements with no impact to amounts or disclosures previously reported.

GASB Statement No. 103, *Financial Reporting Model Improvements (GASB 103)*, establishes new accounting and financial reporting requirements – or modifies existing requirements – related to the following:

- Management's discussion & analysis
- Unusual or infrequent items
- Presentation of the proprietary fund statement of revenues, expenses, and changes in fund net position
- Information about major component units in basic financial statements
- Budgetary comparison information
- Financial trends information in the statistical section

GASB 103 will be implemented in the District's fiscal year 2026 financial statements and the impact has not yet been determined.

GASB Statement No. 104, *Disclosure of Certain Capital Assets (GASB 104)*, establishes requirements for certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. It also establishes requirements for capital assets held for sale, including additional disclosures for those capital assets. GASB 104 becomes effective for the District in fiscal year 2026 and the impact has not yet been determined.

Note 16. Change within the Financial Reporting Entity

For the fiscal year ended August 31, 2024, the ESSER III fund was reported as a major fund, which is now being reported as part of the Nonmajor Governmental Funds in the year ended August 31, 2025. This is considered a change within the financial reporting entity, under GASB 100. The ESSER III fund had no beginning fund balance.

Note 17. Adjustments to and Restatements of Beginning Balances

During fiscal year 2025, changes in accounting principles (GASB Statement 101, *Compensated Absences*) resulted in adjustments to and restatements of beginning net position, as follows:

	<u>Government-Wide</u> Governmental Activities
Beginning net position, as previously presented	\$ 172,628,353
Change in accounting principle - GASB 101	<u>(5,952,913)</u>
Beginning net position, as restated	\$ 166,675,440

Note 18. Subsequent Event

On December 1, 2025, the District issued \$118,330,000 of Series 2025 Unlimited Tax Refunding Bonds.

Notes to the Required Supplementary Information

Note 1. Budgetary Legal Compliance

A. Budgetary Information

The Official Budget was prepared for adoption prior to August 19, 2024 for all required Governmental Funds on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles (see Note 1(D) in the Notes to the Financial Statements). The budget is adopted by fund and function for expenditures and by fund and object for revenues. The appropriate department head or campus principal controls the budget. Therefore, management may transfer appropriations at the object level as necessary without the approval of the Board. The Board of Trustees maintains control within Fund Groups at the function code level for appropriations and object code level for revenues.

The Budget is formally adopted by the Board of Trustees at a duly advertised public meeting in accordance with law prior to the expenditure of funds. The approved budget is filed with the TEA through the Public Education Information Management System (PEIMS).

Should any change in the approved budget be required, budget amendment requests are presented to the Board of Trustees for consideration. Amendments are made before the fact and, once approved, are reflected in the official minutes. During the year, the budget was properly amended in accordance with the above procedures. The Board of Trustees approved the final amendment on August 18, 2025.

B. Budgetary Deficit

In the General Fund, the following functions exceeded budget, where there were greater expenditures than anticipated in the amended budget.

- Function 23 (School leadership)
- Function 31 (Guidance, counseling and evaluation services)
- Function 35 (Food services)
- Function 52 (Security and monitoring services)

In the Food Service Fund, the following functions exceeded budget: Function 35 (Food services).

Notes:

¹ The District performs its own tax collection activities.

² The tax levy reflects the original levy as submitted in the State Property Tax Board School District Report of Property Values, net of any additions or deletions occurring during the year.

³ Total cash collections is total cash, net of interest and penalties and other judgments, as a result collections as a percentage of initial levy may exceed 100%.

Source: Taxable value data used to estimate applicable percentages provided by the Dallas Central Appraisal District. Debt outstanding data provided by each governmental unit.

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

¹ The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

Single Audit Reports

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Board of Trustees
Irving Independent School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Irving Independent School District (the District) as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 15, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major
Federal Program and Report on Internal Control over Compliance as
Required by the Uniform Guidance**

Board of Trustees
Irving Independent School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Irving Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Irving Independent School District
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended August 31, 2025

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2025. The information in this schedule is presented in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

The District has elected not to use the 10% de minimis indirect cost rate as allowed under Uniform Guidance.

Note 2. Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General Fund and certain Special Revenue funds in accordance with the Texas Education Agency's Financial Accountability System Resource Guide. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e. both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. National School Lunch Program non-cash commodities are recorded at their estimated market value at the time of donation.

Note 3. Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards programs per Exhibit K-1 and Federal revenues reported on Exhibit C-2:

Total expenditures of federal awards per Exhibit K-1	\$ 53,988,550
SHARS	<u>1,462,746</u>
Total federal revenues per Exhibit C-2	<u>\$ 55,451,296</u>
